PREFACE

The Bellevue Hospital Nomenclature, compiled by this Committee, was first published in 1903. It was revised and entirely recast in 1909 and published in the New York Medical Journal in May and June of that year.

In this, the fourth edition, the Nomenclature has been again revised and has been collocated with the International List of Causes of Death, by prefixing to each of its terms the proper International Title Number. The Nomenclature thus constitutes an amplification of that list, rendering it suitable for the registration and compilation of morbidity as well as mortality statistics.

The classification of terms into separate groups, alphabetically arranged, is designed to meet the needs of large hospitals where volumes of histories must be kept, easily accessible, and in a useful order.

A statement of the primary causes of injuries being necessary for the purpose of vital statisticians* and of industrial and insurance statisticians as well, a plan has been incorporated whereby, not only is the nature of the injury shown, but the character of the violence is also indicated. This scheme was devised from the Draft of proposed Arrangement of Violent Deaths, which was included by the American Committee in their recommendations preliminary to the Congress of Revision, at Paris, in July, 1909.

The orthography conforms to that recommended by the Basle Anatomical Nomenclature and endorsed by the

* See "Mortality Statistics," 1906 Bureau of the Census, Washington.

Committee on Nomenclature of the American Medical Association.

The Committee on Clinical Records is under the greatest obligation to Frank P. Foster, M.D., Chairman of the Committee on Nomenclature of the American Medical Association and to Cressy L. Wilbur, M.D., Chief Statistician for Vital Statistics, United States Bureau of the Census, for indispensable aid and counsel.

RULES FOR THE RECORDING AND FILING OF HISTORIES*

1. All cards, charts, or other blank forms used in obtaining clinical records of patients must be approved by the Committee on Clinical Records and issued from the Record Room.

2. The Admitting Clerk, upon the admission of a patient shall fill out the sociological data upon the obverse of the bedside card legibly in black ink.

3. The bedside card shall be delivered at once to the Nurse in charge of the ward to which the patient is assigned.

4. The Nurse in charge of the ward shall verify when, and as soon as possible, the sociological data on the bedside card.

5. If any change or addition to the data becomes necessary, the bedside card with the indicated change must be returned at once to the admitting office for correction. After correction, the bedside card must be returned immediately to the ward.

6. If the patient be transferred to another ward in the hospital the Physician or Surgeon making the transfer must sign the bedside card in the place provided therefor.

7. The bedside card and the history must accompany the patient when transferred from one ward to another.

---

* See also Rules for Recording Operations on page 130.

8. The House Surgeon or Physician shall ascertain as soon as possible the alleged character of the violence in all cases of injury and indicate this character by placing a circle around the appropriate printed number on the reverse of the bedside card.

9. The diagnosis of the Visiting Physician or Surgeon shall be recorded upon the bedside card and history. The nomenclature hereinafter contained must be undeviatingly followed.

10. The House Physician or Surgeon shall record on the bedside card the medical and surgical data, including the International Number of the principal disease, immediately upon the discharge of a patient, or in the event of a patient's death, as soon thereafter as possible. In the latter case the terms on the bedside card and on the death certificate must correspond.

11. The Nurse in charge of a ward shall cause the bedside card to be delivered to the Assistant Superintendent's Office immediately upon the discharge or death of a patient.

12. The Assistant Superintendent shall cause the bedside card to be delivered to the Record Clerk within twenty-four hours after the discharge or death of a patient.

13. All histories and other records made upon the charts must be written legibly, in black copying ink, on one side of the paper with as much economy of space as possible. The writing must not extend across the margins for binding and must be signed by the Physician or Surgeon making the record.

14. The House Physician or Surgeon shall record the complete diagnosis on the history upon the discharge or death of a patient. This diagnosis must correspond with that on the bedside card.

15. The Day Nurse must use black copying ink on the medication chart, the Night Nurse must use red copying ink. Nurses must write on both sides of this chart, economizing space as much as possible.

16. The Nurse in charge of a ward shall be responsible to the House Physician or Surgeon for the manner in which the temperature and medication charts are kept. Only black copying ink must be used on the temperature charts, except for the night hours at the top and the vertical lines separating the calendar days, where red copying ink must be used. The lines showing the temperature range must be carefully ruled and must not be made heavier than the heaviest line printed on the chart.

17. The House Physician or Surgeon shall be responsible for the delivery to the Record Clerk of the complete history of each patient immediately after the discharge or death of such patient, except that when a post-mortem examination is to be performed, the history may be retained by the House Physician or Surgeon for a period not exceeding three days.

18. The Pathologist shall be responsible for the delivery to the Record Clerk of a copy of the record of each post-mortem examination.

19. When the anatomical diagnosis of the principal disease does not agree with the clinical diagnosis, the Acting Member of the Committee on Clinical Records shall cause the diagnosis on the bedside card and history to conform to the post-mortem finding unless the clinical evidence is stronger than the pathological evidence.

20. The Record Room and its contents and the Record Clerks shall be under the immediate charge of the Superintendent of the Hospital and of the Committee on Clinical Records.

21. The Record Clerks shall be directly responsible to the Committee on Clinical Records for the proper performance of their duties.

22. The Record Clerks shall number each history serially in its group and shall record this number on each page of the history, on its cover, and on the bedside card.

23. The Record Clerks shall arrange the separate sheets of each history in the following order: History, Physical Examination, Clinical Pathology Charts, Temperature Charts, Medication Charts, Post-Mortem Record. The Record Clerks shall place the history sheets in a cover provided for the purpose, and write the necessary data on the outside of the cover.

24. The Record Clerks shall file the bedside cards from each division of the Hospital separately in drawers provided for the purpose. The cards shall be filed alphabetically according to the name of the patients. At the end of each year, all the cards shall be redistributed alphabetically and permanently preserved.

25. The Record Clerks shall label the drawers of the filing cabinets and the guide cards within the drawers, in accordance with the nomenclature.

26. The Record Clerks shall file the histories of each Division in their respective cabinets.

27. The Chief Record Clerk shall record on the Cross Reference and Complication sheets such complications as the Committee on Clinical Records shall direct. These sheets shall be filed in the proper cabinets.

28. The Chief Record Clerk shall prepare the histories for binding, when, and as directed by the Committee on Clinical Records, and shall keep the bound volumes in the same order as the unbound histories.

29. No original history or other original record shall be removed from the Record Room under any circumstances except upon the order of a Court, but copies of such histories or other records may be made for any member of the Medical Board or at the discretion of the Superintendent of the Hospital or of the Committee on Clinical Records.

30. The Chief Record Clerk shall compile a monthly statistical report on sheets provided for the purpose, as the Committee on Clinical Records may direct, for presentation to the Medical Board.

31. The Chief Record Clerk shall compile annual reports of statistics from the monthly reports as the Committee on Clinical Records may direct.

32. The Chief Record Clerk shall compile an annual report of operations from the data recorded on the bedside card.

33. Copies of all photographs shall be delivered unmounted to the Record Clerk, to be filed with their appropriate histories.

THE NOMENCLATURE

The numbers, words and phrases in bold-faced type, e. g., **79A, Valvular Disease, Chronic Cardiac,** are the exact terms in which the diagnosis of the principal disease or injury must be stated upon the bedside card and history. The complications must not be numbered. No other words must be used on the bedside card or history for this purpose. In the case of injury, the proper International Number denoting the character of the violence, is prefixed to the diagnosis or is in the list printed at the beginning of Injuries on page 108.

When an operation has been performed it must be stated upon the bedside card, using the appropriate word or phrase printed in bold-faced type in the Nomenclature of Operations beginning on page 130.

The words in *italics* are for the purposes of classification only; e. g., *Parasite* **of Lung** is not to be used as a diagnosis, but for the word *Parasite* the variety of parasite must be substituted, as **98 Cysticercus of Lung,** etc.

The words and phrases in Roman type are suggestions to physicians using the nomenclature in diagnosis and instructions to record clerks for filing the histories.

When the entrance of a foreign body has caused external traumatism the term will be found under Injuries. On the other hand when such entrance has been by way of a natural body passage the term will be found under Diseases and Conditions.

The following rules must be adhered to in stating the relation between the principal disease and the complicating or concurrent disease.

A. Of two independent affections the choice should be made in favor of:

1st. An infective disease; e. g., **92 Lobar Pneumonia** and **Atrophic Cirrhosis of Liver.**

2d. The graver affection; e. g., **42A, Carcinoma of Uterus** and **Nephroptosis.**

3d. The disease for which the patient applies for treatment; e. g., **145C Zoster** and **Acute Rhinitis.**

B. When the disease for which the patient enters the hospital is dependent upon another co-existing disease, the latter should be named as the principal disease and the former as the complication; e. g., **79A Chronic Cardiac Valvular Disease** and **Chronic Cardiac Dilatation;** (the reverse is often written); **28 Chronic Pulmonary Tuberculosis** and **Serofibrinous Pleurisy,** and not the reverse; **59 Chronic Morphine Poisoning** and **Colitis.**

C. When a surgical condition complicates a medical case the former should be named as the complication and not (as is usually done) as the principal disease when the diagnosis is completed on the Surgical Division; e. g., **50 Diabetes Mellitus,** and **Gangrene; 92 Lobar Pneumonia** and **Suppurative Pleurisy,** and vice versa when a medical condition complicates a surgical case the former should be named as the complication and not (as is usually done) as the principal disease when the diagnosis is completed on the Medical Division; e. g., **Fracture of Femur** and **Alcohol Poisoning,** and not the reverse.

DISEASES AND CONDITIONS

ABNORMITIES AND MALFORMATIONS, CONGENITAL

To include congenital absence of, and accessory organs. Not to include congenital malformations in still-born children.

150 **Branchial Cyst**
150 **Cervical Rib**
150 **Congenital Amputation of** State part affected.
150 **Congenital Fistula of** State site
150 **Congenital Fracture of** State bone affected
150 **Congenital Malformation of Abdominal Wall** Not to include herniae
150 **Congenital Malformation of Arm**
    150 **Congenital Malformation of Forearm**
    150 **Congenital Malformation of Hand**
150 **Congenital Malformation of** *Circulatory System*
150 **Congenital Malformation of Diaphragm**
150 **Congenital Malformation of** *Digestive System*
150 **Congenital Malformation of** *Ductless Glands and Spleen*
150 **Congenital Malformation of Ear** Not to include external ear
150 **Congenital Malformation of Eye** Not to include eyelid
150 **Congenital Malformation of** *Face* File here congenital malformations of external ear, eyelid, lip, nose, palate and uvula
    150 **Congenital Malformation of Cheek**
    150 **Congenital Malformation of Lower Jaw**
150 **Congenital Malformation of—Joint** State joint affected
    150 **Congenital Dislocation of—Joint**

150 **Congenital Malformation of Leg**
  150 **Congenital Malformation of Foot** To include congenital talipes
150 **Congenital Malformation of** *Lymphatic System*
150 **Congenital Malformation of** *Muscular System*
150 **Congenital Malformation of** *Nervous System*
  150 **Congenital Malformation of Skull**
  150 **Congenital Malformation of Spinal Column**
150 **Congenital Malformation of Pelvic Girdle**
150 **Congenital Malformation of** *Reproductive Organs*
150 **Congenital Malformation of** *Respiratory System*
150 **Congenital Malformation of** *Shoulder Girdle*
150 **Congenital Malformation of Skin** Not to include **150 Naevus**
  150 **Congenital Malformation of Hair**
  150 **Congenital Malformation of Nails**
150 **Congenital Malformation of Thorax**
150 **Congenital Malformation of** *Urinary Organs*
150 **Hermaphroditism**
150 **Monster**
150 **Transposition of** State viscera transposed

THE BLOOD

54 **Anaemia, Pernicious**
54 **Anaemia, Simple**
} Do not use as a primary diagnosis when cause can be determined.

54 **Anaemia, Splenic** To include Banti's disease, primary splenomegaly, and splenic pseudo-leuchaemia
54 **Chlorosis**
55 **Haemophilia**
53C **Leuchaemia**

55 **Polycythaemia, Chronic** Do not use as a primary diagnosis when cause can be determined.

53B **Pseudoleuchaemia, Infantile**

55 **Purpura** Do not use as a primary diagnosis when cause can be determined

49 **Werlhof's Disease**

BONES AND CARTILAGES

State bone or cartilage

146 **Abscess of** State when possible infecting microorganism as a secondary diagnosis. When tuberculous, diagnosticate as **Abscess of, Tuberculous;** use only as a secondary diagnosis under **34 Tuberculosis of** *Bone* and file under Tuberculosis. When affecting vertebrae (Pott's disease), assign number **32**

146 **Atrophy of**

149 **Calcification of** *Cartilage* Do not use as a primary diagnosis when cause can be determined. File when possible under organ affected

149 **Chondritis of**
149 **Perichondritis of**
} State when possible infecting microörganism as a secondary diagnosis. Do not use as a primary diagnosis when cause can be determined. File when possible under organ affected.

146 **Chondrodystrophia Foetalis**

150 **Congenital Malformation of** *Bone* Diagnosticate according to the list of Congenital Malformations

36C Curvature of Spine Do not use as a primary diagnosis when cause can be determined. When tuberculous, diagnosticate as **Abscess of Vertebrae, Tuberculous;** use only as a secondary diagnosis under **Tuberculosis of** *Bone*; assign number **32** and file under Tuberculosis

Exoslosis Diagnosticate as **146 Osteoma of.** File under Tumors

146 Fragilitas Ossium
147 Genu Recurvatum
147 Genu Valgum
147 Genu Varum
} File under Joints

146 Hypertrophy of
146 Leontiasis Ossea
146 Loss of Substance of

Necrosis of
Caries of
} Do not use as a primary diagnosis when cause can be determined

149 Ossification of *Cartilage* Do not use as a primary diagnosis when cause can be determined. File when possible under organ affected. When affecting Larynx assign number **87;** when affecting Tracheal Rings, number **98**

146 Osteitis Deformans
146 Osteogenesis Imperfecta
36A Osteomalacia

146 Osteomyelitis of, Acute
146 Epiphysitis of, Acute
146 Osteomyelitis of, Chronic
146 Epiphysitis of, Chronic
} State when possible infecting microörganism as a secondary diagnosis

146 *Parasite* **of** State variety. File under Parasites

146 **Periostitis of, Acute**
146 **Periostitis of, Chronic**
State when possible infecting microorganism as a secondary diagnosis.

36C **Rickets** File under Miscellaneous Diseases and Conditions

37 **Syphilis of** File under Syphilis

34 **Tuberculosis of** File under Tuberculosis. When affecting vertebrae (Pott's disease) assign number **32**

146 **Union of, Faulty** To include delayed union, faulty union, non-union, vicious union and exuberant callus

BURSAE

State bursa

149 **Bursitis, Acute**
149 **Bursitis, Chronic**
To include abscess of bursa. State when possible infecting microorganism as a secondary diagnosis

149 **Hallux Valgus** (Bunion) File under Joints

37 **Syphilis of** File under Syphilis

34 **Tuberculosis of** File under Tuberculosis

THE CIRCULATORY SYSTEM

ARTERIES AND VEINS

State artery or vein

81 **Aneurysm of**

81 **Aneurysm of, Cirsoid**

81 **Aneurysm of, Varicose**

83 **Aneurysmal Varix of**

81 **Aortitis**

81 **Arterial Sclerosis, General**

ARTERIES AND VEINS—Continued

81	**Claudication, Intermittent**	Use only as a secondary diagnosis under **81 Arterial Sclerosis, General**
81	**Vascular Crisis of**	
150	**Congenital Malformation of**	Not to include **150 Naevus.** File under Congenital Malformations of the Circulatory System
82	**Embolism of**	When puerperal diagnosticate as **139 Embolism of, Puerperium,** and file under Obstetrical Diseases. File when possible under organ affected
81	**Endarteritis Obliterans**	
83	**Phlebitis of**	Not to include **83 Pylephlebitis.** State when possible infecting microörganism as a secondary diagnosis. When puerperal diagnosticate as **139 Phlebitis of, Puerperium,** and file under Obstetrical Diseases
37	**Syphilis of**	File under Syphilis
34	**Tuberculosis of**	File under Tuberculosis
82	**Thromboangitis Obliterans**	
82	**Thrombosis of**	When puerperal diagnosticate as **139 Thrombosis of, Puerperium,** and file under Obstetrical Diseases. File when possible under organ affected
83	**Varix of**	State site. File haemorrhoids, varicocele, varix of bladder, of broad ligament, of oesophagus, and of vulva under organ affected

HEART

150	**Congenital Malformation of Heart**	File under Congenital Malformation of Circulatory System

HEART—Continued

ENDOCARDIUM AND VALVES

78 Endocarditis, Acute
79B Endocarditis, Chronic

These terms must not be used for **79A Valvular Disease, Chronic Cardiac.** State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Endocardium** and file under Infective Diseases.

79A Valvular Disease, Chronic Cardiac

MYOCARDIUM

79C Aneurysm of Heart
79C Atrophy of Heart
79C Dilatation, Acute Cardiac
79C Dilatation, Chronic Cardiac
82 Embolism of Coronary Artery
79C Fatty Heart
85 Heart Block To include Stokes-Adams' disease
79C Hypertrophy of Heart Do not use as a primary diagnosis when cause can be determined
78 Myocarditis, Acute State when possible infecting microörganism as a secondary diagnosis
79C Myocarditis, Chronic
79C *Parasite* **of Heart** State variety. File under Parasites
79C Rupture of Heart, Spontaneous
37 Syphilis of Heart File under Syphilis
34 Tuberculosis of Heart File under Tuberculosis

HEART—Continued

NEUROSES

80 **Angina Pectoris**
85 **Bradycardia**
85 **Palpitation, Cardiac**
85 **Tachycardia**
} Do not use as a primary diagnosis when cause can be determined

PERICARDIUM

77 *Parasite* **of Pericardium** State variety. File under Parasites
77 **Pericarditis** State when possible infecting microorganism as a secondary diagnosis
77 **Adherent Pericardium**
77 **Mediastinopericarditis**
77 **Pyopneumopericardium**
} State when possible infecting microörganism as a secondary diagnosis
77 **Pneumopericardium**
37 **Syphilis of Pericardium** File under Syphilis
34 **Tuberculosis of Pericardium** File under Tuberculosis

THE DIGESTIVE SYSTEM

APPENDIX AND INTESTINE

APPENDIX

108 **Appendicitis, Acute** State when possible infecting microörganism as a secondary diagnosis
108 **Appendicitis, Chronic**
150 **Congenital Malformation of Appendix** File under Congenital Malformation of the Digestive System
110B **Foreign Body in Appendix** Not to include concretions

APPENDIX AND INTESTINE—Continued

APPENDIX—Continued

107 *Parasite* **of Appendix** State variety. File under Parasites

31 Tuberculosis of Appendix File under Tuberculosis

INTESTINE

105B Abscess of Intestine

110B Adhesions of Intestine

109 Artificial Anus

104 Autointoxication, Intestinal, under 2 years

110B Autointoxication, Intestinal (2 years and over)

104 Colitis, Acute under 2 years
105B Colitis, Acute (2 years and over)
— State when possible infecting microörganism as a secondary diagnosis

104 Colitis, Chronic under 2 years
105B Colitis, Chronic (2 years and over)
— To include catarrhal, membranous, mucous and ulcerative colitis. State when possible infecting microörganism as a secondary diagnosis. File **14A Dysentery, Bacillary,** and **14D Dysentery, Unclassified,** under Infective Diseases, and **14B Dysentery Balantidic** and **14C Entamoebic Dysentery,** under Parasites

150 Congenital Malformation of Intestine File under Congenital Malformation of the Digestive System

APPENDIX AND INTESTINE—Continued

INTESTINE—Continued

110B Constipation
110B Dilatation of Intestine
110B Diverticulitis
110B Diverticulum of Intestine, Acquired
104 Duodenitis, under 2 years
105B Duodenitis (2 years and over)
82 Embolism of Mesenteric Artery

104 Enteritis, Acute under 2 years
105B Enteritis, Acute (2 years and over)
104 Enteritis, Chronic under 2 years
105B Enteritis, Chronic (2 years and over)
104 Enterocolitis under 2 years
105B Enterocolitis (2 years and over)

To include catarrhal, phlegmonous and ulcerative enteritis. State when possible infecting microörganism as a secondary diagnosis. Not to include **105B Flagellate Diarrhoea** and **164 Epidemic Meat Poisoning**

110B Enterolith
110A Faecal Fistula Not to include **109 Artificial Anus**
104 Fermentation, Intestinal, under 2 years
105B Fermentation, Intestinal (2 years and over)
110B Foreign Body in Intestine

104 Gastroenteritis under 2 years
105B Gastroenteritis (2 years and over)

State when possible infecting microörganism as a secondary diagnosis

110B Haemorrhage, Intestinal Do not use as a primary diagnosis when cause can be determined

APPENDIX AND INTESTINE—Continued

INTESTINE—Continued

110B Impacted Faeces

110B Neurosis, Intestinal To include enteralgia, enteroparesis, enterospasm and nervous diarrhoea

109 Obstruction, Acute Intestinal
109 Obstruction, Chronic Intestinal
} To include intussusception and volvulus

107 *Parasite* **in Intestine** To include parasite in rectum. State variety

14B Balantidic Dysentery
14C Entamoebic Dysentery
105B Flagellate Diarrhoea
} File under Parasites

107 *Parasite* **in Intestinal Wall** State variety. File under Parasites

110B Splanchnoptosis

110B Sprue (Psilosis)

109 Stricture of Intestine Do not use as a primary diagnosis when cause can be determined

37 Syphilis of Intestine File under Syphilis

82 Thrombosis of Mesenteric Artery

82 Thrombosis of Mesenteric Vein

31 Tuberculosis of Intestine File under Tuberculosis

105A Ulcer of Duodenum

105A Ulcer of Duodenum, Perforating

104 Ulcer of Intestine, under 2 years

105B Ulcer of Intestine (2 years and over)

104 Ulcer of Intestine, Perforating, under 2 years

105B Ulcer of Intestine, Perforating (2 years and over)

LIVER, GALLBLADDER AND GALLDUCTS

LIVER

115 Abscess of Liver State when possible infecting microörganism as a secondary diagnosis

115 Entamoebic Abscess of Liver File under Parasites. When complicating an existing dysentery assign number **14C**

Amyloid Liver Diagnosticate as **55 Amyloid Disease.** File under Miscellaneous Diseases and Conditions

111 Atrophy of Liver, Acute Yellow

113 Cirrhosis of Liver, Atrophic

113 Cirrhosis of Liver, Hypertrophic

150 Congenital Malformation of Liver File under Congenital Malformations of the Digestive System

115 Deformity of Liver, Acquired

115 Displacement of Liver

37 Syphilis of Palate
37 Syphilis of Uvula } File under Syphilis

34 Tuberculosis of Palate
34 Tuberculosis of Uvula } File under Tuberculosis

PHARYNX

100 Abscess of Pharynx State when possible infecting microörganism as a secondary diagnosis. When tuberculous diagnosticate as **Abscess of Pharynx, Tuberculous,** use only as a secondary diagnosis under **34 Tuberculosis of Pharynx** and file under Tuberculosis

150 Congenital Malformation of Pharynx File under Congenital Malformations of the Digestive System

186 Foreign Body in Pharynx

100 Neurosis of Pharynx

100 *Parasite* **of Pharynx** State variety. File under Parasites

100 Pharyngitis, Acute State when possible infecting microörganism as a secondary diagnosis

100 Pharyngitis, Chronic

100 Stricture of Pharynx

37 Syphilis of Pharynx File under Syphilis

34 Tuberculosis of Pharynx File under Tuberculosis

MOUTH, PHARYNX, SALIVARY GLANDS, ETC.—Continued

SALIVARY GLANDS AND DUCTS

State gland or duct involved

99B Abscess of State when possible infecting microorganism as a secondary diagnosis

99B Concretion in

150 Congenital Malformation of File under Congenital Malformations of the Digestive System

99B Fistula of

99B Gaseous Tumor of Parotid

99B Inflammation of State when possible infecting microörganism as a secondary diagnosis. File **19 Mumps,** under Infective Diseases

Ranula Diagnosticate as **99B Retention Cyst of Lingual Duct.** File under Tumors

TEETH, GUMS, AND ALVEOLI

99A Abscess, Alveolar State when possible infecting microörganism as a secondary diagnosis

99A Caries of Tooth

99A Gingivitis

99A Impacted Tooth

99A Pyorrhoea Alveolaris State when possible infecting microörganism as a secondary diagnosis

TONGUE

99B Abscess of Tongue State when possible infecting microörganism as a secondary diagnosis

99B Atrophy of Tongue Do not use as a primary diagnosis when cause can be determined

150 Congenital Malformation of Tongue File under Congenital Malformations of the Digestive System

MOUTH, PHARYNX, SALIVARY GLANDS, ETC.—Continued

TONGUE—Continued

99B Glossitis, Acute State when possible infecting microörganism as a secondary diagnosis

99B Glossitis, Chronic

99B Hypertrophy of Lingual Lymph Node File under Lymphatic System

99B *Parasite* **of Tongue** State variety. File under Parasites

37 Syphilis of Tongue File under Syphilis

34 Tuberculosis of Tongue File under Tuberculosis

TONSILS

100 Abscess, Tonsillar
100 Amygdalitis, Acute Follicular (Tonsillitis)
} State when possible infecting microörganism as a secondary diagnosis

100 Amygdalitis, Chronic

100 Amygdalolith

100 Hypertrophy of Tonsil

100 *Parasite* **of Tonsil** State variety. File under Parasites

37 Syphilis of Tonsil File under Syphilis

34 Tuberculosis of Tonsil File under Tuberculosis

OESOPHAGUS

150 Congenital Malformation of Oesophagus File under Congenital Malformations of the Digestive System

101 Dilatation of Oesophagus

101 Diverticulum of Oesophagus

101 Foreign Body in Oesophagus

OESOPHAGUS—Continued

101 **Oesophagitis**
101 **Rupture of Oesophagus, Spontaneous**
101 **Spasm of Oesophagus**
101 **Stricture of Oesophagus** Do not use as a primary diagnosis when cause can be determined
37 **Syphilis of Oesophagus** File under Syphilis
34 **Tuberculosis of Oesophagus** File under Tuberculosis
83 **Varix of Oesophagus**

PANCREAS

118 **Atrophy of Pancreas**
118 **Calculus of Pancreas**
150 **Congenital Malformation of Pancreas** File under Congenital Malformations of the Digestive System
118 **Obstruction of Pancreatic Duct**
118 **Pancreatitis, Acute** State when possible infecting microörganism as a secondary diagnosis
118 **Pancreatitis, Chronic**
118 *Parasite* **of Pancreas** State variety. File under Parasites
37 **Syphilis of Pancreas** File under Syphilis
34 **Tuberculosis of Pancreas** File under Tuberculosis

RECTUM AND ANUS

110B **Abscess about Rectum** State when possible infecting microörganism as a secondary diagnosis

RECTUM AND ANUS—Continued

150 Congenital Malformation of Anus
150 Congenital Malformation of Rectum
} File under Congenital Malformations of the Digestive System

110A Fissure of Anus

110A Fistula in Ano

110A Fistula, Rectovaginal File under Diseases of Vagina

125 Fistula, Intestino-ureteral File under Diseases of Ureter

125 Fistula, Recto-urethral File under Diseases of Urethra

110A Fistula, Intestino-uterine File under Diseases of Uterus

125 Fistula, Intestinovesical File under Diseases of Bladder

110B Foreign Body in Rectum

Haemorrhage from Rectum Diagnosticate as **110B Haemorrhage, Intestinal.** Do not use as a primary diagnosis when cause can be determined

83 Haemorrhoids

110A Proctalgia Do not use as a primary diagnosis when cause can be determined

110A Proctitis State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Rectum,** and file under Infective Diseases

110B Prolapse of Rectum

145C Pruritus Ani
110B Spasm of Rectum
110B Stricture of Rectum
} Do not use as a primary diagnosis when cause can be determined

RECTUM AND ANUS—Continued

37 **Syphilis of Anus**
37 **Syphilis of Rectum** } File under Syphilis

31 **Tuberculosis of Anus**
31 **Tuberculosis of Rectum** } File under Tuberculosis

110B **Ulcer of Rectum** Do not use as a primary diagnosis when cause can be determined

STOMACH

103 **Achylia Gastrica**
117 **Adhesions about Stomach**
103 **Atony of Stomach** Do not use as a primary diagnosis when cause can be determined
103 **Atrophy of Stomach**
103 **Cardiospasm**
150 **Congenital Malformation of Stomach** File under Congenital Malformations of the Digestive System
103 **Cribbing** (Pneumophagia)
103 **Deformity of Stomach, Acquired**
103 **Dilatation of Stomach, Acute**
103 **Dilatation of Stomach, Chronic** Do not use as a primary diagnosis when cause can be determined
103 **Fermentation, Gastric**
103 **Foreign Body in Stomach**
103 **Gastritis, Acute Catarrhal** Do not use as a prinary diagnosis when cause can be determined. When due to a poison always use as a secondary diagnosis
103 **Gastritis, Acute Phlegmonous** State when possible infecting microörganism as a secondary diagnosis

STOMACH—Continued

103 Gastritis, Chronic Catarrhal

104 Gastroduodenitis, under 2 years
105B Gastroduodenitis (2 years and over)
State when possible infecting microörganism as a secondary diagnosis

104 Gastroenteritis under 2 years
105B Gastroenteritis (2 years and over)
State when possible infecting microörganism as a secondary diagnosis. File under Diseases of the Intestine

103 Gastroptosis

103 Haematemesis Do not use as a primary diagnosis when cause can be determined

103 Hyperchlorhydria

103 Hyperchylia Gastrica

103 Hypochlorhydria

103 Nervous Dyspepsia Do not use as a primary diagnosis when cause can be determined

107 *Parasite* **of Stomach** State variety. File under Parasites

103 Perversion of Appetite

103 Pyloric Incontinence

103 Pylorospasm

103 Regurgitation from Stomach

103 Rumination

103 Stenosis of Pylorus Do not use as a primary diagnosis when cause can be determined

37 Syphilis of Stomach File under Syphilis

31 Tuberculosis of Stomach File under Tuberculosis

102 Ulcer of Stomach

102 Ulcer of Stomach, Perforating

STOMACH—Continued

103 Vomiting, Recurrent To include cyclic, intermittent and periodic vomiting. Not to include **55 Non-diabetic Acidosis, 134B Vomiting of Pregnancy** or **138 Toxaemia of Pregnancy.** Do not use as a primary diagnosis when cause can be determined

THE DUCTLESS GLANDS AND SPLEEN

CAROTID GLAND

PARATHYREOID GLAND

85 Haemorrhage into Parathyreoid Gland

PINEAL GLAND

PITUITARY BODY

55 Acromegaly
55A Hyperpituitarism
55B Hypopituitarism

SPLEEN

116 Abscess of Spleen State when possible infecting microörganism as a secondary diagnosis

Amyloid Spleen Diagnosticate as **55 Amyloid Disease.** File under Miscellaneous Diseases and Conditions

54 Anaemia, Splenic File under Diseases of the Blood

150 Congenital Malformation of Spleen File under Congenital Malformations of the Ductless Glands and Spleen

116 Infarct of Spleen

SPLEEN—Continued

116 *Parasite* **of Spleen** State variety. File under Parasites
116 **Perisplenitis**
116 **Rupture of Spleen, Spontaneous**
116 **Splenitis, Acute**
116 **Splenitis, Chronic Interstitial**
116 **Splenoptosis**
37 **Syphilis of Spleen** File under Syphilis

109 Femoral Hernia
109 Femoral Hernia, Strangulated
109 Inguinal Hernia
109 Inguinal Hernia, Strangulated

109 Internal Hernia
109 Internal Hernia, Strangulated
— To include diaphragmatic hernia, retroperitoneal hernia, and hernia into the lesser peritoneal sac. Not to include **98 Hernia of Lung**

109 Ischiadic Hernia
109 Ischiadic Hernia, Strangulated
109 Ischiorectel Hernia
109 Ischiorectal Hernia, Strangulated
109 Lumbar Hernia
109 Lumbar Hernia, Strangulated
109 Obturator Hernia
109 Obturator Hernia, Strangulated
109 Umbilical Hernia
109 Umbilical Hernia, Strangulated
109 Ventral Hernia
109 Ventral Hernia, Strangulated

INFECTIVE DISEASES

Abscess of Not to include **Abscess of, Tuberculosis.** State site. State when possible infecting microörganism as a secondary diagnosis. File when possible under organ affected and assign appropriate number. When affecting skin and cellular tissue assign number **144**

25A Actinomycosis of State site. File under Parasites

20 Aerogenes Capsulatus Infection

22 Anthrax

25B Aspergillosis of State site. File under Parasites

Bilharziosis Diagnosticate as **107 Schistosomiasis, Intestinal** or **Schistosomiasis, Urinary.** File under Parasites

25B Blastomycosis of State site. File under Parasites

15 Bubonic Plague

143 Carbuncle of State site. State when possible infecting microörganism as a secondary diagnosis

144 Cellulitis of Not to include **130B Cellulitis Pelvic.** State site. State when possible infecting mircroörganism as a secondary diagnosis. When puerperal diagnosticate as **137 Cellulitis, Pelvic, Puerperium** and file under Obstetrical Diseases

61a Cerebrospinal Fever To include only meningococcus infection

38A Chancroid of State site. State when possible infecting microörganism as a secondary diagnosis

19 Chicken Pox

12 Cholera, Asiatic

12a Comma Bacillus Carrier

Coccidiasis of State site and assign appropriate number. File under Parasites

19 Dengue

9 Diphtheria

9b Diphtheria Bacillus Carrier

25B Discomycosis of State site. File under Parasites

14A Dysentery, Bacillary

14B Dysentery, Balantidic File under Parasites

14C Dysentery, Entamoebic File under Parasites

14D Dysentery, Unclassified State when possible infecting microörganism as a secondary diagnosis

107 Entamoebiasis File under Parasites

164 Epidemic Meat Poisoning To include gastrointestinal infections caused by the B. enteritidis and B. β-paratyphoid.

18 Erysipelas

189A Fever of Unknown Cause Do not use this diagnosis when it can be avoided

19 Filariasis File under Parasites

105B Flagellate Diarrhoea File under Parasites

19 Foot and Mouth Disease

143 Furunculosis State when possible infecting microörganism as a secondary diagnosis

19 Gangosa

142 Gangrene of, Infective State site. State when possible infecting microörganism as a secondary diagnosis

19 German Measles

21 Glanders To include farcy

38B Gonococcus Infection of State site. File here according to anatomical system

145C Granuloma Inguinalis

19 Haemoglobinuric Fever When due to malaria diagnosticate as **4 Malaria**

55 Histoplasmosis

10 Influenza

111 Jaundice, Acute Infective State when possible infecting microörganism as a secondary diagnosis

54 Kala Azar

17 Leprosy

4 Malaria

3A Malta Fever

6 Measles

61B **Meningococcus Carrier**
11 **Miliary Fever**
25B **Mucormycosis of** State site. File under Parasites
19 **Mumps**
145C **Oriental Sore** (Aleppo Boil, Delhi Boil, Biskra Button)
19 **Pappataci Fever**
107 **Paragonimiasis** File under Parasites
92 **Pneumonia, Lobar** File under Diseases of the Lung
Pyaemia Diagnosticate as **20 Septichaemia** or **137 Septichaemia, Puerperium**
23 **Rabies**
19 **Rat Bite Fever**
3B **Relapsing Fever**
47 **Rheumatic Fever, Acute**
47 **Rheumatic Fever, Subacute**
19 **Rocky Mountain Spotted Fever**
7 **Scarlet Fever**
107 **Schistosomiasis, Intestinal** File under Parasites
Schistosomiasis, Urinary When affecting the kidney, assign number **122;** when affecting the bladder, number **124.** File under Parasites
20 **Septichaemia** State when possible infecting microörganism as a secondary diagnosis. When puerperal diagnosticate as **137 Septichaemia, Puerperium**
137 **Septichaemia, Puerperium**
5 **Small Pox**
37 **Syphilis**
37 **Syphilis of** State site. File here according to anatomical system
19 **Tarbadillo** (Mexican Typhus)
24 **Tetanus**
107 **Trichiniasis** File under Parasites

55 **Trypanosomiasis** File under Parasites
29 **Tuberculosis, Acute General**
Tuberculosis of State site. Assign appropriate number. File here according to anatomical system
29 **Tuberculosis, Acute Bronchopneumonic**
29 **Tuberculosis, Acute Pneumonic**
29 **Tuberculosis, Acute Pulmonary Miliary**
28 **Tuberculosis, Chronic Pulmonary**
1 **Typhoid Fever** To include all forms of infection of a typhoid type caused by the typhoid-colon group of bacilli
1a **Typhoid Bacillus Carrier**
2 **Typhus Fever**
19 **Vaccinia**
145C **Veldt Sore**
55 **Verruga Peruviana**
8 **Whooping Cough**
19 **Yaws** (Framboesia)
16 **Yellow Fever**

JOINTS

State joint

147 **Ankylosis of** Do not diagnosticate cicatricial contraction affecting joint as ankylosis

147 **Arthritis of, Acute**
147 **Arthritis of, Chronic**
} To include acute and chronic synovitis. Not to include **Traumatic Synovitis.** State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of,** and file under Infective Diseases

48A **Arthritis Deformans**

Arthropathy of Syringomyelia
Arthropathy of Tabes Dorsalis } Do not use as a primary diagnosis

147 **Chondromalacia**

150 **Congenital Malformation of**
150 **Congenital Dislocation of** } File under Congenital Malformations of Joint

147 **Contracture of**

147 **Coxa Valga**
147 **Coxa Vara** } Do not use as a primary diagnosis when cause can be determined

36C **Curvature of Spine** File under Diseases of Bone. Do not use as a primary diagnosis when cause can be determined. When tuberculous diagnosticate as **Abscess of Vertebrae, Tuberculous;** use only as a secondary diagnosis under **Tuberculosis of** *Bone*, assign number **32** and file under Tuberculosis

147 **Genu Recurvatum**
147 **Genu Valgum**
147 **Genu Varum**
147 **Haemorrhage into—Nontraumtic** Do not use as a primary diagnosis when cause can be determined
149 **Hallux Valgus** (Bunion)
149 **Hallux Varus**
147 **Loose Body in—Joint**
149 **Metatarsalgia**
147 *Parasite* **of—Joint** File under Parasites
149 **Pes Cavus**
149 **Pes Planus**
149 **Pes Valgus**
Spondylitis Deformans Diagnosticate as **48A Arthritis Deformans**
37 **Syphilis of** File under Syphilis

149 **Talipes** When congenital diagnosticate as **150 Congenital Malformation of Foot.** File under Congenital Malformations

149 **Trigger Finger**

33 **Tuberculosis of** File junder Tuberculosis

LYMPHATIC SYSTEM

84 **Abscess of** State nodes. When tuberculous diagnosticate as **Abscess of—Lymph Nodes, Tuberculous;** use only as a secondary diagnosis under **34 Tuberculosis of—Lymph Nodes,** and file under Tuberculosis

State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of — Nodes.** When a complication of chancroid use only as a secondary diagnosis under **38A Chancroid of** and state when possible infecting microörganism as a secondary diagnosis. File under Infective Diseases

84 **Chyle Cyst of Mesentery** File under Diseases of the Mesentery

84 **Chylocele, Nonfilarial** File under Diseases of Tunica Vaginalis. When due to filaria diagnosticate as **19 Filariasis,** and file under Parasites

84 **Chylothorax** Do not use as a primary diagnosis when cause can be determined. File under Diseases of the Pleura

84 **Chylous Ascites, Nonfilarial** Do not use as a primary diagnosis when cause can be determined. File under Diseases of Peritonaeum. When due to filaria diagnosticate as **19 Filariasis,** and file under Parasites

121 **Chyluria, Nonfilarial** Do not use as a primary diagnosis when cause can be determined. File under Diseases of the Kidney. When due to filaria diagnosticate as **19 Filariasis** and file under Parasites

150 **Congenital Malformation of** File under Congenital Malformations of the Lymphatic System

145C **Elephantiasis of, Nonfilarial** State part affected. When due to filaria diagnosticate as **19 Filariasis,** and file under Parasites

84 **Fistula of Thoracic Duct**

53A **Hodgkin's Disease**

84 **Hypertrophy of — Lymph Nodes** State nodes

84 **Lymphadenitis of, Acute** State nodes. State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of — Nodes,** and file under Infective Diseases

84 **Lymphadenitis of, Chronic** State nodes. Not to include **34 Tuberculosis of—Lymph Nodes**

84 **Lymphangiectasis of** State site

84 **Lymphangitis of** State site. State when possible infecting microörganism as a secondary diagnosis. When puerperal diagnosticate as **137 Lymphangitis of—Puerperium,** and file under Obstetrical Diseases

84 **Status Lymphaticus**

37 **Syphilis of** State nodes. File under Syphilis

34 **Tuberculosis of** State nodes. File under Tuberculosis

DISEASES OF THE MIND

68 **Constitutional Inferiority**

68 **Constitutional Psychopathic State** To include perverted sexual instincts and imperative ideas and acts. Not to include **74 Psychical Tic**

68 **Psychasthenia**

68 **Dementia (Cause Unknown)**

Dementia Paralytica Diagnosticate as **67 General Paralysis of the Insane**

68 **Dementia Praecox**

68 **Dementia Praecox, Catatonia**

68 **Dementia Praecox, Hebephrenia**

68 **Dementia Praecox, Paranoid Form**

67 **General Paralysis of the Insane**

74 **Idiocy**

74 **Imbecility**

68 **Melancholia, Involutional**

68 **Paranoia**

68 **Paranoid State**

Psychosis, Exhaustive, Infective and Toxic Assign number according to the causative disease, e. g., influenza, **10**; pneumonia, **92**; puerperium (pregnancy), **140**; rheumatic fever, **47**; tyhpoid fever, **1**; malignant tumors (*vide*); uraemia, **120.** When cause is not known assign number **68**

Psychosis, Intoxication To include alcoholic dementia, alcoholic hallucinatory delusional states, and alcoholic paranoia. Assign number according to cause, e. g., alcohol, **56A**; morphine, **59**; cocaine, **59**, etc.

Psychosis Polyneuritica (Korssakow's syndrome) Assign number according to cause, e. g., alcohol, **56A**; morphine, **59**; other cases, **68**

74 **Psychosis Due to Organic Brain Disease**
69 **Psychosis, Epileptic**
73A **Psychosis, Hysterical**
68 **Psychosis, Manic Depressive** To include depressed, maniacal, and mixed phases. When complicating pregnancy or the puerperium assign number **140**
154A **Psychosis, Senile**
Psychosis, Thyreoigenous Always use as a secondary diagnosis under **74 Cretinism** or **88 Myxoedema**
68 **Psychosis, Traumatic**
189B **Not Insane**
68 **Variety of Insanity Not Ascertained**

MISCELLANEOUS DISEASES AND CONDITIONS

55 **Acidosis, Nondiabetic**
149 **Ainhum**
149 **Amputation Stump**
55 **Amyloid Disease**
Anti—Inoculation State disease. File under appropriate diseases and assign the number of that disease followed by a small letter—thus, when for Rabies the number should be **23a,** for tetanus, **24a,** for typhoid, **1b,** for diphtheria, **9c.** When illness or death results from contamination by a known infective agent, e. g., tetanus bacillus, the case should be charged to the latter
27 **Beriberi**
189B **Blood Donor**
145C **Cicatricial Contraction of** State part affected
122 **Cystinuria**

189A Dentition
177B Deprivation of Water
55 Diabetes Insipidus
50 Diabetes Mellitus
151B Diet Regulation
55 Dwarfism
142 Erythromelalgia
142 Gangrene of Not to include **142 Infective Gangrene** (see Infective Diseases), nor **95 Gangrene of Lung.** State site. State when possible infecting microörganism as a secondary diagnosis. Do not use as a primary diagnosis when cause can be determined
55 Gigantism
50 Glycosuria Do not use for **50 Diabetes Mellitus**
48C Gout, Acute
48C Gout, Chronic
55 Haemochromatosis
189A Headache Do not use as a primary diagnosis when cause can be determined
151A Infancy (See Newborn Child)

55 Infantilism
189A Insomnia } Do not use as a primary diagnosis when cause can be determined

121 Lipaemia
189B Malingering
151B Malnutrition, under 1 year
189A Malnutrition (1 year and over)
74 Migraine
99B Mikulicz's Disease
19 Milk Sickness (Trembles)
68 Nostalgia
55 Obesity
55 Adiposis Dolorosa
55 Ochronosis

36B Osteoarthropathy, Hypertrophic
189B Phantom Tumor
130B Precocity
189B Pseudocyesis
142 Raynaud's Disease
48B Rheumatism, Chronic Articular
149 Rheumatism, Muscular
36C Rickets
49 Scurvy
189A Sea Sickness
154B Senility Not to include **154A Psychosis, Senile.** When due to arterial sclerosis diagnosticate as **81 Arterial Sclerosis, General,** and file under Diseases of the Circulatory System
189A Shock Do not use as a primary diagnosis when cause can be determined
145C Sinus of State site
189B Skin Donor
177B Starvation
Syncope Diagnosticate as **74 Anaemia of Brain,** and file under Diseases of the Nervous System
74 Tetany
189A Unknown To include cases refusing examination or not presenting any definite disease or condition
189B Vagrancy
74 Vertigo Do not use as a primary diagnosis when cause can be determined

MUSCLES, FASCIAE, TENDONS, AND TENDON SHEATHS

State muscle or tendon

MUSCLES AND FASCIAE

149 **Abscess of** State when possible infecting microörganism as a secondary diagnosis. When due to B. mallei diagnosticate as **21 Glanders.** When due to tuberculosis diagnosticate as **Abscess of, Tuberculous;** use only as a secondary diagnosis under **34 Tuberculosis of—Muscle,** and file under Tuberculosis. File under Infective Diseases

149 **Amytotonia Congenita**

149 **Atrophy of**

150 **Congenital Malformation of** File under Congenital Malformations of the Muscular System

149 **Contracture of**

149 **Cramp of**

149 **Degeneration of**

149 **Dupuytren's Contraction**

149 **Hernia of**

149 **Myositis, Acute** State when possible infecting microörganism as a secondary diagnosis

149 **Myositis, Chronic**

149 **Myositis, Progressive Ossifying**

149 **Myositis, Traumatic Ossifying**

149 **Myotonia Atrophiea**

149 **Myotonia Congenita**

149 **Paralysis of, Ischaemic**

149 *Parasite* **of** State variety. File under Parasites

37 **Syphilis of** File under Syphilis

Torticollis Diagnosticate according to cause as **149 Contracture of,** or **Cramp of**

34 **Tuberculosis of** File under Tuberculosis

TENDONS AND TENDON SHEATHS

149 **Abscess of** State when possible infecting micro-organism as a secondary diagnosis

149 **Ganglion** When tuberculous diagnosticate as **34 Tuberculosis of,** and file under Tuberculosis

149 **Hammer Toe**

149 **Mallet Finger**

37 **Syphilis of** File under Syphilis

149 **Tenontosynovitis of** When due to gonococcus diagnosticate as **38B Gonococcus Infection of,** amd file under Infective Diseases

34 **Tuberculosis of** File under Tuberculosis

THE NERVOUS SYSTEM

BRAIN, SPINAL CORD, AND MENINGES

60 **Abscess of Brain** State when possible infecting microörganism as a secondary diagnosis

74 **Anaemia of Brain** (Syncope)

64 **Apoplexy** Do not use as a primary diagnosis when cause can be determined

81 **Arterial Sclerosis, Cerebral**

63 **Ataxia, Hereditary**

Bulbar Paralysis Diagnosticate as **63 Poliomyelitis, Acute Bulbar**

74 **Caisson Disease**

150 **Congenital Malformation of Brain**
150 **Congenital Malformation of Spinal Cord**
} File under Congenital malformations of the Nervous System

74 **Cyst of Brain** Not to include cystic tumor

74 **Dyssynergia Cerebellaris Progressiva**

63 **Dystrophy, Progressive Muscular**

BRAIN, SPINAL CORD, AND MENINGES—Con'd

82 **Embolism of** State artery

60 **Encephalitis, Acute** State when possible infecting microörganism as a secondary diagnosis

60A **Encephalitis, Epidemic**

63 **Haematomyelia**

63 **Haematorrhachis**

64 **Haemorrhage, Epidural**

64 **Haemorrhage, Subdural**

64 **Haemorrhage into Cerebellum**

64 **Haemorrhage into Cerebrum**

64 **Haemorrhage into Medula**

64 **Haemorrhage into Pons**

66 **Hemiplegia, Old**

74 **Hernia of Brain**

74 **Hydrocephalus, Acquired**

63 **Lenticular Cysts** Use only as a secondary diagnosis under Carbon Monoxide Poisoning or Illuminating Gas Poisoning

61 **Meningitis, Cerebral** State when possible infecting microörganism as a secondary diagnosis

61 **Meningitis, Cerebrospinal** Not to include **61a Cerebrospinal Fever.** State when possible infecting microörganism as a secondary diagnosis

61 **Meningitis, Spinal** State when possible infecting microörganism as a secondary diagnosis

63 **Morvan's Disease**

63 **Myasthenia Gravis**

63 **Myelitis, Disseminated**

63 **Myelitis, Transverse**

61 **Pachymeningitis, Cerebral**

61 **Pachymeningitis, Spinal**

63 **Paralysis, Acute Ascending**

BRAIN, SPINAL CORD, AND MENINGES—Cont'd

63 **Paralysis Agitans**
63 **Paralysis, Brown-Sequard's**
63 **Paralysis, Infantile Spastic**
66 **Paraplegia, Ataxic**
63 **Paraplegia, Hereditary Spastic**
74 *Parasite* **of Brain** } State variety. File under
63 *Parasite* **of Spinal Cord** } Parasites
63 **Poliomyelitis, Acute Anterior**
63 **Poliomyelitis, Acute Bulbar**
63 **Poliomyelitis, Chronic Anterior**
63 **Sclerosis, Amyotrophic Lateral**
63 **Sclerosis, Disseminated**
63 **Sclerosis, Lateral**
37 **Syphilis of Brain**
37 **Syphilis of Cerebral Meninges**
37 **Syphilis of Cerebrospinal Meninges** } File under Syphilis
37 **Syphilis of Spinal Cord**
37 **Syphilis of Spinal Meninges**
63 **Syringomyelia**
62 **Tabes Dorsalis**
82 **Thrombosis of** State sinus or vessel. State when possible infecting microörganism as a secondary diagnosis
30 **Tuberculosis of Brain**
30 **Tuberculosis of Cerebral Meninges**
30 **Tuberculosis of Cerebrospinal Meninges** } File under Tuberculosis
34 **Tuberculosis of Spinal Cord**
30 **Tuberculosis of Spinal Meninges**

CRANIAL AND SPINAL NERVES

76 **Ménierè's Disease**
73B **Neuralgia of** State nerve
B **Neuritis of** State nerve

CRANIAL AND SPINAL NERVES—Continued

73B Neuritis, Multiple
66 Paralysis of State nerve. Do not use a a primary diagnosis when cause can be determined
37 Syphilis of File under Syphilis
145C Zoster

FUNCTIONAL NERVOUS DISORDERS

74 Angiospastic Oedema
74 Aphasia Do not use as a primary diagnosis when cause can be determined
74 Athetosis
74 Catalepsy
72 Chorea
74 Chorea, Chronic Progressive
71 Convulsions, Infantile under 5 years Do not use as a primary diagnosis when cause can be determined
69 Epilepsy Not to include **69 Psychosis, Epileptic**
74 Epilepsy, Jacksonian Not to include **74 Psychosis due to Organic Brain Disease**
74 Hiccough Do not use as a primary diagnosis when cause can be determined
68 Hypochondriasis
73A Hysteria Not to include **73A Psychosis Hysterical**
74 Neurasthenia
74 Neurosis, Occupational
74 Neurosis, Traumatic To include railway spine
74 Night Terrors
74 Paramyoclonus Multiplex
74 Somnambulism
74 Spasm, Habit
74 Spasm, Nodding

FUNCTIONAL NERVOUS DISORDERS—Continued

74 Spasm, Saltatory
74 Stammering
74 Stuttering
74 Tic, Convulsive
74 Tic, Coördinated
Tic, Painful, of Diagnosticate as **73B Neuralgia of.** File under Neuralgia
74 Tic, Psychical Not to include **68 Constitutional Psychopathic State**
Tic, Simple Diagnosticate as **74 Spasm, Habit**

PARASITES: FUNGI AND CERTAIN ANIMAL PARASITES

When the International Number is not stated, the appropriate number will be found before the heading *Parasite* under the organ infested.

Achorion Schoenleini Diagnosticate as **25B Favus**
25A Actinomycosis of State site

AMOEBAE

107 Entamoeba Coli
Entamoeba histolytica Diagnosticate as **107 Entamoebiasis, Entamoebic Abscess of,** or **14C Entamoebic Dysentery**
107 Entamoebiasis Not to include **Entamoebic Abscess of,** or **14C Entamoebic Dysentery**
Entamoebic Abscess of State site. Assign number according to site, e. g., **115 Entamoebic Abscess of Liver**
14C Entamoebic Dysentery
107 Paramoeba Hominis

107 Ascaris Lumbricoides

25B Aspergillosis of State site. To include Carate and Tokelau. Not to include **25B Mycetoma of**

Aspergillus Diagnosticate as **25B Aspergillosis of**

107 Balantidium Coli (Paramoecium) When causing dysentery diagnosticate as **14B Balantidic Dysentery**

Bilharziosis Diagnosticate as **107 Schistosomiasis, Intestinal,** or **Schistosomiasis, Urinary**

25B Blastomycosis of State site. To include cryptococcus and other saccharomycetes

Carate Diagnosticate as **25B Aspergillosis of Skin**

Coccidiasis of State site. Assign number according to site

Cryptococcus Diagnosticate as **25B Blastomycosis of**

DISCOMYCES

Actinomyces bovis Diagnosticate as **25A Actinomycosis of**

Discomyces Madurae Diagnosticate as **25B Mycetoma of**

Discomycos Rosenbachi Diagnosticate as **25B Erysipeloid**

Discomyces (unclassified) Diagnosticate as **25B Discomycosis of**

25B Discomycosis of State site. Not to include **25A Actinomycosis of, 25B Mycetoma of,** or **25B Erysipeloid**

145C Dracontiasis

14B Dysentery, Balantidic

14C Dysentery, Entamoebic

Eimeria stiedae Diagnosticate as **Coccidiasis of.** State site

Endomyces albicans Diagnosticate as **99B Thrush**

25B Erysipeloid

25B Erythrasma

25B Favus

FILARIAE

Filaria Bancrofti Diagnosticate as **19 Filariasis**

Filaria Medinensis (Guinea worm) Diagnosticate as **145C Dracontiasis**

Filaria (unclassified) State variety and site and assign number according to site

19 Filariasis

FLAGELLATA

Cercomonas hominis
Lamblia intestinalis
Trichomonas hominis
} Diagnosticate as **105B Flagellate Diarrhoea**

105B Flagellate Diarrhoea

145C Larva Migrans

Madura foot Diagnosticate as **25B Mycetoma of Foot**

Malassezia furfur Diagnosticate as **25B Pityriasis Versicolor**

Microsporum minutissimum Diagnosticate as **25B Erythrasma**

25B Mucormycosis of State site

25B Mycetoma of State site. To include actinomycotic and aspergillar mycetoma

145C Myiasis

107 Oxyuris Vermicularis

107 Paragonimiasis

Paragonimus Westermani (Distoma pulmonale) Diagnosticate as **98 Paragonimiasis**

145C Phtheiriasis (Pediculosis)

25B Piedra

25B Pinta

25B Pityriasis Versicolor

Saccharomyces Diagnosticate as **25B Blastomycosis of**

145C Sarcopsiliasis (Pulex penetrans)

Sarcoptes scabiei Diagnosticate as **145B Scabies**

145B Scabies

SCHISTOSOMIDAE

107 Schistosomiasis, Intestinal

Schistosomiasis, Urinary Assign number according to site

Schistosomum haematobium Diagnosticate as **Schistosomiasis, Urinary** When affecting the kidney, assign number **122;** when affecting the bladder, number **124**

Schistosomum Japonicum

Schistosomum Mansoni Diagnosticate as **107 Schistosomiasis, Intestinal**

25B Sporotrichosis of State site

STRONGYLIDAE

Ankylostoma duodenale Diagnosticate as **106 Uncinariasis**

122 Dioctophyme Renale (Strongylus gigas)

Metastrongylus Apri (Strongylus bronchialis) State site. Assign number according to site

Necator Americanus Diagnosticate as **106 Uncinariasis**

STRONGYLIDAE—Continued

107 Strongylus Gibsoni
107 Trichostrongylus Instabilis (Strongylus subtilis)
107 Strongyloides Intestinalis

TAPE WORMS

107 Dibothriocephalus Latus
107 Hymenolepis Nana
Sparganum Proliferum State site. Assign number according to site
Taenia echinococcus
Echinococcus of State site. Assign number according to site, e. g., **74 Echinococcus of Brain; 112 Echinococcus of Liver**
107 Taenia Saginata
107 Taenia Solium
Cysticercus of State site. Assign number according to site
99B Thrush
Tokelau Diagnosticate as **25B Aspergillosis of Skin**
Trichina spiralis Diagnosticate as **107 Trichiniasis**
107 Trichiniasis
Trichocephalus dispar See Trichuris
Trichophyton Diagnosticate as **145A Trichophytosis**
145A Trichophytosis To include sycosis
Trichosporum Diagnosticate as **25B Piedra**
107 Trichuriasis
107 Trichuris Trichiura (Trichocephalus dispar)
Trypanosoma Diagnosticate as **55 Trypanosomiasis**

55 Trypanosomiasis
106 Uncinariasis

POISONINGS AND INTOXICATIONS

56B Absinthe Poisoning
165B Acetanilide Poisoning, Acute
59 Acetanilide Poisoning, Chronic
165B Acetic Acid Poisoning
168B Acetylene Poisoning
58 Acetylene Poisoning, Industrial
165B Aconite Poisoning
165B Aconitine Poisoning
56B Alcohol Poisoning Not to include **56A Psychosis Intoxication**
165B Alum Poisoning
165B Ammonia Poisoning, Acute
58 Ammonia Poisoning, Industrial
165B Ammonium Carbonate Poisoning
165B Ammonium Hydroxide Poisoning
165B Amyl Alcohol Poisoning (Fusel oil)
58 Amyl Alcohol Poisoning, Industrial
165B Amylene Hydrate Poisoning
165B Aniline Poisoning
58 Aniline Poisoning, Industrial
165B Antimony Poisoning
58 Antimony Poisoning, Industrial
165B Antipyrine Poisoning, Acute
59 Antipyrine Poisoning, Chronic
165B Arsenic Poisoning, Acute
59 Arsenic Poisoning, Chronic
58 Arsenic Poisoning, Industrial
168B Arseniuretted Hydrogen Poisoning
58 Arseniuretted Hydrogen Poisoning, Industrial
165B Aspidium Poisoning
165B Barium Poisoning

165B **Belladonna Poisoning**
165B **Atropine Poisoning**
165B **Benzol Poisoning** (Benzine)
58 **Benzol Poisoning, Industrial**
165B **Bismuth Poisoning** Not to include **Arsenic** or **Nitrite Poisoning**
165B **Boric Acid Poisoning**
165B **Borax Poisoning**
164 **Botulism**
59 **Bromide Poisoning**
168B **Bromine Poisoning**
165B **Bromoform Poisoning**
165B **Cannabis Indica Poisoning, Acute** (Hashish)
59 **Cannabis Indica Poisoning, Chronic** Not to include **59 Psychosis, Intoxication**
165B **Cantharides Poisoning**
Carbolic Acid Poisoning Diagnosticate as **165B Phenol Poisoning**
168B **Carbon Dioxide Poisoning**
58 **Carbon Dioxide Poisoning, Industrial**
165B **Carbon Disulphide Poisoning** when inhaled assign number **168B**
58 **Carbon Disulphide Poisoning, Industrial**
168B **Carbon Monoxide Poisoning** Not to include **168B Illuminating Gas Poisoning**
58 **Carbon Monoxide Poisoning, Industrial**
165B **Castor Oil Seed Poisoning**
165B **Chloral Hydrate Poisoning, Acute**
59 **Chloral Hydrate Poisoning, Chronic** Not to include **59 Psychosis, Intoxication**
165B **Chloralamide Poisoning**
165B **Chlorate Poisoning**
165B **Chlorethyl Poisoning**
168B **Chlorethyl Vapor Poisoning**
58 **Chloride of Lime Poisoning, Industrial**
165B **Chlorinated Lime Poisoning**
165B **Chlorinated Soda Poisoning**

168B Chlorine Poisoning
58 Chlorine Poisoning, Industrial
165B Chloroform Poisoning
168B Chloroform Vapor Poisoning
168B Chloroform Vapor Poisoning, Delayed
165B Chromium Poisoning
58 Chromium Poisoning, Industrial Diagnosticate lead chromate poisoning as **57A Lead Poisoning, Industrial**
165B Chrysarobin Poisoning
165B Cinchona Poisoning
165B Quinine Poisoning
165B Coca Poisoning, Acute
59 Coca Poisoning, Chronic
165B Cocaine Poisoning, Acute
59 Cocaine Poisoning, Chronic Not to include **59 Psychosis, Intoxication**
165B Cocculus Indicus Poisoning
165B Picrotoxine Poisoning
59 Coffee Poisoning
165B Caffeine Poisoning, Acute
59 Caffeine Poisoning, Chronic
165B Colchicum Poisoning
165B Colchicine Poisoning
165B Conium Poisoning
165B Copaiba Poisoning
165B Copper Poisoning
165B Cordite Poisoning Not to include **Nitrite** or **Picric Acid Poisoning**
164 Creatoxismus (Meat Poisoning)
165B Creolin Poisoning
165B Creosote Poisoning
165B Guaiacol Poisoning
165B Croton Oil Poisoning
165B Curare Poisoning
165B Delphinium Poisoning

165B **Digitalis Poisoning**
58 **Dinitrobenzol Poisoning, Industrial**
165B **Duboisia Poisoning**
164 **Egg Albumin Poisoning**
165B **Elaterium Poisoning**
165B **Elaterin Poisoning**
165B **Epinephrin Poisoning**
165B **Ergot Poisoning, Acute**
59 **Ergot Poisoning, Chronic**
165B **Ether Poisoning, Acute**
59 **Ether Poisoning, Chronic**
168B **Ether Vapor Poisoning**
164 **Fish Poisoning**
164 **Shell Fish Poisoning**
165A **Fish Venom Poisoning**
165B **Formaldehyde Poisoning** To include hexamethylenamine poisoning. When inhaled assign number **168B**
58 **Formaldehyde Poisoning, Industrial**
165B **Gasoline Poisoning** When inhaled assign number **168B**
58 **Gasoline Poisoning, Industrial**
165B **Gelsemium Poisoning**
165B **Hydrochloric Acid Poisoning**
58 **Hydrochloric Acid Poisoning, Industrial**
165B **Hydrocyanic Acid Poisoning** When inhaled assign number **168B**
58 **Hydrocyanic Acid Poisoning, Industrial**
165B **Cyanide Poisoning**
58 **Cyanide Poisoning, Industrial**
168B **Cyanogen Poisoning**
58 **Cyanogen Poisoning, Industrial**
165B **Hydrofluoric Acid Poisoning**
58 **Hydrofluoric Acid Poisoning, Industrial**
165B **Hyoscyamus Poisoning**
165B **Hyoscyamine Poisoning**

165B **Hyoscine Poisoning** (Scopolamine)
168B **Illuminating Gas Poisoning**
58 **Illuminating Gas Poisoning, Industrial**
165A **Insect Sting**
165B **Iodine Poisoning**
165B **Iodoform Poisoning**
165B **Iron Poisoning**
165B **Kerosene Poisoning**
59 **Lathyrism**
165B **Lead Poisoning, Acute**
57B **Lead Poisoning, Chronic** Not to include **57 Psychosis, Intoxication**
57A **Lead Poisoning, Industrial**
165B **Lobelia Poisoning**
165B **Lysol Poisoning**
165B **Magnesium Poisoning**
58 **Manganese Poisoning, Industrial**
168B **Marsh Gas Poisoning**
58 **Marsh Gas Poisoning, Industrial**
165B **Mercury Poisoning, Acute**
59 **Mercury Poisoning, Chronic**
58 **Mercury Poisoning, Industrial**
165B **Methyl Alcohol Poisoning**
168B **Methyl Alcohol Vapor Poisoning**
58 **Methyl Alcohol Vapor Poisoning, Industrial**
164 **Milk Poisoning**
164 **Cheese Poisoning**
164 **Ice Cream Poisoning**
164 **Mushroom Poisoning**
165B **Muscarine Poisoning**
168B **Mustard Gas Poisoning**
165B **Naphthalene Poisoning**
165B **Naphthol Poisoning**
165B **Nitric Acid Poisoning**
165B **Nitrite Poisoning** To include amyl nitrite and nitroglycerin poisoning. When inhaled assign number **168B**

165B Nitrobenzine Poisoning
58 Nitrobenzene Poisoning, Industrial
58 Nitrous Gas Poisoning, Industrial
168B Nitrous Oxide Poisoning
165B Nux Vomica Poisoning
165B Strychnine Poisoning
165B Opium Poisoning, Acute
59 Opium Poisoning, Chronic
165B Codeine Poisoning, Acute
59 Codeine Poisoning, Chronic Not to include 59 Psychosis, Intoxication
165B Dionine Poisoning, Acute
59 Dionine Poisoning, Chronic Not to include 59 Psychosis, Intoxication
165B Heroine Poisoning, Acute
59 Heroine Poisoning, Chronic Not to include 59 Psychosis, Intoxication
165B Morphine Poisoning, Acute
59 Morphine Poisoning, Chronic Not to include 59 Psychosis, Intoxication
165B Oxalic Acid Poisoning
165B Acid Potassium Oxalate Poisoning
165B Paraldehyde Poisoning, Acute
59 Paraldehyde Poisoning, Chronic
165B Parathyreoid Extract Poisoning
26 Pellagra
165B Pennyroyal Poisoning
165B Petroleum Poisoning
58 Petroleum Vapor Poisoning, Industrial
165B Phenacetin Poisoning, Acute
59 Phenacetin Poisoning, Chronic
165B Phenol Poisoning
168B Phosphoretted Hydrogen Poisoning
165B Phosphoric Acid Poisoning
165B Phosphorus Acid Poisoning
165B Phosphorus Poisoning, Acute

58 **Phosphorus Poisoning, Industrial**
165B **Physostigma Poisoning**
165B **Physostigmine Poisoning**
165B **Picric Acid, Poisoning**
58 **Picric Acid Poisoning, Industrial**
165B **Pilocarpus Poisoning**
165B **Pilocarpine Poisoning**
165B **Potassium Carbonate Poisoning**
Potassium Chlorate Poisoning Diagnosticate as **165B Chlorate Poisoning**
165B **Potassium Hydroxide Poisoning**
165B **Potassium Nitrate Poisoning**
165B **Potassium Permanganate Poisoning**
164 **Potato Poisoning**
58 **Pyridine Poisoning, Industrial**
165B **Pyrogallic Acid Poisoning**
165B **Resorcin Poisoning**
Rhus Toxicodendron Poisoning Diagnosticate as **165B Dermatitis Venenata,** and file under Diseases of the Skin
165B **Salicylic Acid Poisoning** To include salicylates
165B **Santonin Poisoning**
165B **Serum Poisoning**
168B **Sewer Gas Poisoning**
Sewer Gas Poisoning, Industrial Diagnosticate as **58 Sulphuretted Hydrogen Poisoning, Industrial**
165B **Silver Poisoning, Acute**
59 **Silver Poisoning, Chronic**
165A **Snake Venom Poisoning**
165B **Sodium Carbonate Poisoning**
Sodium Chlorate Poisoning Diagnosticate as **165B Chlorate Poisoning**
165B **Sodium Chloride Poisoning**
165B **Sodium Hydroxide Poisoning**
165B **Stramonium Poisoning**

165B Strophanthus Poisoning
165B Strophanthin Poisoning
165B Sulphonal Poisoning, Acute
59 Sulphonal Poisoning, Chronic
58 Sulphur Chloride Poisoning, Industrial
168B Sulphuretted Hydrogen Poisoning
58 Sulphuretted Hydrogen Poisoning, Industrial
165B Sulphuric Acid Poisoning
165B Sulphurous Acid Poisoning
58 Sulphurous Acid Vapor Poisoning, Industrial
165B Tansy Poisoning
165B Tartaric Acid Poisoning
59 Tea Poisoning
58 Tea Poisoning, Industrial
168B Tear Gas Poisoning
165B Thymus Extract Poisoning
165B Thyreoid Extract Poisoning
59 Tin Poisoning
165B Tobacco Poisoning, Acute
59 Tobacco Poisoning, Chronic
58 Tobacco Poisoning, Industrial
165B Nicotine Poisoning, Acute
59 Nicotine Poisoning, Chronic
165B Trional Poisoning, Acute
59 Trional Poisoning, Chronic
165B Turpentine Poisoning
168B Turpentine Vapor Poisoning
58 Turpentine Vapor Poisoning, Industrial
164 Unknown Food Poisoning
165B Unknown Poisoning
165B Veratrum Poisoning
165B Veronal Poisoning, Acute
59 Veronal Poisoning, Chronic
165B Zinc Poisoning

REPRODUCTIVE ORGANS

FUNCTIONAL DISTURBANCES INVOLVING MALE AND FEMALE SEXUAL ORGANS

Do not use as a primary diagnosis when cause can be determined

130B Amenorrhoea
130B Dysmenorrhoea
132 Dyspareunia
127 Impotence
74 Masturbation
128 Menorrhagia
130B Menopause
Menstruation, Precocious Diagnosticate as **130B Precocity.** File under Miscellaneous Diseases and Conditions
128 Metrorrhagia
145C Pruritus Vulvae
127 Seminal Emissions
127 Spermatorrhoea
Sterility When occurring in the male assign number **127;** when in the female, number **132**
132 Vaginismus

MAMMARY GLAND

133 Abscess of Mammary Gland
133 Abscess, Submammary

State when possible infecting microörganism as a secondary diagnosis. When puerperal diagnosticate as **141 Abscess of Mammary Gland, Puerperium,** or **141 Abscess Submammary, Puerperium,** and file under Obstetrical Diseases

MAMMARY GLAND—Continued

141 **Agalactia**

133 **Atrophy of Mammary Gland**

150 **Congenital Malformation of Mammary Gland** File under Congenital Malformations of the Reproductive Organs

133 **Fissure of Nipple** When puerperal diagnosticate as **141 Fissure of Nipple, Puerperium,** and file under Obstetrical Diseases

133 **Fistula of Mammary Gland** When puerperal diagnosticate as **141 Fistula of Mammary Gland, Puerperium,** and file under Obstetrical Diseases

141 **Galactocele**

141 **Galactorrhoea**

133 **Hypertrophy of Mammary Gland**

133 **Mamillitis** When puerperal diagnosticate as **141 Mamillitis, Puerperium** (or **Pregnancy**) and file under Obstetrical Diseases

133 **Mastitis, Acute**
133 **Mastitis, Chronic**
State when possible infecting microörganism as a secondary diagnosis. When puerperal diagnosticate as **141 Mastitis, Puerperium,** and file under Obstetrical Diseases

141 **Milk Retention**

133 **Neurosis of Mammary Gland** Do not use as a primary diagnosis when cause can be determined

133 *Parasite* **of Mammary Gland** State variety. File under Parasites

37 **Syphilis of Mammary Gland** File under Syphilis

34 **Tuberculosis of Mammary Gland** File under Tuberculosis

FEMALE REPRODUCTIVE ORGANS

LIGAMENTS, OVARIES, AND TUBES

132 Abscess of Ovary
130B Abscess, Parauterine, (non-puerperal)
State when possible infecting microörganism as a secondary diagnosis

130B Abscess, Pelvic Not to include **130B Cellulitis, Pelvic,** nor **130B Abscess, Parauterine.** State when possible infecting microörganism as a secondary diagnosis. Do not use as a primary diagnosis when cause can be determined. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Peritonaeum,** and file under Infective Diseases. When puerperal diagnosticate as **137 Abscess, Pelvic, Puerperium,** and file under Obstetrical Diseases. File all other cases under Diseases of the Peritonaeum

132 Atrophy of Ovary

130B Cellulitis, Pelvic Not to include **130B Abscess, Pelvic,** or **130B Abscess, Parauterine.** State when possible infecting microörganism as a secondary diagnosis. When puerperal diagnosticate as **137 Cellulitis, Pelvic, Puerperium,** and file under Obstetrical Diseases

150 Congenital Malformation of State part affected. File under Congenital Malformations of the Reproductive Organs

132 Displacement of Falloppian Tube

132 Displacement of Ovary

134B Gestation, Extrauterine

132 Haematocele, Pelvic Do not use as a primary diagnosis when cause can be determined

131 Haematoma of Ovary

FEMALE REPRODUCTIVE ORGANS—Continued

LIGAMENTS, OVARIES, AND TUBES—Continued

132 **Haematosalpinx**

132 **Hydrocele of Round Ligament**

132 **Oöphoritis, Acute** State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Ovary,** and file under Infective Diseases

132 **Oöphoritis, Chronic**

132 **Sclerosis of Ovary**

132 *Parasite* **of Ovary** State variety. File under Parasites

117 **Peritonitis, Acute Local** Do not use as a primary diagnosis when cause can be determined. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Peritonaeum,** and file under Infective Diseases. When puerperal diagnosticate as **137 Peritonitis, Acute Local, Puerperium,** and file under Obstetrical Diseases. File all other cases under Diseases of the Peritonaeum

132 **Salpingitis, Acute** State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Falloppian Tube,** and file under Infective Diseases

132 **Salpingitis, Chronic** To include hydrosalpinx. State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Falloppian Tube,** and file under Infective Diseases

FEMALE REPRODUCTIVE ORGANS—Continued

LIGAMENTS. OVARIES, AND TUBES—Continued

37 Syphilis of State part affected. File under Syphilis

34 Tuberculosis of State part affected. File under Tuberculosis

83 Varix of Broad Ligament

UTERUS—

130B Atrophy of Uterus

130B Atresia of Uterus, Acquired

150 Congenital Malformation of Uterus File under Congenital Malformations of the Reproductive Organs

130B Displacement of Uterus (See also Obstetrical Diseases

Anteflexion
Anteversion
Laterocession
Prolapse of Uterus
Retrocession
Retroversion

Always use as a secondary diagnosis under **130B Displacement of Uterus.** Not to include **140 Displacement of Uterus, Puerperium.** To include retroflexion

130A Endometritis, Acute State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Endometrium,** and file under Infective Diseases. When puerperal diagnosticate as **137 Endometritis, Acute, Puerperium,** and file under Obstetrical Diseases

130A Endometritis, Chronic

130A Endotrachelitis, Chronic

110A Fistula, Intestino-uterine

130B Fistula, Uterovaginal File under Diseases of Vagina

125 Fistula, Uterovesical File under Diseases of Bladder

130B Foreign Body in Uterus

130B Hypertrophy of Cervix Uteri

130B Laceration of Cervix Uteri, Old

130A Metritis, Acute State when possible infecting microörganism as a secondary diagnosis. When puerperal diagnosticate as **137 Metritis, Acute, Puerperium,** and file under Obstetrical Diseases

130A Metritis, Chronic

130B Stricture of Uterine Canal Do not use as a primary diagnosis when cause can be determined

136 Subinvolution of Uterus

37 Syphilis of Uterus File under Syphilis

34 Tuberculosis of Uterus File under Tuberculosis

VAGINA

132 Abscess of Vagina State when possible infecting microörganism as a secondary diagnosis.

132 Atresia of Vagina, Acquired

150 Congenital Malformation of Vagina File under Congenital Malformations of the Reproductive Organs

132 Cyst of Vagina File under Retention Cysts under Tumors

110A Fistula, Rectovaginal

125 Fistula, Ureterovaginal

125 Fistula, Urethrovaginal

130B Fistula, Uterovaginal

FEMALE REPRODUCTIVE ORGANS—Continued

VAGINA—Continued

125 Fistula, Vesicovaginal
186 Foreign Body in Vagina
132 Laceration of Pelvic Floor, Old

Prolapse of Anterior Vaginal Wall (Cystocele)
Prolapse of Posterior Vaginal Wall (Proctocele)
— Always use as a secondary diagnosis under either **132 Laceration** or **132 Relaxation of Pelvic Floor**

132 Relaxation of Pelvic Floor
37 Syphilis of Vagina File under Syphilis
34 Tuberculosis of Vagina File under Tuberculosis
132 Vaginismus File under Functional Disorders

132 Vaginitis, Acute
132 Vaginitis, Chronic
— State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnostictae as **38B Gonococcus Infection of Vagina,** and file under Infective Diseases

VULVA

132 Abscess of Bartholin's Gland
132 Abscess of Vulva
— State when possible infecting microorganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Bartholin's Gland** (or **Vulva**), and file under Infective Diseases

132 Adhesions about Clitoris
132 Atrophy of Vulva

FEMALE REPRODUCTIVE ORGANS—Continued

VULVA—Continued

38A **Chancroid of Vulva** State when possible infecting microörganism as a secondary diagnosis. File under Infective Diseases

150 **Congenital Malformation of Vulva** File under Congenital Malformations of the Reproductive Organs

132 **Cyst of Bartholin's Gland** File under Retention Cysts under Tumors

145C **Elephantiasis of Vulva, Nonfilarial** File under Diseases of the Lymphatic System. When due to filaria diagnosticate as **19 Filariasis,** and file under Parasites

132 **Garrulitas Vulvae**

132 **Haematoma of Vulva, Nontraumatic** Do not use as a primary diagnosis when cause can be determined

132 **Hydrocele of Vulva**

132 **Hypertrophy of Vulva** State part affected

132 **Hypertrophy of Clitoris**

132 **Kraurosis Vulvae**

145C **Pruritus Vulvae** Do not use as a primary diagnosis when cause can be determined. File under Functional Disorders of Male and Female Sexual Organs

37 **Syphilis of Vulva** File under Syphilis

34 **Tuberculosis of Vulva** File under Tuberculosis

83 **Varix of Vulva**

132 **Vulvitis, Acute**
132 **Vulvitis, Chronic**
} State when possible infecting microörganism as a secondary diagnonis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Vulva,** and file under Infective Diseases

MALE REPRODUCTIVE ORGANS

COWPER'S GLANDS

127 Abscess of Cowper's Gland State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Cowper's Gland,** and file under Infective Diseases

34 Tuberculosis of Cowper's Gland File under Tuberculosis

PENIS

127 Balanoposthitis State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Penis,** and file under Infective Diseases

38A Chancroid of Penis State when possible infecting microörganism as a secondary diagnosis. File under Infective Diseases

150 Congenital Malformation of Penis File under Congenital Malformations of the Reproductive Organs

127 Deformity of Penis, Acquired

127 Paraphimosis

127 Redundant Prepuce

- **127 Adhesions, Preputial**
- **127 Concretions, Preputial**
- **127 Phimosis** When congenital assign number **150**

127 Sclerosis of Corpus Cavernosum

37 Syphilis of Penis File under Syphilis

34 Tuberculosis of Penis File under Tuberculosis

145C Larva Migrans File under Parasites
25B Mycetoma of State site. File under Parasites
145C Myiasis File under Parasites
145C Phtheiriasis (Pediculosis) File under Parasites
25B Piedra File under Parasites
25B Pinta File under Parasites
25B Pityriasis Versicolor File under Parasites
Ringworm Diagnosticate as **145A Trichophytosis.** File under Parasites

SKIN AND HAIR—Continued

PARASITIC DISEASES—Continued

145C Sarcopsiliasis (Pulex penetrans) File under Parasites

145B Scabies File under Parasites

25B Sporotrichosis of State site. File under Parasites

Sycosis Diagnosticate as **145A Trichophytosis.** File under Parasites

145A Trichophytosis To include Sycosis and Ringworm. File under Parasites

145C Pemphigus

152B Pemphigus Neontatorum File under Newborn Child

Pernio Diagnosticate as **145C Chilblain**

145C Pityriasis Rosea

Pityriasis Rubra Diagnosticate as **145C Dermatitis Exfoliativa**

145C Pityriasis Simplex

145C Prurigo

145C Pruritus Not to include **Pruritus Ani** or **Pruritus Vulvae**

145C Psoriasis

55 Purpura File under Diseases of the Blood

86 Rhinoscleroma

145C Rosacea

145C Sclerodermia To include morphoea

145C Seborrhoea

189B Skin Donor File under Miscellaneous Diseases

145C Sudamina

37 Syphilis of Skin File under Syphilis

34 Tuberculosis of Skin
34 Tuberculide } File under Tuberculosis

145C Ulcer of State site. Assign number **83** to varicose ulcer

SKIN AND HAIR—Continued

145C Urticaria
145C Urticaria Pigmentosa
145C Wart
145C Xanthoma
145C Xerodermia Pigmentosa

NAILS

150 Congenital Malformation of Nails File under Congenital Malformations of the Skin
145C Ingrowing Nail
145C Onychauxis
145C Onychia
145C Onychoma
145C Paronychia

TUMORS

BENIGN TUMORS

State site and assign appropriate number

Adenoma of
Angioma of Not to include **150 Naevus**
Chondroma of
Cystoma of
Fibroma of To include epulis and keloid
Glioma of
Lipoma of
Lymphangioma of
Lymphoma of
Myeloma
Myoma of
Myxoma of
Neuroma of To include multiple neurofibromata and plexiform neuroma
Odontoma of
Onychoma File under Diseases of the Nails

BENIGN TUMORS—Continued

Osteoma of To include exostosis
Papilloma of To include non-specific condyloma.
125 Caruncle of Urethra
Retention Cyst of To include ranula and sebaceous cyst
Teratoma of To include dermoid cyst

MIXED BENIGN TUMORS

To include all benign tumors of mixed type.

All benign and mixed benign tumors must be numbered according to site as follows:

BONES..... **146**
BURSAE, CARTILAGES, MUSCLES AND FASCIAE. TENDONS, AND SHEATHS..... **149**

CIRCULATORY SYSTEM

Heart..... **79C**
Pericardium..... **77**

DIGESTIVE SYSTEM

Anus..... **110A**
Appendix..... **108**
Intestine, including Rectum..... **110B**
Lips, Mouth, Salivary Glands and Ducts, Tongue..... **99B**
Liver, Gallbladder and Gallducts..... **115**
Mesentery, Omentum and Peritonaeum..... **117**
Oesophagus..... **101**
Palate (Uvula excepted)..... **146**
Pancreas..... **118**
Pharynx (Nasopharynx excepted), Uvula and Tonsils..... **100**
Stomach..... **103**
Teeth and Gums (Alveoli excepted)..... **99A**

MIXED BENIGN TUMORS—Continued

DUCTLESS GLANDS AND SPLEEN

Carotid Gland..... 46
Pineal Gland..... 74
Pituitary Body..... 74
Spleen..... 116
Suprarenal Glands..... 52
Thymus Gland..... 84
Thyreoid and Parathyreoid Glands..... 88

EAR..... 76
EYE AND ANNEXA (including Orbit) 75C
LYMPHATIC SYSTEM 84

NERVOUS SYSTEM

Brain and Meninges..... 74
Nerves..... 74
Spinal Cord and Meninges..... 63

REPRODUCTIVE ORGANS

Mammary Glands..... 133
Ovaries..... 131
Uterus..... 129
Other Female Reproductive Organs..... 132
Prostate..... 126
Other Male Reproductive Organs..... 127

RESPIRATORY ORGANS

Larynx and Epiglottis..... 87
Lungs (including Bronchi, Trachea and Pleura)..... 98
Nose, Nasal Passages and Accessory Sinuses.. 86

SKIN AND NAILS..... 145C

MIXED BENIGN TUMORS—Continued

URINARY ORGANS

Bladder..... **124**
Kidney and Ureter..... **122**
Urethra..... **125**

MALIGNANT TUMORS

State site and assign appropriate letter and number

A **Carcinoma of**
B **Endothelioma of**
C **Epithelioma of**
D **Chorioepithelioma of** To include hydatidiform mole and deciduoma malignum
E **Hypernephroma of**
H **Melanoma**
F **Sarcoma of** To include chloroma

All malignant tumors must be numbered according to site as follows:

The number must be followed by the appropriate letter as given above, e. g., **40A Carcinoma of Stomach; 40F Sarcoma of Liver; 45F Sarcoma of Thymus Gland,** etc.

Lip, mouth, palate, salivary gland and duct, tooth, gum, alveolus, tongue, tonsil and uvula..... **39**
Gallbladder and duct, liver, oesophagus, pharynx and stomach..... **40**
Anus, intestine, mesentery, omentum, peritonaeum, rectum and retroperitoneal glands **41**
Female genital organs..... **42**
Breast..... **43**
Skin..... **44**
Other organs..... **45**

MIXED MALIGNANT TUMORS

To include all mixed tumors of malignant type. All mixed malignant tumors must be numbered according to the site of the tumor and to the type of malignancy adding the letter **G**, e. g., **42FG Fibro-Sarcoma of Uterus**

URINARY ORGANS

BLADDER

124 Abscess of Bladder Wall State when possible infecting microörganism as a secondary diagnosis

124 Atony of Bladder Do not use as a primary diagnosis when cause can be determined

124 Bacteriuria State when possible infecting microörganism as a secondary diagnosis. Do not use as a primary diagnosis when cause can be determined

123 Calculus in Bladder

150 Congenital Malformation of Bladder File under Congenital Malformations of the Urinary Organs

124 Cystitis, Acute State when possible infecting microörganism as a secondary diagnosis. Do not use as a primary diagnosis when cause can be determined. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Bladder,** and file under Infective Diseases

124 Cystitis, Chronic

124 Deformity of Bladder, Acquired

125 Fistula of Bladder

125 Fistula, Intestinovesical

125 Fistula, Ureterovesical

BLADDER—Continued

125 **Fistula, Urethrovesical**
125 **Fistula, Uterovesical**
125 **Fistula, Vesicovaginal** File under Diseases of Vagina
124 **Foreign Body in Bladder**
124 **Incontinence of Urine**
124 **Neurosis of Bladder**
124 **Enuresis, Functional**
} Do not use as a primary diagnosis when cause can be determined
124 *Parasite* **of Bladder** State variety. File under Parasites
124 **Retention of Urine** Do not use as a primary diagnosis when cause can be determined, but always specify as a secondary diagnosis when it exists
37 **Syphilis of Bladder** File under Syphilis
34 **Tuberculosis of Bladder** File under Tuberculosis
124 **Ulcer of Bladder**
83 **Varix of Bladder**

KIDNEY

122 **Abscess of Kidney**
122 **Abscess, Perinephritic**
} State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Kidney, and file** under Infective Diseases

120 **Albuminuria** Do not use as a primary diagnosis when cause can be determined. See also Obstetrical Diseases and Conditions
Amyloid Kidney Diagnosticate as **55 Amyloid Disease,** and file under Miscellaneous Diseases and Conditions

KIDNEY—Continued

121 Chyluria, Nonfilarial Do not use as a primary diagnosis when cause can be determined. When due to filaria diagnosticate as **19 Filariasis,** and file under Parasites

Colic, Renal Diagnosticate as **123 Ureteral Colic.** When not due to calculus assign number **122**

150 Congenital Malformation of Kidney File under Congenital Malformations of the Urinary Organs

122 Congestion of Kidney Do not use as a primary diagnosis when cause can be determined

122 Cyst of Kidney

122 Fistula of Kidney

122 Haematuria, Renal Do not use as a primary diagnosis when cause can be determined

122 Haemoglobinuria Not to include **19 Haemoglobinuric Fever.** Do not use as a primary diagnosis when cause can be determined

122 Hydronephrosis Do not use as a primary diagnosis when cause can be determined

122 Infarct of Kidney

122 Nephralgia Do not use as a primary diagnosis when cause can be determined

119 Nephritis, Acute When a complication of pregnancy or the puerperium diagnosticate as **138 Nephritis, Acute, Pregnancy,** or **138 Nephritis, Acute, Puerperium** and file under Obstetrical Diseases. When complicating **Scarlet Fever** use as a secondary diagnosis and assign number **7**

KIDNEY—Continued

120 Nephritis, Chronic Interstitial
120 Nephritis, Chronic Parenchymatous
122 Nephritis, Disseminated Suppurative
123 Nephrolithiasis
122 Nephroptosis
122 *Parasite* **of Kidney** State variety. File under Parasites
122 Pyelitis State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Pelvis of Kidney,** and file under Infective Diseases
122 Pyelonephritis
122 Pyonephrosis
State when possible infecting microörganism as a secondary diagnosis. When the result of nephrolithiasis assign number **123**
37 Syphilis of Kidney File under Syphilis
34 Tuberculosis of Kidney File under Tuberculosis
Uraemia, Acute Use only as a secondary diagnosis under appropriate form of nephritis. When a complication of Pregnancy or the Puerperium use as a secondary diagnosis to **Nephritis, Acute** (or **Chronic**). **Pregnancy** (or **Puerperium**), assign number **138** and file under Obstetrical Diseases. See also **Toxaemia of Pregnancy**
Uraemia, Chronic Use only as a secondary diagnosis under appropriate form of nephritis

URETER

123 Calculus in Ureter, Impacted
150 Congenital Malformation of Ureter File under Congenital Malformations of the Urinary Organs

URETER—Continued

125 **Fistula of Ureter**
125 **Fistula, Intestino-ureteral**
125 **Fistula, Ureterovaginal** File under Diseases of the Vagina
125 **Fistula, Ureterovesical** File under Diseases of the Bladder
122 **Foreign Body in Ureter**
122 **Stricture of Ureter** Do not use as a primary diagnosis when cause can be determined
34 **Tuberculosis of Ureter** File under Tuberculosis
123 **Ureteral Colic** Do not use as a primary diagnosis when cause can be determined. When not due to calculus assign number **122**
122 **Ureteritis** State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Ureter,** and file under Infective Diseases

URETHRA

125 **Abscess about Urethra**
144 **Abscess in Male Perinaeum**
} State when possible infecting microörganism as a secondary diagnosis

123 **Calculus in Urethra, Impacted**
125 **Caruncle of Urethra** File under Papilloma under Tumors
150 **Congenital Malformation of Urethra** File under Congenital Malformations of the Urinary Organs
125 **Deformity of Urethra, Acquired**
125 **Extravasation of Urine** Do not use as a primary diagnosis when cause can be determined, but always specify as a secondary diagnosis when it exists

URETHRA—Continued

125 **Fistula of Urethra**
125 **Fistula, Recto-urethral**
125 **Fistula, Urethrovaginal** File under Diseases of the Vagina
125 **Fistula, Urethrovesical** File under Diseases of the Bladder
125 **Foreign Body in Urethra**
125 **Prolapse of Urethra**
125 **Stricture of Urethra**
37 **Syphilis of Urethra** File under Syphilis
34 **Tuberculosis of Urethra** File under Tuberculosis
125 **Urethral Fever, Traumatic** File under Injuries to the Urethra

125 **Urethritis, Acute**
125 **Urethritis, Chronic**
} State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Urethra,** and file under Infective Diseases

OBSTETRICAL CONDITIONS, DISEASES, AND INJURIES

141 **Abscess of Mammary Gland, Puerperium**
141 **Abscess, Submammary, Puerperium**
137 **Abscess, Pelvic, Puerperium**
} State when possible infecting micro-organism as a secondary diagnosis

134B **Abortion** Up to fourth month of pregnancy
134B **Abortion, Threatened**

135 Accidental Haemorrhage, Parturition
134B Accidental Haemorrhage, Pregnancy
135 Accidental Haemorrhage, Puerperium
} Not to include **135 Placenta Preavia**

138 Albuminuria, Pregnancy
138 Albuminuria, Puerperium
137 Cellulitis, Pelvic, Puerperium State when possible infecting microörganism as a secondary diagnosis

136 Deformed Pelvis, Parturition
134B Deformed Pelvis, Pregnancy
} When the deformity is congenital diagnosticate as **150 Congenital Malformation of Pelvic Girdle, Parturition** (or **Pregnancy**)

134B Displacement of Uterus, Pregnancy
140 Displacement of Uterus, Puerperium
139 Embolism of, Puerperium State artery
137 Endometritis, Acute, Puerperium State when possible infecting microörganism as a secondary diagnosis
141 Fissure of Nipple, Puerperium
141 Fissure of Mammary Gland, Puerperium
134B Gestation, Extrauterine File under Diseases of the Reproductive Organs
136 Haematoma of Vulva, Puerperium
Hydatidiform Mole Diagnosticate as **42D Chorioepithelioma of.** File under Tumors
134B Hydramnios, Pregnancy
134B Hydrorrhoea, Gravidarum
Inversion of Nipple (use only as secondary to **Parturition** or **Puerperium**)

Laceration of Cervix Uteri, Recent
Laceration of Pelvic Floor, Recent
} Use only as a secondary diagnosis to puerperium

137 Lymphangitis of, Puerperium

141 Mamillitis, Pregnancy
141 Mamillitis, Puerperium
141 Mastitis, Puerperium
137 Metritis, Acute, Puerperium
} State when possible infecting micro-organism as a secondary diagnosis

134B Miscarriage From fourth to seventh month of pregnancy

134B Miscarriage, Threatened

138 Nephritis, Acute, Pregnancy
138 Nephritis, Acute, Puerperium
} Not to include **138 Toxaemia of Pregnancy**

Parturition, Abnormal

136 Parturition, M. L. A.
136 Parturition, M. D. A.
136 Parturition, M. D. P.
136 Parturition, M. L. P.
136 Parturition, Sc. L. A.
136 Parturition, Sc. D. A.
136 Parturition, Sc. D. P.
136 Parturition, Sc. L. P.

Parturition, Normal

134A Parturition, O. L. A.
134A Parturition, O. D. A.
134A Parturition, O. D. P.
134A Parturition, O. L. P.
134A Parturition, S. L. A.
134A Parturition, S. D. A.
134A Parturition, S. D. P.
134A Parturition, S. L. P.
134A Parturition, Multiple State positions

137 Peritonitis, Acute General, Puerperium
137 Peritonitis, Acute Local, Puerperium
} State when possible infecting microörganism as a secondary diagnosis

139 Phlebitis of, Puerperium State vein

135 Placenta Praevia, Parturition
135 Placenta Praevia, Pregnancy
134A Pregnancy, Normal
134B Pregnancy, Vomiting of Not to include **138 Toxaemia of Pregnancy**
134B Premature Delivery After seventh month of pregnancy
134B Premature Delivery, Threatened
Prolapse of Cord (Use only as a secondary to new born child or still birth)
189B Pseudocyesis File under Miscellaneous Diseases and Conditions
134A Puerperium, Normal
135 Retained Secundines, Parturition
135 Retained Secundines, Puerperium
136 Rupture of Uterus, Parturition
136 Rupture of Uterus, Puerperium
137 Septichaemia, Puerperium State when possible infecting microörganism as a secondary diagnosis. File under **Septichaemia** under Infective Diseases
139 Thrombosis of, Puerperium State vessel
138 Toxaemia of Pregnancy

Eclampsia, Parturition
Eclampsia, Pregnancy
Eclampsia, Puerperium
} Use only as a secondary diagnosis under **138 Toxaemia of Pregnancy**

NEWBORN CHILD

152B Atelectasis, under 3 months
152B †Haemoglobinuria Neonatorum
152B †Haemorrhage from Umbilical Cord
151B ††Icterus Neonatorum
152B †Melaena Neonatorum

† Number 152 applies only to children under three months of age.
†† Number 151 applies only to children under 1 year.

151A Newborn Child Full term child born in the hospital or hospital ambulance

Ophthalmia Neonatorum Diagnosticate as **38B Gonococcus Infection of Eye,** and file under Infective Diseases

152B †Pemphigus Neonatorum

151B ††Prematurity Not to include stillbirths

151B ††Sclerema, under 1 year

Stillborn Child Do not include stillbirths in mortality statistics

INJURIES

The statement of the nature of the injury must be supplemented by an indication of the character of the violence in accordance with the scheme given below.

The house surgeon must specify the alleged cause of the injury by assigning the number to correspond with the following classification of causes, except where a number has already been assigned

Conflagration takes precedence over all other causes of injury. If a patient is injured directly or indirectly in or about a conflagration, the number **166** must be assigned to the diagnosis, e. g., a fracture of the femur produced by the fall of a passenger elevator in a burning building must receive the number **166** and not **174B.**

The International Numbers are given without reference to possible judicial determinations as to the cause of violence, namely, whether accidental, suicidal or homicidal—therefore, the International Numbers 153, and 155 to 163, and 182 to 184 are omitted.

CAUSES OF INJURIES

166 Conflagrations (buildings, ships, forest fires) To include all injuries of whatever nature resulting therefrom

---

† Number 152 applies only to children under three months of age.
†† Number 151 applies only to children under 1 year.

INDUSTRIAL INJURIES—

57A Industrial lead poisoning
58 Industrial poisoning (except lead)
173A Traumatism in tunnelling
173B Traumatism in mines
173C Traumatism in quarries
174A Traumatism by machines in factories and work-shops
174B Traumatism by passenger and freight elevators. Not to include **166**
174C Traumatism by building operations
174D Other traumatism by machines
179A Effects of heat in engine-rooms, laundries, etc.
181A Effects of electricity (industrial) Not to include effects of X-rays or of radium

TRANSPORTATION INJURIES

175A Traumatism by steam railroads

175B Traumatism by electric railroads (extra-urban)
175C Traumatism by street railroads (elevated, surface and subway)
} Not to include **181A or 181B** effects of electricity

175D Traumatism by automobiles
175E Traumatism by aeroplanes, balloons, etc. Not to include **168**
175F Traumatism by other vehicles, horses, etc. Not to include **176**
175G Traumatism by water transportation (vessels, docks, drydocks, wharfs, piers, quays, and deep-sea diving, except **169**)
175H Traumatism by other crushing; landslides, earthquakes, volcanic eruptions, tidal waves, floods, tornadoes

170A Traumatism by fireworks
170B Traumatism by explosives } Not to include **166** or **173**
170C Traumatism by firearms

171 Traumatism by cutting or piercing instruments Not to include other classified causes

172 Traumatism by fall Not to include **166, 173, 174,** or **175**

176 Injuries by animals; bites, kicks, gorings, etc. Not to include **165A** Venomous bites or stings

152A Injuries at birth Applies only to children under 3 months of age

UNCLASSIFIED VIOLENCE

168B Absorption of deleterious gases (non-industrial) Not to include **58, 166** or **173**

167 Burns To include scalds, corrosive and mechanical burns and the effects of X-rays and of radium. Not to include **166** Conflagration or other classified causes

185A Dislocations To include only dislocations not due to a classified cause

169B Drowning

178 Effects of extreme cold

181B Effects of electricity (non-industrial)
179B Effects of heat (non-industrial) } Not to include burns

177A Exhaustion from over-exertion and exposure

185C Fractures To include only fractures not due to a classified cause

180 Lightning

186 Other external violence

UNCLASSIFIED VIOLENCE—Continued

185B Sprains To include only sprains not due to a classified cause
169A Submersion
168A Suffocation To include overlying
179B Sunstroke

NATURE OF INJURY

I. ORGANS AND SPECIAL STRUCTURES

BONES—State bone

Avulsion of Bone Diagnosticate as **Fracture of**
150 **Congenital Fracture of** Not to include **152A** Injuries at birth. File under Congenital Malformations
Contusion of
Epiphyseal Separation of, Traumatic File with Fractures under bone affected
Foreign Body in
Fracture about Ankle Joint
Fracture about Ankle Joint, Compound } To include Pott's fracture
Fracture of Clavicle
Fracture of Clavicle, Compound
Fracture of *Bones of Face*
Fracture of *Bones of Face*, **Compound**
Fracture of Femur
Fracture of Femur, Compound
Fracture of *Bones of Foot*
Fracture of *Bones of Foot*, **Compound**

Wound of Rectum, Lacerated } obstetrical injury
Wound of Anus, Punctured
Wound of Rectum, Punctured
Wound of Anus, Stab
Wound of Rectum, Stab

EAR

Abrasion of External Ear
Avulsion of External Ear (complete or partial)
Burn of External Ear
Contusion of External Ear
178 **Frostbite of External Ear**
Haematoma of External Ear, Traumatic
Rupture of Tympanum, Traumatic
Wound of Tympanum, Punctured
Wound of External Ear, Gunshot
Wound of External Ear, Incised
Wound of External Ear, Lacerated
Wound of External Ear, Punctured
Wound of External Ear, Stab

EYE AND EYELID

Abrasion of State site
Burn of State site
Contusion of Eyeball
Contusion of Eyelid
Dislocation of Eyeball
Dislocation of Lens
75C **Foreign Body in Eye**
Haemorrhage into Eyeball
Haemorrhage under Conjunctiva, Traumatic
Rupture of Globe
Wound of Eye, Gunshot
Wound of, Incised State site
Wound of, Lacerated State site
Wound of, Punctured State site
Wound of, Stab State site

JOINTS—State joint

150 **Congenital Dislocation of** Not to include **152A** Injuries at Birth. File under Congenital Malformation of Joint
Contusion of Use as a diagnosis only when the structures of the joint itself are involved
Dislocation about Ankle
Dislocation of Clavicle
Dislocation of Elbow
Dislocation of Upper End of Fibula
Dislocation of Finger
Dislocation of Thumb
Dislocation of Hip
Dislocation of Hyoid Bone
Dislocation of Intra-articular Cartilage of—Joint
Dislocation of Knee
Dislocation of Maxilla, Inferior

JOINTS—Continued

Dislocation of Metacarpus
Dislocation of Metatarsus
Dislocation of Patella
Dislocation of Pelvis
Dislocation of Rib
Dislocation of Costal Cartilage
Dislocation of Shoulder
Dislocation of Sternum
Dislocation of Tarsus
Dislocation of Toe
Dislocation of—Vertebra State vertebra
Dislocation of Coccyx
Dislocation of Occiput from Atlas
Dislocation about Wrist To include carpus
147 **Foreign Body in**
Haemorrhage into—, Traumatic Do not use as a primary diagnosis when cause can be determined
Rupture of State ligament involved
Sprain of To include strain of joint
Synovitis, Traumatic
Wound of, Gunshot
Wound of, Incised
Wound of, Lacerated
Wound of, Punctured
Wound of, Stab

LYMPHATIC SYSTEM

Wound of Thoracic Duct, Gunshot
Wound of Thoracic Duct, Incised
Wound of Thoracic Duct, Lacerated To include rupture
Wound of Thoracic Duct, Stab

MUSCULAR SYSTEM

MUSCLES—State muscle

Contusion of
Dislocation of
Foreign Body in
Rupture of
Rupture of Sheath of
Strain of
Wound of, Gunshot
Wound of, Incised
Wound of, Lacerated
Wound of, Punctured
Wound of, Stab

TENDONS—State tendon

Dislocation of
Rupture of
Wound of, Incised
Wound of, Lacerated
Wound of, Punctured
Wound of, Stab

NERVOUS SYSTEM

BRAIN

Foreign Body in Brain
Intracranial Injury To include compression, concussion, contusion, traumatic haemorrhage and laceration. When complicating fracture of the skull use only as a secondary diagnosis under **Fracture of Skull**
Wound of Brain, Gunshot
Wound of Brain, Incised
Wound of Brain, Punctured
Wound of Brain, Stab

NERVOUS SYSTEM—Continued

SPINAL CORD

Foreign Body in Spinal Cord

Intraspinal Injury To include compression, concussion, contusion, traumatic haemorrhage and laceration. When complicating fracture of vertebra use only as a secondary diagnosis under **Fracture of—Vertebra**

Wound of Spinal Cord, Gunshot

Wound of Spinal Cord, Incised

Wound of Spinal Cord, Punctured

Wound of Spinal Cord, Stab

NERVES—State nerve

Compression of

Contusion of

Displacement of

Foreign Body in

Rupture of To include injury following operative stretching

Wound of, Gunshot

Wound of, Incised

Wound of, Punctured

Wound of, Stab

REPRODUCTIVE ORGANS

MAMMARY GLAND

Abrasion of Breast

Burn of Breast

Contusion of Breast

Foreign Body in Breast

Haematoma of Breast

Wound of Breast, Gunshot

Wound of Breast, Incised

REPRODUCTIVE ORGANS—Continued

MAMMARY GLAND—Continued

Wound of Breast, Lacerated
Wound of Breast, Punctured
Wound of Breast, Stab

PENIS

Abrasion of Penis
Avulsion of Penis (Complete or partial) To include accidental amputation
Burn of Penis
Contusion of Penis
Foreign Body in Penis
186 **Fracture of Penis**
178 **Frostbite of Penis**
Haematoma of Penis Do not use as a primary diagnosis when cause can be determined
Strangulation of Penis
Wound of Penis, Gunshot
Wound of Penis, Incised
Wound of Penis, Lacerated
Wound of Penis, Punctured
Wound of Penis, Stab

SCROTUM

Abrasion of Scrotum
Burn of Scrotum
Contusion of Scrotum
Foreign Body in Scrotum
178 **Frostbite of Scrotum**
Haematoma of Scrotum Do not use as a primary diagnosis when cause can be determined
Wound of Scrotum, Gunshot
Wound of Scrotum, Incised

REPRODUCTIVE ORGANS—Continued

SCROTUM—Continued

Wound of Scrotum, Lacerated
Wound of Scrotum, Punctured
Wound of Scrotum, Stab

SPERMATIC CORD

Haematoma of Spermatic Cord
Torsion of Spermatic Cord, Traumatic
Wound of Spermatic Cord, Incised
Wound of Spermatic Cord, Punctured
Wound of Spermatic Cord, Stab

TESTICLE

Castration, Traumatic
Contusion of Testicle
Dislocation of Testicle
Wound of Testicle, Gunshot
Wound of Testicle, Incised
Wound of Testicle, Lacerated
Wound of Testicle, Punctured
Wound of Testicle, Stab

TUNICA VAGINALIS

Haematocele of Tunica Vaginalis Do not use as a primary diagnosis when cause can be determined

UTERUS

Burn of Uterus
Contusion of Uterus
Rupture of Uterus, Traumatic Not to include **136** obstetrical injury
Wound of Uterus, Gunshot
Wound of Uterus, Incised

REPRODUCTIVE ORGANS—Continued

UTERUS—Continued

Wound of Uterus, Lacerated Not to include **136** obstetrical injury
Wound of Uterus, Punctured
Wound of Uterus, Stab

VAGINA

Abrasion of Vagina
Burn of Vagina
Wound of Vagina, Gunshot
Wound of Vagina, Incised
Wound of Vagina, Lacerated Not to include **136** obstetrical injury
Wound of Vagina, Punctured
Wound of Vagina, Stab

VULVA

Abrasion of Vulva
Burn of Vulva
Contusion of Vulva
Foreign Body in Vulva
Haematoma of Vulva, Traumatic Not to include **136** obstetrical injury
Wound of Vulva, Gunshot
Wound of Vulva, Incised
Wound of Vulva, Lacerated
Wound of Vulva, Punctured
Wound of Vulva, Stab

RESPIRATORY SYSTEM

LARYNX

Abrasion of Larynx
Burn of Larynx
Fracture of Larynx

RESPIRATORY SYSTEM—Continued

LARYNX—Continued

Wound of Larynx, Gunshot
Wound of Larynx, Incised
Wound of Larynx, Punctured
Wound of Larynx, Stab

LUNG

Foreign Body in Lung
Wound of Lung, Gunshot
Wound of Lung, Incised
Wound of Lung, Lacerated
Wound of Lung, Punctured
Wound of Lung, Stab

NOSE

Abrasion of Nose
Burn of Nose
Contusion of Nose
Dislocation of Nasal Cartilage
Fracture of Nasal Septum
178 **Frostbite of Nose**
Haematoma of Nasal Septum
Wound of Nose, Gunshot
Wound of Nose, Incised
Wound of Nose, Lacerated
Wound of Nose, Punctured
Wound of Nose, Stab

PLEURA

Foreign Body in Pleural Cavity
Wound of Pleura, Gunshot
Wound of Pleura, Incised
Wound of Pleura, Lacerated
Wound of Pleura, Punctured
Wound of Pleura, Stab

RESPIRATORY SYSTEM—Continued

TRACHEA

Abrasion of Trachea
Burn of Trachea
Fracture of Tracheal Cartilage
Wound of Trachea, Gunshot
Wound of Trachea, Incised
Wound of Trachea, Punctured
Wound of Trachea, Stab

SPLEEN

Foreign Body in Spleen
Wound of Spleen, Gunshot
Wound of Spleen, Incised
Wound of Spleen, Lacerated To include rupture
Wound of Spleen, Punctured
Wound of Spleen, Stab

URINARY ORGANS

BLADDER

Abrasion of Bladder
Burn of Bladder
Wound of Bladder, Gunshot
Wound of Bladder, Incised
Wound of Bladder, Lacerated To include rupture
Wound of Bladder, Punctured
Wound of Bladder, Stab

KIDNEY

Contusion of Kidney
Foreign Body in Kidney
Wound of Kidney, Gunshot
Wound of Kidney, Incised

URINARY ORGANS—Continued

KIDNEY—Continued

Wound of Kidney, Lacerated To include rupture
Wound of Kidney, Punctured
Wound of Kidney, Stab

URETER

Abrasion of Ureter
Wound of Ureter, Gunshot
Wound of Ureter, Incised
Wound of Ureter, Lacerated To include rupture
Wound of Ureter, Punctured
Wound of Ureter, Stab

URETHRA

Abrasion of Urethra
Burn of Urethra
125 **Urethral Fever, Traumatic**
Wound of Urethra, Incised
Wound of Urethra, Lacerated To include rupture
Wound of Urethra, Punctured
Wound of Urethra, Stab

II. REGIONS

File all histories serially according to the nature of the injury, irrespective of site.

ABDOMINAL WALL

Abrasion of Abdominal Wall
Burn of Abdominal Wall
Contusion of Abdominal Wall

ABDOMINAL WALL—Continued

Foreign Body in Abdominal Wall
Haematoma of Abdominal Wall
Wound of Abdominal Wall, Gunshot
Wound of Abdominal Wall, Incised
Wound of Abdominal Wall, Lacerated
Wound of Abdominal Wall, Punctured
Wound of Abdominal Wall, Stab

BACK

Abrasion of Back
Burn of Back
Contusion of Back
Foreign Body in Back
Haematoma of Back
Wound of Back, Gunshot
Wound of Back, Incised
Wound of Back, Lacerated
Wound of Back, Punctured
Wound of Back, Stab

CHEST WALL

Abrasion of Chest Wall
Burn of Chest Wall
Compression of Chest
Contusion of Chest Wall
Foreign Body in Chest Wall
Haematoma of Chest Wall
Wound of Chest Wall, Gunshot
Wound of Chest Wall, Incised
Wound of Chest Wall, Lacerated
Wound of Chest Wall, Punctured
Wound of Chest Wall, Stab

EXTREMITY, LOWER

Specify buttock, thigh, leg, foot, or toe

Abrasion of
Avulsion of (complete or partial) To include accidental amputation
Avulsion of Toenail
Burn of
Contusion of
Crush of
Foreign Body in Not to include foreign body in special structures
178 **Frostbite of**
Haematoma of Do not use as a primary diagnosis when cause can be determined
Wound of, Gunshot
Wound of, Incised
Wound of, Lacerated
Wound of, Punctured
Wound of, Stab

EXTREMITY, UPPER

Specify shoulder, arm, forearm, hand, or finger

Abrasion of
Avulsion of (complete or partial). To include accidental amputation
Avulsion of Finger-nail
Burn of
Contusion of
Crush of
Foreign Body in Not to include foreign body in special structures
178 **Frostbite of**
Haematoma of Do not use as a primary diagnosis when cause can be determined
Wound of, Gunshot

EXTREMITY, UPPER—Continued

Wound of, Incised
Wound of, Lacerated
Wound of, Punctured
Wound of, Stab

FACE AND SCALP

Specify face or scalp

Abrasion of
Avulsion of Scalp (complete or partial)
Burn of
Contusion of
Epilation, Traumatic
Foreign Body in
178 **Frostbite of Face** Not to include ears or nose
Haematoma of Do not use as a primary diagnosis when cause can be determined
Wound of, Gunshot
Wound of, Incised
Wound of, Lacerated
Wound of, Punctured
Wound of, Stab

NECK

Abrasion of Neck
Burn of Neck
Contusion of Neck
Foreign Body in Neck
Haematoma of Neck Do not use as a primary diagnosis when cause can be determined
Wound of Neck, Gunshot
Wound of Neck, Incised
Wound of Neck, Lacerated
Wound of Neck, Punctured
Wound of Neck, Stab

PERINAEUM

Abrasion of Perinaeum
Burn of Perinaeum
Contusion of Perinaeum
Foreign Body in Perinaeum
Haematoma of Perinaeum
Wound of Perinaeum, Gunshot
Wound of Perinaeum, Incised
Wound of Perinaeum, Lacerated Not to include **136** obstetrical injury
Wound of Perinaeum, Punctured
Wound of Perinaeum, Stab

III. MISCELLANEOUS INJURIES

Abrasions, Multiple
Air Embolism
Avulsion of Skin
Burns, Multiple
Contusions, Multiple
Decapitation
169B Drowning
169A Submersion
Electric Shock, Injury from Not to include burns. When non-industrial assign number **181B**
180 Lightning Stroke
Emphysema, Traumatic State site
177A Exhaustion from Over-exertion and Exposure
178 Exposure to Extreme Cold
Multiple Injuries, Extreme
189B Operation Wound To include only such cases as have been operated on before admission to the hospital and not presenting any other condition or disease
Powdered Glass, Injury from Swallowing

Secondary Haemorrhage Do not use as a primary diagnosis

168B Smoke Inhalation When due to conflagration assign number **166**

Strangulation

168A Suffocation To include overlying. Not to include absorption of deleterious gases, industrial or non-industrial

167 Sunburn

179B Sunstroke

Heat Cramps
Heat Exhaustion
Thermic Fever
} When non-industrial assign number **179A**

NOMENCLATURE OF OPERATIONS

Rules for Recording Operations*

1. When a patient has been operated upon, this fact must be recorded on the bedside card in the place provided therefor.

2. In recording operations on the bedside card the House Surgeon must undeviatingly follow the nomenclature hereinafter contained.

3. When an operation is performed for a single condition and its immediate complications, one operation only shall be recorded on the bedside card; e. g., an operation for strangulated inguinal hernia, in which the procedures include relief of the strangulation, excision of a gangrenous portion of intestine, lateral anastomosis of intestine, and a radical cure of the hernia, must be recorded on the bedside card as **Operation for Inguinal Hernia, Strangulated.**

---

* See also Rules for the Recording and Filing of Histories on page 7.

4. When several operations have been performed for several distinct conditions each operation must be recorded separately on the bedside card; e. g., inguinal hernia, varicocele and varicose vein of the leg, the operations must be recorded on the bedside card as: **Operation for Inguinal Hernia; Operation for Varicocele** and **Operation for Varix of Saphenous Vein.**

SURGICAL OPERATIONS

Operations must be recorded on the bedside card as:

Operation for State diagnosis

The exceptions to this rule are the following:

Appendectomy Prophylactic
Amputation of———for State diagnosis. To include only amputations of the extremities or parts thereof
Cleaning and dressing of State diagnosis. To include suturing
Extraction of tooth for State diagnosis
Operation, exploratory This term must be used only when the operation does not reveal the diagnosis
Operation for injection of serum, e. g., subdural injection of antitoxin. Not to include hypodermic or intravenous injections
Operation of skin grafting for State diagnosis
Operation on blood donor
Operation on skin donor
Removal of Tissue for Pathological Examination
Sterilization
Tracheotomy
Transfusion of blood for State diagnosis
Transplantation of Tissue

OBSTETRICAL OPERATIONS

Caesarean section To include all varieties of this operation

Embryotomy To include all mutilating operations upon the foetus

Forceps This term must not be used when any other obstetrical operation has been performed

Hebeotomy To include pubiotomy and symphysiotomy

Induction of abortion

Induction of labor

Manual Extraction of Placenta

Operative dilatation of cervix

Version This term must not be used when any other obstetrical operation has been performed

THE BELLEVUE HOSPITAL NOMENCLATURE ARRANGED IN THE ORDER and UNDER THE TITLES of the INTERNATIONAL CLASSIFICATION

The International Titles are in Roman type; the terms of the Bellevue Hospital Nomenclature are in bold face type.

I. GENERAL DISEASES

1. Typhoid fever*
   1 Typhoid Fever To include all forms of infection of a typhoid type, caused by the typhoid-colon group of bacilli
   1aTyphoid Bacillus Carrier **
   1b Anti-Typhoid Inoculation
2. Tyhpus fever
   Typhus Fever
3. Relapsing fêver
   3A Malta Fever
   3B Relapsing Fever
4. Malaria
   Malaria

4a *Including*: Malarial cachexia.
No terms under this title

5. Smallpox
   Small Pox
6. Measles
   Measles

---

* Following the practice of the International Commission of dividing titles and the rule governing such division, we have subdivided titles whenever the needs of morbidity statistics make this necessary.

** The term "carrier" appearing under a title does not indicate a case of that disease although it is properly tabulated only under that title.

7. Scarlet fever
   Scarlet Fever

8. Whooping cough
   Whooping Cough

9. Diphtheria and croup
   9 Diphtheria
   9b Diphtheria Bacillus Carrier
   9c Anti-Diphtheria Inoculation

9a *Including*: Croup
   No terms under this title

10. Influenza
    Influenza

11. Miliary fever
    Miliary Fever

12. Asiatic cholera
    12 Asiatic Cholera
    12a Comma Bacillus Carrier

13. Cholera nostras
    No terms under this title

14. Dysentery
    14A Bacillary Dysentery
    14B Balantidic Dysentery
    14C Entamoebic Dysentery
    14D Unclassified Dysentery

15. Plague
    Bubonic Plague

16. Yellow fever
    Yellow Fever

17. Leprosy
    Leprosy

18. Erysipelas
    Erysipelas

19. Other epidemic diseases
    Chicken Pox
    Dengue
    Filariasis
    Foot and Mouth Disease
    Gangosa

19. Other epidemic diseases—Continued
    German Measles
    Haemoglobinuric Fever When due to Malaria diagnosticate as **4 Malaria**
    Milk Sickness (Trembles)
    Mumps
    Pappataci Fever
    Rocky Mountain Spotted Fever
    Tabardillo (Mexican Typhus)
    Vaccinia
    Yaws (Framboesia)

20. Purulent infection and septichaemia
    Aerogenes Capsulatus Infection
    Septichaemia Not to include **137 Septichaemia, Puerperium.** State when possible infecting microörganism as a secondary diagnosis

21. Glanders
    Glanders To include Farcy

22. Anthrax
    Anthrax

23. Rabies
    23 Rabies
    23a Anti-Rabies Inoculation

24. Tetanus
    24 Tetanus
    24a Anti-Tetanus Inoculation

25. Mycoses
    25A Actinomycosis of State site
    25B Aspergillosis of State site. To include Carate and Tokelau. Not to include **25B Mycetoma of**
    25B Blastomycosis of State site. To include cryptococcus and other saccharomycetes
    25B Discomycosis of State site. Not to include **25A Actinomycosis of, 25B Mycetoma of,** or **25B Erysipeloid**
    25B Erysipeloid
    25B Erythrasma
    25B Favus
    25B Mucormycosis of State site
    25B Mycetoma of State site. To include actinomycotic and aspergillar mycetoma

25. Mycoses—Continued
    25B Mycosis Fungoides
    25B Piedra
    25B Pinta
    25B Pityriasis Versicolor
    25B Sporotrichosis of State site

26. Pellagra
    Pellagra

27. Beriberi
    Beriberi

28. Tuberculosis of the lungs
    Tuberculosis, Chronic Pulmonary
    Tuberculosis of Bronchus
    Tuberculosis of Larynx
    Tuberculosis of Pleura
    Tuberculosis of Trachea

29. Acute miliary tuberculosis
    Tuberculosis, Acute Broncho-pneumonic
    Tuberculosis, Acute General
    Tuberculosis, Acute Pneumonic
    Tuberculosis, Acute Pulmonary Miliary

30. Tuberculous meningitis
    Tuberculosis of Brain
    Tuberculosis of Cerebral Meninges
    Tuberculosis of Cerebrospinal Meninges
    Tuberculosis of Spinal Meninges

31. Abdominal tuberculosis
    Tuberculosis of Anus
    Tuberculosis of Appendix
    Tuberculosis of Intestine
    Tuberculosis of Omentum
    Tuberculosis of Peritonaeum
    Tuberculosis of Rectum
    Tuberculosis of Stomach

32. Pott's disease
    Abscess of Vertebra, Tuberculous
    Tuberculosis of Vertebra

33. White swellings
    Tuberculosis of———Joint State joint

34. Tuberculosis of other organs
Tuberculide
Tuberculosis of Except suprarenal gland (52) State site

35. Disseminated tuberculosis
No terms under this title

36. Rickets
36A Osteomalacia
36B Osteoarthropathy, Hypertrophic
36C Curvature of Spine Do not use as a primary diagnosis when cause can be determined. When tuberculous diagnosticate as **Abscess of Vertebra, Tuberculous;** use only as a secondary diagnosis under **Tuberculosis of** *Bone* and assign number **32**
36C Rickets

37. Syphilis
Syphilis
Syphilis of State site

38. Gonococcus infection
38A Soft chancre
38A Chancroid of State site. State when possible infecting microörganism as a secondary diagnosis
38B Gonococcus Infection of State site; for example, when affecting conjunctiva diagnosticate as **Gonococcus Infection of Eye;** when affecting urethra, as **Gonococcus Infection of Urethra**

39. Cancer and other malignant tumors of the buccal cavity
39A Carcinoma of
39B Endothelioma of
39C Epithelioma of
39F Sarcoma of
39 (A, B, C or F) + G *Mixed malignant tumor of*
} Specify lip, mouth, palate, salivary gland or duct, tooth, gum, alveolus, tongue, tonsil or uvula. See pages 98 and 99.

40. Cancer and other malignant tumors of the stomach, liver

40A Carcinoma of **40B Endothelioma of** **40C Epithelioma of** **40E Hypernephroma of** **40F Sarcoma of** **40 (A, B, C, E or F) + G** *Mixed malignant tumor of*	Specify gallbladder, gall-duct, liver, oesophagus, pharynx or stomach. See pages 98 and 99

41. Cancer and other malignant tumors of the peritonaeum, intestines, rectum

41A Carcinoma of **41B Endothelioma of** **41C Epithelioma of** **41E Hypernephroma of** **41F Sarcoma of** **41 (A, B, C, E or F) + G** *Mixed malignant tumor of*	Specify anus, intestine, mesentery, omentum, peritonaeum, rectum or retroperitoneal glands See pages 98 and 99

42. Cancer and other malignant tumors of the female genital organs

42A Carcinoma of **42B Endothelioma of** **42C Epithelioma of** **42D Chorioepithelioma of** **42E Hypernephroma of** **42F Sarcoma of** **42 (A, B, C, D, E or F) +G** *Mixed malignant tumor of*	State site. See pages 98 and 99

43. Cancer and other malignant tumors of the breast

43A Carcinoma of the Mammary Gland
43B Endothelioma of the Mammary Gland
43C Epithelioma of the Mammary Gland
43F Sarcoma of the Mammary Gland
43 (A, B, C or F) + G *Mixed malignant tumor* **of the Mammary Gland.** See pages 98 and 99

44. Cancer and other malignant tumors of the skin

44A Carcinoma of the Skin
44B Endothelioma of the Skin
44C Epithelioma of the Skin

44. Cancer and other malignant tumors of the skin—Continued

44F Sarcoma of the Skin

44 (A, B, C or F) + G *Mixed malignant tumor* **of the Skin.** See pages 98 and 99

45. Cancer and other malignant tumors of other organs and of organs not specified

45A Carcinoma of
45B Endothelioma of
45C Epithelioma of
45D Chorioepithelioma of
45E Hypernephroma of
45F Sarcoma of
45 (A, B, C, D, E or F) + G *Mixed malignant tumor of*

State site. See pages 98 and 99

46. Other tumors (tumors of the female genital organs excepted)

This title in the International List is a residual title, and is intended only for the assignment of cases in which the location of the tumor is not definitely stated

All benign and mixed benign tumors must be numbered according to site. See page 95

47. Acute articular rheumatism

Rheumatic Fever, Acute
Rheumatic Fever, Subacute

48. Chronic rheumatism and gout

48A Arthritis Deformans To include spondylitis deformans
48B Rheumatism, Chronic Articular
48C Gout, Acute
48C Gout, Chronic

49. Scurvy

Scurvy
Werlhof's Disease

50. Diabetes

Diabetes Mellitus
Glycosuria Do not use for **Diabetes Mellitus**

51. Exophthalmic goitre
    Exophthalmic Goitre

52. Addison's disease
    Addison's Disease
    Benign (or mixed benign) tumor **of Suprarenal Gland**
    Tuberculosis of Suprarenal Gland

53. Leuchaemia
    53A Hodgkin's Disease
    53B Pseudoleuchaemia, Infantile
    53C Leuchaemia

54. Anaemia, chlorosis
    Anaemia, Pernicious } Do not use as a primary diagnosis when cause can be determined
    Anaemia, Simple }
    Anaemia, Splenic To include Banti's disease, primary splenomegaly, and splenic pseudoleuchaemia
    Chlorosis
    Kala Azar

55. Other general diseases
    Acidosis, Nondiabetic
    Acromegaly
    Amyloid Disease
    Diabetes Insipidus
    Dwarfism
    Gigantism
    Haemochromatosis
    Haemophilia
    Histoplasmosis
    Infantalism
    Obesity
      Adiposis Dolorosa
    Ochronosis
    Polycythaemia, Chronic } Do not use as a primary diagnosis when cause can be determined
    Pupura }
    Trypanosomiasis
    Verruga Peruviana

56. Alcoholism (acute and chronic)
    56A Psychosis, Intoxication (alcoholic)
    56A Psychosis Polyneuritica (Korssakow's Syndrome)
    56B Absinthe Poisoning
    56B Alcohol Poisoning

57. Chronic lead poisoning
    57A Lead Poisoning, Industrial
    57B Lead Poisoning, Chronic

58. Other chronic occupation poisonings
    Acetylene Poisoning, Industrial
    Ammonia Poisoning, Industrial
    Amyl Alcohol Poisoning, Industrial
    Aniline Poisoning, Industrial
    Antimony Poisoning, Industrial
    Arsenic Poisoning, Industrial
    Arseniuretted Hydrogen Poisoning, Industrial
    Benzol Poisoning, Industrial
    Carbon Dioxide Poisoning, Industrial
    Carbon Disulphide Poisoning, Industrial
    Carbon Monoxide Poisoning, Industrial Not to include **Illuminating Gas Poisoning, Industrial**
    Chloride of Lime Poisoning, Industrial
    Chlorine Poisoning, Industrial
    Chromium Poisoning, Industrial Diagnosticate lead chromate poisoning as **57A Lead Poisoning, Industrial**
    Dinitrobenzol Poisoning, Industrial
    Formaldehyde Poisoning, Industrial
    Gasoline Poisoning, Industrial
    Hydrochloric Acid Poisoning, Industrial
    Hydrocyanic Acid Poisoning, Industrial
      Cyanide Poisoning, Industrial
      Cyanogen Poisoning, Industrial
    Hydrofluoric Acid Poisoning, Industrial
    Illuminating Gas Poisoning, Industrial
    Lead Poisoning, Industrial
    Manganese Poisoning, Industrial
    Marsh Gas Poisoning, Industrial
    Mercury Poisoning, Industrial
    Methyl Alcohol Vapor Poisoning, Industrial

58. Other chronic occupation poisonings—Continued

Nitrobenzine Poisoning, Industrial
Nitrous Gas Poisoning, Industrial
Petroleum Vapor Poisoning, Industrial
Phosphorus Poisoning, Industrial
Picric Acid Poisoning, Industrial
Pyridine Poisoning, Industrial
Sewer Gas Poisoning, Industrial Diagnosticate as **Sulphuretted Hydrogen Poisoning, Industrial**
Sulphur Chloride Poisoning, Industrial
Sulphuretted Hydrogen Poisoning, Industrial
Sulphurous Acid Vapor Poisoning, Industrial
Tea Poisoning, Industrial
Tobacco Poisoning, Industrial
Turpentine Vapor Poisoning, Industrial

59. Other chronic poisonings

Acetanilide Poisoning, Chronic
Antipyrine Poisoning, Chronic
Arsenic Poisoning, Chronic
Bromide Poisoning
Cannabis Indica Poisoning, Chronic
Chloral Hydrate Poisoning, Chronic
Coca Poisoning, Chronic
  Cocaine Poisoning, Chronic
Coffee Poisoning
  Caffeine Poisoning, Chronic
Ergot Poisoning, Chronic
Ether Poisoning, Chronic
Lathyrism
Mercury Poisoning, Chronic
Opium Poisoning, Chronic
  Codeine Poisoning, Chronic
  Dionine Poisoning, Chronic
  Heroine Poisoning, Chronic
  Morphine Poisoning, Chronic
Paraldehyde Poisoning, Chronic
Phenacetin Poisoning, Chronic
Silver Poisoning, Chronic
Sulphonal Poisoning, Chronic
Tea Poisoning
Tin Poisoning

59. Other chronic poisonings—Continued
Tobacco Poisoning
Nicotine Poisoning, Chronic
Trional Poisoning, Chronic
Veronal Poisoning, Chronic

II. DISEASES OF THE NERVOUS SYSTEM AND OF THE ORGANS OF SPECIAL SENSE

60. Encephalitis
Abscess of Brain
Encephalitis, Acute
} State when possible infecting microörganism as a secondary diagnosis

61. Simple meningitis
Meningitis, Cerebral State when possible infecting microörganism as a secondary diagnosis
Meningitis, Cerebrospinal Not to include **61a Cerebrospinal Fever.** State when possible infecting microörganism as a secondary diagnosis
Meningitis, Spinal State when possible infecting microörganism as a secondary diagnosis
Pachymeningitis, Cerebral
Pachymeningitis, Spinal

61a Including cerebrospinal fever
Cerebrospinal Fever To include only meningococcus infection

62. Locomotor ataxia
Arthropathy of Tabes Dorsalis Do not use as a primary diagnosis
Tabes Dorsalis

63. Other diseases of the spinal cord
Arthropathy of Syringomyelia Do not use as a primary diagnosis
Ataxia, Hereditary
Dystrophy, Progressive Muscular
Haematomyelia
Haematorrhachis
Morvan's Disease

63. Other diseases of the spinal cord—Continued
Myasthenia Gravis
Myelitis, Disseminated
Myelitis, Transverse
Paralysis, Acute Ascending
Paralysis Agitans
Paralysis, Brown-Séquard's
Paralysis, Infantile Spastic
Paraplegia, Hereditary Spastic
Parasite **of Spinal Cord** State variety
Poliomyelitis, Acute Anterior
Poliomyelitis, Acute Bulbar
Poliomyelitis, Chronic Anterior
Sclerosis, Amyotrophic Lateral
Sclerosis, Disseminated
Sclerosis, Lateral
Syringomyelia

64. Cerebral haemorrhage; apoplexy
Apoplexy Do not use as a primary diagnosis when cause can be determined
Haemorrhage, Epidural
Haemorrhage, Subdural
Haemorrhage into Cerebellum
Haemorrhage into Cerebrum
Haemorrhage into Medulla
Haemorrhage into Pons

65. Softening of the brain
No terms under this title

66. Paralysis without specified cause
Hemiplegia, Old
Paralysis of State nerve. Do not use as a primary diagnosis when cause can be determined
Paraplegia, Ataxic

67. General paralysis of the insane
General Paralysis of the Insane

68. Other forms of mental alienation
Constitutional Inferiority
Constitutional Pyschopathic State To include perverted sexual instincts and imperative ideas and acts. Not to include **74 Psychical Tic**
Psychasthenia

68. Other forms of mental alienation—Continued

Dementia (Cause Unknown)
Dementia Praecox
Dementia Praecox, Catatonia
Dementia Praecox, Hebephrenia
Dementia Praecox, Paranoid Form
Hypochondriasis
Melancholia, Involutional
Nostalgia
Paranoia
Paranoid State
Psychosis, Exhaustive, Infective and Toxic Assign number according to the causative disease, e. g., influenza, 10; pneumonia, 92; puerperium (pregnancy), 140; rheumatic fever, 47; typhoid fever, 1; malignant tumors (*vide*); uraemia, 120. When cause is not known assign number 68
Psychosis, Intoxication To include alcoholic dementia, alcoholic hallucinatory delusional states, and alcoholic paranoia. Assign number according to cause, e. g., alcohol, 56A; morphine, 59; cocaine, 59, etc.
Psychosis, Manic Depressive To include depressed, maniacal and mixed phases. When complicating pregnancy or puerperium assign number 140
Psychosis Polyneuritica (Korssakow's syndrome) When due to alcohol assign number **56A**
Psychosis, Thyreoigenous Always use as a secondary diagnosis under **74 Cretinism** or **88 Myxoedema**
Psychosis, Traumatic
Variety of Insanity Not Ascertained

69. Epilepsy

Epilepsy
Psychosis, Epileptic

70. Convulsions (nonpuerperal)

No terms under this title

71. Convulsions of infants
    Convulsions, Infantile, under 5 years Do not use as a primary diagnosis when cause can be determined
72. Chorea
    Chorea
73. Neuralgia and neuritis
    73A Hysteria
    73A Psychosis, Hysterical
    73B Neuralgia of } State nerve
    73B Neuritis of }
    73B Neuritis, Multiple
74. Other diseases of the nervous system
    Anaemia of Brain (Syncope)
    Angiospastic Oedema
    Aphasia Do not use as a primary diagnosis when cause can be determined
    Athetosis
    Caisson Disease
    Catalepsy
    Chorea, Chronic Progressive
    Cretinism
    Cyst of Brain Not to include cystic tumor
    Epilepsy, Jacksonian Not to include **74 Psychosis Due to Organic Brain Disease**
    Hernia of Brain
    Hiccough Do not use as a primary diagnosis when cause can be determined
    Hydrocephalus, Acquired
    Idiocy
    Imbecility
    Masturbation
    Migraine
    Neurasthenia
    Neurosis, Occupational
    Neurosis, Traumatic To include railway spine
    Night Terrors
    Paralysis of Vocal Chords Do not use as a primary diagnosis when cause can be determined
    Paramyoclonus Multiplex
    Parasite **of Brain** State variety
    Psychosis Due to Organic Brain Disease

74. Other diseases of the nervous system—Continued

Somnambulism
Spasm, Habit
Spasm, Nodding
Spasm, Saltatory
Stammering
Stuttering
Tetany
Tic, Convulsive
Tic, Coördinated
Tic, Painful of Diagnosticate as **73B Neuralgia of** State nerve
Tic, Psychical Not to include **68 Constitutional Psychopathic State**
Tic, Simple Diagnosticate as **74 Spasm, Habit**
Vertigo Do not use as a primary diagnosis when cause can be determined

75. Diseases of the eyes and their annexa

75A Follicular conjunctivitis
75A Conjunctivitis, Acute State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Eye.** When due to diphtheria bacillus diagnosticate as **9 Diphtheria**
75A Conjunctivitis, Chronic
75A Conjunctivitis, Phlyctenular
Conjunctivitis, Trachomatous Diagnosticate as **75B Trachoma**

75B Trachoma
Trachoma

75C Other diseases of the eyes and their annexa

75C Abscess of State site. State when possible infecting microörganism as a secondary diagnosis
75C Absence of Lens Not to include Congenital Malformation

Accommodation and Refraction, Errors of
75C Astigmatism
75C Hypermetropia
75C Myopia
75C Presbyopia

75. Diseases of the eyes and their annexa—Continued

75C Amaurosis
75C Amblyopia
} Do not use as a primary diagnosis when cause can be determined

75C Ankyloblepharon
75C Blepharitis
75C Cataract
75C Chalazion
75C Chorioiditis
75C Cramp of Ciliary Muscle
75C Cyclitis
75C Dacryoadenitis
75C Dacryocystitis
75C Detachment of Chorioid
75C Detachment of Retina
75C Ectropion
75C Entropion
75C Epiphora
75C Fistula of Lacrymal Sac
75C Fistula of Nasal Duct
75C Foreign Body in Eye
75C Glaucoma, Acute
75C Glaucoma, Chronic

75C Haemorrhage into Retina
75C Haemorrhage under Conjunctiva (Nontraumatic)
} Do not use as a primary diagnosis when cause can be determined

75C Hemianopsia
75C Hordeolum
75C Hyperaemia of Conjunctiva
75C Hyperaesthesia of Retina
75C Insufficiency of *Ocular Muscle* State muscle involved

75C Iritis
75C Iridochorioiditis
75C Iridocyclitis
} Do not use as a primary diagnosis when cause can be determined

75C Synechia
75C Keratitis
75C Keratitis, Phlyctenular
75C Keratoiritis
75C Leukoma

75. Diseases of the eyes and their annexa—Continued

75C Neuritis, Optic
75C Atrophy of Optic Nerve
75C Neuroretinitis
} Do not use as a primary diagnosis when cause can be determined

75C Night Blindness

75C Nystagmus Do not use as a primary diagnosis when cause can be determined

75C Opacity of Vitreous Humor

75C Ophthalmoplegia

75C Panophthalmitis State when possible infecting microörganism as a secondary diagnosis

75C Paralysis of *Ocular Muscle* State muscle involved

75C *Parasite* **of** State variety and site

75C Perverted Color Vision
75C Color Blindness

75C Pterygium

75C Retinitis Do not use as a primary diagnosis when cause can be determined

75C Scleritis To include episcleritis

75C Snow Blindness

75C Staphyloma of Cornea

75C Stenosis of Punctum Lacrimale
75C Stenosis of Nasal Duct
} Do not use as a primary diagnosis when cause can be determined

75C Symblepharon

75C Trichiasis

75C Ulcer of State site

75C Hypopyon State when possible infecting microörganism as a secondary diagnosis

75C Xerosis Do not use as a primary diagnosis when cause can be determined

76. Diseases of the ears

Ankylosis of Ossicles

Cerumen, Accumulation of

Deafmutism When congenital assign number 150

Deafness Do not use as a primary diagnosis when cause can be determined

76. Diseases of the ears—Continued

Deformity of External Ear, Acquired
Eustachian Salpingitis, Acute State when possible infecting microörganism as a secondary diagnosis
Eustachian Salpingitis, Chronic
Foreign Body in Auditory Canal
Haematoma of External Ear, Nontraumatic
Haemorrhage into Labyrinth
Ménière's Disease
Myringitis, Acute State when possible infecting microörganism as a secondary diagnosis
Myringitis, Chronic Do not use as a primary diagnosis when cause can be determined
Necrosis of Ossicles
Caries of Ossicles

Otitis Externa
Otitis Interna, Acute
Otitis Interna, Chronic
Otitis Media, Acute
Otitis Media, Chronic
} State when possible infecting microörganism as a secondary diagnosis

Ossification of Auricle
Parasite **of** State variety and site
Perichondritis of Auricle State when possible infecting microörganism as a secondary diagnosis

III. DISEASES OF THE CIRCULATORY SYSTEM

77. Pericarditis

Parasite **of Pericardium** State variety
Pericarditis State when possible infecting microörganism as a secondary diagnosis
Adherent Pericardium

Mediastinopericarditis
Pyopneumopericardium
} State when possible infecting microörganism as a secondary diagnosis

Pneumopericardium

78. Acute endocarditis

Endocarditis, Acute This term must not be used for **79A Valvular Disease, Chronic Cardiac.** State when possible infecting microörganism as a secondary diagnosis; when due to gonococcus diagnosticate as **38B Gonococcus Infection of Endocardium**

Myocarditis, Acute State when possible infecting microörganism as a secondary diagnosis

79. Organic diseases of the heart

79A Valvular Disease, Chronic Cardiac

79B Endocarditis, Chronic This term must not be used for **79A Valvular Disease, Chronic Cardiac.** State when possible infecting microörganism as a secondary diagnosis

79C Aneurysm of Heart

79C Atrophy of Heart

79C Dilatation, Acute Cardiac

79C Dilatation, Chronic Cardiac

79C Fatty Heart

79C Hypertrophy of Heart Do not use as a primary diagnosis when cause can be determined

79C Myocarditis, Chronic

79C *Parasite* **of Heart.** State variety

79C Rupture of Heart, Spontaneous

80. Angina pectoris

Angina Pectoris

81. Diseases of the arteries, atheroma, aneurysm, etc.

Aneurysm of
Aneurysm of, Cirsoid
Aneurysm of, Varicose
} State artery or vein

Aortitis

Arterial Sclerosis, Cerebral

Arterial Sclerosis, General

Claudication, Intermittent
Vascular Crisis of
} Use only as a secondary diagnosis under **81 Arterial Sclerosis, General**

82. Embolism and thrombosis

Embolism of
Thrombosis of } State vessel; when puerpera diagnosticate as **139 Embolism of** (or **Thrombosis of**) **Puerperium**

83. Diseases of the veins (varices, haemorrhoids, phlebitis, etc.)

Aneurysmal Varix of State vessel

Haemorrhoids

Phlebitis of Not to include **Pylephlebitis.** State when possible infecting microörganism as a secondary diagnosis. When puerperal diagnosticate as **139 Phlebitis of, Puerperium**

Pylephlebitis State when possible infecting microörganism as a secondary diagnosis

Varicocele

Varicose Ulcer of
Varix of } State site

Varix of Bladder

Varix of Broad Ligament

Varix of Oesophagus

Varix of Vulva

84. Diseases of the lymphatic system (lymphangitis, etc.)

Abscess of State nodes. When tuberculous diagnosticate as **Abscess of**—*Lymph* **Nodes, Tuberculous;** use only as a secondary diagnosis under **34 Tuberculosis of—Lymph Nodes.** State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of—Nodes.** When a complication of chancroid use only as a secondary diagnosis under **38A Chancroid of**

Chyle Cyst of Mesentery

Chylocele, Nonfilarial When due to filaria diagnosticate as **19 Filariasis**

Chylothorax Do not use as a primary diagnosis when cause can be determined

84. Diseases of the lymphatic system (lymphangitis, etc.) —Continued

Chylous Ascites, Nonfilarial Do not use as a primary diagnosis when cause can be determined. When due to filaria diagnosticate as **19 Filariasis**

Fistula of Thoracic Duct

Hypertrophy of—Lymph Nodes State nodes

Lymphadenitis of, Acute State nodes. State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of — Lymph Nodes**

Lymphadenitis of, Chronic State nodes. Not to include **34 Tuberculosis of—** *Lymph* **Nodes**

Lymphangiectasis of State site

Lymphangitis of State site. State when possible infecting microörganism as a secondary diagnosis. When puerperal diagnosticate as **137 Lymphangitis of, Puerperium**

Persistent Thymus Gland

Status Lymphaticus

85. Haemorrhage; other diseases of the circulatory system

Bradycarida, **Epistaxis** — Do not use as a primary diagnosis when cause can be determined

Haemorrhage into Parathyreoid Gland

Haemorrhage into Suprarenal Gland

Heart Block To include Stokes-Adams' Disease

Palpitation, Cardiac, **Tachycardia** — Do not use as a primary diagnosis when cause can be determined

IV. DISEASES OF THE RESPIRATORY SYSTEM

86. Diseases of the nasal fossae

Abscess of Nasal Septum State when possible infecting microörganism as a secondary diagnosis

Adenoids

Anosmia Do not use as a primary diagnosis when cause can be determined

Deformity of Nose, Acquired

Deviation of Nasal Septum

Ozaena Do not use as a primary diagnosis when cause can be determined

Parasite **of Nasal Passage** State variety

Perforated Nasal Septum

Polypus, Nasal Diagnosticate according to the nature of the tumor. See page 95.

Rhinitis, Acute

Rhinitis, Atrophic

Rhinitis, Hypertrophic

Rhinolith

Rhinoscleroma

Spur on Nasal Septum

Ulcer of Nasal Passage

87. Diseases of the larynx

Abscess of Larynx State when possible infecting microörganism as a secondary diagnosis

Adhesion of Epiglottis

Ankylosis of Arytaenoid Cartilages

Epiglottiditis Do not use as a primary diagnosis when cause can be determined

Fistula of Larynx

Laryngitis, Acute

Laryngitis, Chronic

Neurosis of Larynx To include laryngeal epilepsy, laryngismus stridulus, and spasmodic laryngeal cough

Oedema Glottidis Do not use as a primary diagnosis when cause can be determined

Ossification of Larynx

Parasite **of Larynx** State variety

Perichondritis of Larynx

87. Diseases of the larynx—Continued
    - **Stenosis of Larynx** To include retained intubation tube. Do not use as a primary diagnosis when cause can be determined
    - **Ulcer of Epiglottis**

88. Diseases of the thyreoid body
    - **Goitre** Not to include **51 Exophthalmic Goitre**
    - **Myxoedema** To include cachexia strumipriva. Not to include **Psychosis, Thyreoigenous**
    - *Parasite* **of Thyreoid Gland** State variety
    - **Thyreoiditis, Acute**
    - **Thyreoiditis, Chronic**

89. Acute bronchitis
    - **Bronchitis, Acute**
    - **Tracheitis**

90. Chronic bronchitis
    - **Bronchiectasis**
    - **Bronchitis, Chronic**
    - **Bronchitis, Fibrinous**

91. Bronchopneumonia
    - **Pneumonia, Broncho-**

92. Pneumonia
    - **Pneumonia, Lobar**

93. Pleurisy
    - **Haemothorax** Do not use as a primary diagnosis when cause can be determined
    - *Parasite* **of Pleura** State variety
    - **Pleurisy, Acute Fibrinous**
    - **Pleurisy, Chronic Fibrous**
      - **Pleuritic Adhesions**
    - **Pleurisy, Serofibrinous**
    - **Pleurisy, Suppurative**

      } State when possible infecting microörganism as a secondary diagnosis
    - **Pneumothorax**
    - **Pyopneumothorax**

      } State when possible infecting microörganism as a secondary diagnosis. Do not use as a primary diagnosis when cause can be determined
    - **Thoracointestinal Fistula**

94. Pulmonary congestion; pulmonary apoplexy
Congestion of Lung, Acute
Infarct of Lung
Oedema of Lung Do not use as a primary diagnosis when cause can be determined

95. Gangrene of the Lung
Gangrene of Lung

96. Asthma
Asthma

97. Pulmonary emphysema
Emphysema, Congenital Pulmonary
Emphysema, Pulmonary Interlobular
Emphysema, Senile Pulmonary

98. Other diseases of the respiratory system (tuberculosis excepted)
Abscess of Lung State when possible infecting microörganism as a secondary diagnosis
Atelectasis (3 months and over)
Fistula of Trachea
Haemoptysis Do not use as a primary diagnosis when cause can be determined
Hay Fever
Hernia of Lung
Ossification of Tracheal Rings
Parasite **in Wall of Bronchus**
Parasite **in Wall of Trachea**
Parasite **of Lung**
} State variety
Pneumonia, Interstitial
Pneumonoconiosis
Stenosis of Bronchus
Stenosis of Trachea
} Do not use as a primary diagnosis when cause can be determined
Tracheocele
Ulcer of Bronchus
Ulcer of Trachea
} Do not use as a primary diagnosis when cause can be determined

V. DISEASES OF THE DIGESTIVE SYSTEM

99. Diseases of the mouth and annexa

99A Diseases of the teeth and gums

Abscess, Alveolar State when possible infecting microörganism as a secondary diagnosis

Caries of Tooth

Gingivitis

Pyorrhoea Alveolaris State when possible infecting microörganism as a secondary diagnosis

99B Other diseases of the mouth and annexa

Abscess of *Salivary* Gland (or **Duct**) State gland or duct involved. State when possible infecting microörganism as a secondary diagnosis

Abscess of Tongue. State when possible infecting microörganism as a secondary diagnosis

Atrophy of Tongue Do not use as a primary diagnosis when cause can be determined

Concretion in *Salivary* Gland (or **Duct**)
Fistula of *Salivary* Gland (or **Duct**)
} State gland or duct involved

Gaseous Tumor of Parotid

Glossitis, Acute State when possible infecting microörganism as a secondary diagnosis

Glossitis, Chronic

Hypertrohpy of Lingual Lymph Node

Inflammation of *Salivary* Gland State gland involved. State when possible infecting microörganism as a secondary diagnosis. Not to include **19 Mumps**

Mikulicz's Disease

Parasite **of Tongue** State variety

Ranula Diagnosticate as **99B Retention Cyst of Lingual Duct.**

99B Other diseases of the mouth and annexa—Continued

Stomatitis Not to include **99B Thrush,** or stomatitis due to poisoning. State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Mouth**

Thrush

Ulcer of Mouth Do not use as a primary diagnosis when cause can be determined

Xerostomia

100. Diseases of the pharynx

Abscess of Pharynx State when possible infecting microörganism as a secondary diagnosis. When tuberculous diagnosticate as **Abscess of Pharynx, Tuberculous** and use only as a secondary diagnosis under **34 Tuberculosis of Pharynx**

Abscess, Tonsillar
Amygdalitis, Acute Follicular (Tonsillitis)
} State when possible infecting microörganism as a secondary diagnosis

Amygdalitis, Chronic

Amygdalolith

Angina Ludovici State when possible infecting microörganism as a secondary diagnosis

Elongation of Uvula

Hypertrophy of Tonsil

Neurosis of Pharynx

Parasite **of Pharynx**
Parasite **of Tonsil**
} State variety

Pharyngitis, Acute State when possible infecting microörganism as a secondary diagnosis

Pharyngitis, Chronic

Stricture of Pharynx

Vincent's Angina

101. Diseases of the oesophagus

Dilatation of Oesophagus

Diverticulum of Oesophagus

Foreign Body in Oesophagus

101. Diseases of the oesophagus—Continued

Oesophagitis
Rupture of Oesophagus, Spontaneous
Spasm of Oesophagus
Stricture of Oesophagus Do not use as a primary diagnosis when cause can be determined

102. Ulcer of the stomach

Ulcer of Stomach
Ulcer of Stomach, Perforating

103. Other diseases of the stomach (cancer excepted)

Achylia Gastrica
Atony of Stomach Do not use as a primary diagnosis when cause can be determined
Atrophy of Stomach
Cardiospasm
Cribbing (Pneumophagia)
Deformity of Stomach, Acquired
Dilatation of Stomach, Acute
Dilatation of Stomach, Chronic Do not use as a primary diagnosis when cause can be determined
Fermentation, Gastric
Foreign Body in Stomach
Gastritis, Acute Catarrhal Do not use as a primary diagnosis when cause can be determined. When due to a poison always use as a secondary diagnosis
Gastritis, Acute Phlegmonous State when possible infecting microörganism as a secondary diagnosis
Gastritis, Chronic Catarrhal
Gastroptosis
Haematemesis Do not use as a primary diagnosis when cause can be determined
Hyperchlorhydria
Hyperchylia Gastrica
Hyperchlorhydria
Nervous Dyspepsia Do not use as a primary diagnosis when cause can be determined
Perversion of Appetite
Pyloric Incontinence
Pylorospasm
Regurgitation from Stomach

103. Other diseases of the stomach (cancer excepted)—Continued

Rumination

Stenosis of Pylorus Do not use as a primary diagnosis when cause can be determined

Vomiting, Recurrent To include cyclic, intermittent and periodic vomiting. Not to include **55 Non-diabetic Acidosis, 134B Vomiting of Pregnancy,** or **138 Toxaemia of Pregnancy.** Do not use as a primary diagnosis when cause can be determined

104. Diarrhoea and enteritis (under 2 years)

Autointoxication, Intestinal, under 2 years

Colitis, Acute, under 2 years. State when possible infecting microörganism as a secondary diagnosis

Colitis, Chronic, under 2 years To include catarrhal, membranous, mucous and ulcerative colitis. State when possible infecting microörganism as a secondary diagnosis

Duodenitis, under 2 years

Enteritis, Acute under 2 years
Enteritis, Chronic, under 2 years
Enterocolitis, under 2 years
— To include catarrhal, phlegmonous and ulcerative enteritis. State when possible infecting microörganism as a secondary diagnosis. Not to include **105B Flagellate Diarrhoea**

Fermentation, Intestinal, under 2 years

Gastroduodenitis, under 2 years
Gastroenteritis, under 2 years
— State when possible infecting microörganism as a secondary diagnosis

Ulcer of Intestine, under 2 years

Ulcer of Intestine, Perforating, under 2 years

105. Diarrhoea and enteritis (2 years and over)
105A Ulcer of Duodenum
105A Ulcer of Duodenum, Perforating
105B Colitis, Acute State when possible infecting microörganism as a secondary diagnosis
105B Colitis, Chronic To include catarrhal, membranous, mucous and ulcerative colitis. State when possible infecting microörganism as a secondary diagnosis
105B Duodenitis
105B Enteritis, Acute
105B Enteritis, Chronic
105B Enterocolitis
} To include catarrhal phlegmonous and ulcerative enteritis. State when possible infecting microörganism as a secondary diagnosis. Not to include **105B Flagellate Diarrhoea**
105B Fermentation, Intestinal
105B Flagellate Diarrhoea
105B Gastroduodenitis
105B Gastroenteritis
} State when possible infecting microörganism as a secondary diagnosis
105B Ulcer of Intestine
105B Ulcer of Intestine, Perforating

106. Ankylostomiasis
Ankylostoma duodenale
Necator Americanus
} Diagnosticate as **106 Uncinariasis**
Uncinariasis

107. Intestinal parasites
Amoebae
Entamoeba Coli
Entamoeba histolytica Diagnosticate as **107 Entamoebiasis, Entamoebic Abscess of** or **14C Entamoebic Dysentery**
Entamoebiasis Not to include **Entamoebic Abscess of,** or **14C Entamoebic Dysentery**
Paramoeba Hominis
Ascaris Lumbricoides

107. Intestinal parasites—Continued

Balantidium Coli (Paramoecium) Not to include **14B Balantidic Dysentery**

Bilharziosis Diagnosticate as **107 Schistosomiasis, Intestinal,** or **Schistosomiasis, Urinary;** when affecting the kidney assign number **122;** when affecting the bladder, number **124**

Coccidiasis of State variety. Assign number according to site

Eimeria stiedae Diagnosticate as **Coccidiasis of** State site

Flagellata

Cercomonas hominis
Lamblia intestinalis
Trichomonas hominis
} Diagnosticate as **105B Flagellate Diarrhoea**

Oxyuris Vermicularis

Paragonimiasis

Paragonimus Westermani (Distoma pulmonale) Diagnosticate as **Paragonimiasis**

Parasite **in Intestinal Wall**
Parasite **in Intestine**
Parasite **of Appendix**
Parasite **of Stomach**
} State variety

Schistosomidae

Schistosomiasis, Intestinal

Schistosomum haematobium Diagnosticate as **Schistosomiasis, Urinary;** when affecting the kidney assign number **122;** when affecting the bladder, number **124**

Schistosomum Japonicum

Schistosomum Mansoni Diagnosticate as **107 Schistosomiasis, Intestinal**

Strongylus Gibsoni

Trichostrongylus Instabilis (Strongylus subtilis

Strongyloides Intestinalis

Tape Worms

Dibothriocephalus Latus

Hymenolepis Nana

Sparganum Proliferum State site. Assign number according to site

107. Intestinal parasites—Continued

Taenia Echinococcus

Echinococcus of State site. Assign number according to site, e. g., **74 Echinococcus of Brain; 112 Echinococcus of Liver**

Taenia, Saginata

Taenia Solium

Cysticercus of State site. Assign number according to site

Trichina spiralis Diagnosticate as **107 Trichiniasis**

Trichiniasis

Trichocephalus dispar See Trichuris

Trichuriasis

Trichuris Trichiura (Trichocephalus dispar)

108. Appendicitis and typhilitis

Appendicitis, Acute State when possible infecting microörganism as a secondary diagnosis

Appendicitis, Chronic

109. Hernias; intestinal obstructions

Artificial Anus

Epigastric Hernia

Epigastric Hernia, Strangulated

Femoral Hernia

Femoral Hernia, Strangulated

Inguinal Hernia

Inguinal Hernia, Strangulated

Internal Hernia

Internal Hernia, Strangulated } To include diaphragmatic hernia, retroperitoneal hernia, and hernia into the lesser peritoneal sac. Not to include **98 Hernia of Lung**

Ischiadic Hernia

Ischiadic Hernia, Strangulated

Ischiorectal Hernia

Ischiorectal Hernia, Strangulated

Lumbar Hernia

Lumbar Hernia, Strangulated

109. Hernias; intestinal obstructions—Continued

Obstruction, Acute Intestinal
Obstruction, Chronic Intestinal } To include intussusception and volvulus

Obturator Hernia
Obturator Hernia, Strangulated

Stricture of Intestine Do not use as a primary diagnosis when cause can be determined

Umbilical Hernia
Umbilical Hernia, Strangulated

Ventral Hernia
Ventral Hernia, Strangulated

110. Diseases of the intestine

110A Diseases of the anus and faecal fistula

Faecal Fistula Not to include **109 Artificial Anus**

Fissure of Anus

Fistula in Ano

Fistula, Intestino-uterine

Fistula, Rectovaginal

Proctalgia Do not use as a primary diagnosis when cause can be determined

Proctitis State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Rectum**

110B Other diseases of the intestines

Abscess about Rectum State when possible infecting microörganism as a secondary diagnosis

Autointoxication, Intestinal

Constipation

Diverticulitis

Diverticulum of Intestine, Acquired

Enterolith

Foreign Body in Appendix Not to include concretions

Foreign Body in Intestine

Foreign Body in Rectum

Haemorrhage from Rectum Diagnosticate as **110B Haemorrhage, Intestinal.** Do not use as a primary diagnosis when cause can be determined

110B Other diseases of the intestines—Continued

Haemorrhage, Intestinal
Impacted Faeces
Neurosis, Intestinal To include enteralgia, enteroparesis, enterospasm and nervous diarrhoea
Prolapse of Rectum
Spasm of Rectum Do not use as a primary diagnosis when cause can be determined
Splanchnoptosis
Sprue (Psilosis)
Stricture of Rectum Do not use as a primary diagnosis when cause can be determined
Ulcer of Rectum Do not use as a primary diagnosis when cause can be determined

111. Acute yellow atrophy of the liver

Atrophy of Liver, Acute Yellow
Jaundice, Acute Infective State when possible infecting microörganism as a secondary diagnosis

112. Hydatid tumor of the liver

Echinococcus of Liver

113. Cirrhosis of the liver

Cirrhosis of Liver, Atrophic
Cirrhosis of Liver, Hypertrophic
Fatty Liver Do not use as a primary diagnosis when cause can be determined

113a. Including: Due to alcoholism

No terms under this title

114. Biliary calculi

Cholelithiasis

115. Other diseases of the liver

Abscess of Liver State when possible infecting microörganism as a secondary diagnosis
Entamoebic Abscess of Liver When complicating an existing dysentery assign number **14C**
Adhesions about Gallbladder
Amyloid Liver Diagnosticate as **55 Amyloid Disease**

115. Other diseases of the liver—Continued

Cholangitis, Acute
Cholangitis, Chronic
Cholecystitis, Acute
Cholecystitis, Chronic
} State when possible infecting microörganism as a secondary diagnosis

Deformity of Liver, Acquired
Displacement of Liver
Fistula, Biliary
Functional Derangement of Liver (Biliousness)
Obstruction of Portal Vein Do not use as a primary diagnosis when cause can be determined

Parasite **of Gallbladder**
Parasite **of Gallduct**
} State variety

Parasite **of Liver** State variety. Not to include **115 Entamoebic Abscess of Liver** nor **112 Echinococcus of Liver**
Perihepatitis
Stenosis of Gallduct Do not use as a primary diagnosis when cause can be determined

116. Diseases of the spleen

Abscess of Spleen State when possible infecting microörganism as a secondary diagnosis
Amyloid Spleen Diagnosticate as **55 Amyloid Disease**
Infarct of Spleen
Parasite **of Spleen** State variety
Perisplenitis
Rupture of Spleen, Spontaneous
Splenitis, Acute
Splenitis, Chronic Intertitial
Splenoptosis

117. Simple peritonitis (nonpuerperal)

Abscess of Omentum State when possible infecting microörganism as a secondary diagnosis
Adhesions about Stomach
Adhesions of Peritonaeum
Parasite **of Peritonaeum** State variety

117. Simple peritonitis (nonpueperal)—Continued

Peritonitis, Acute General
Peritonitis, Acute Local
Peritonitis, Chronic General
Peritonitis, Chronic Local

Do not use as a primary diagnosis when cause can be determined. State when possible infecting microörganism as a secondary diagnosis When puerperal diagnosticate as **137 Peritonitis, (General or Local), Puerperium** When **Pelvic Abscess** occurs in the male assign number **144**; when in the female (nonpuerperal) **130B**

118. Other diseases of the digestive system (cancer and tuberculosis excepted)

Atrophy of Pancreas
Calculus of Pancreas
Obstruction of Pancreatic Duct
Pancreatitis, Acute State when possible infecting microörganism as a secondary diagnosis
Pancreatitis, Chronic
Parasite **of Pancreas** State variety
Subphrenic Abscess
Torsion of Omentum

VI. NONVENEREAL DISEASES OF THE GENITO-URINARY SYSTEM AND ANNEXA

119. Acute nephritis

Nephritis, Acute When a complication of pregnancy or the puerperium diagnosticate as **138 Nephritis, Acute, Pregnancy,** or **138 Nephritis, Acute, Puerperium.** When complicating **Scarlet Fever** use as a secondary diagnosis and assign number **7**

120 Bright's disease

Albuminuria Do not use as a primary diagnosis when cause can be determined

120. Bright's disease—Continued

Amyloid Kidney Diagnosticate as **55 Amyloid Disease**

Nephritis, Chronic Interstitial

Nephritis, Chronic, Parenchymatous

Uraemia, Acute Use only as a secondary diagnosis under appropriate form of nephritis. When a complication of Pregnancy or Puerperium use as secondary diagnosis to **Nephritis, Acute** (or **Chronic**) **Pregnancy** (or **Puerperium**) and assign number **138.** See also **Toxaemia of Pregnancy**

Uraemia, Chronic Use only as a secondary diagnosis under appropriate form of nephritis

121. Chyluria

Chyluria, Nonfilarial Do not use as a primary diagnosis when cause can be determined. When due to filaria diagnosticate as **19 Filariasis**

Lipaemia

122. Other diseases of the kidneys and annexa

Abscess of Kidney
Abscess, Perinephritic } State when possible infecting microörganism as a secondary diagnosis

Bilharziosis Diagnosticate as **Schistosomiasis, Urinary**

Congestion of Kidney Do not use as a primary diagnosis when cause can be determined

Cyst of Kidney

Cystinuria

Fistula of Kidney Do not use as a primary diagnosis when cause can be determined

Foreign Body in Ureter

Haematuria, Renal Do not use as a primary diagnosis when cause can be determined

Haemoglobinuria Not to include **19 Haemoglobinuric Fever.** Do not use as a primary diagnosis when cause can be determined

122. Other diseases of the kidneys and annexa—Continued

Hydronephrosis Do not use as a primary diagnosis when cause can be determined

Infarct of Kidney

Nephralgia Do not use as a primary diagnosis when cause can be determined

Nephritis, Disseminated Suppurative

Nephroptosis

Parasite **of Kidney** State variety

Pyelitis State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Pelvis of Kidney**

Pyelonephritis
Pyonephrosis — State when possible infecting microörganism as a secondary diagnosis. When the result of **Nephrolithiasis** assign number **123**

Schistosomiasis, Urinary

Stricture of Ureter Do not use as a primary diagnosis when cause can be determined

Ureteritis State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Ureter**

123. Calculi of the urinary passages

Calculus in Bladder

Calculus in Ureter, Impacted

Calculus in Urethra, Impacted

Colic, Renal Diagnosticate as **123 Ureteral Colic.** When not due to calculus assign number **122**

Nephrolithiasis

Pyonephrosis State when possible infecting microörganism as a secondary diagnosis. When not the result of **Nephrolithiasis** assign number **122**

Ureteral Colic Do not use as a primary diagnosis when cause can be determined. When not due to calculus assign number **122**

124. Diseases of the bladder

Abscess of Bladder Wall State when possible infecting microörganism as a secondary diagnosis

Atony of Bladder Do not use as a primary diagnosis when cause can be determined

Bacteriuria State when possible infecting microörganism as a secondary diagnosis Do not use as a primary diagnosis when cause can be determined

Cystitis, Acute State when possible infecting microörganism as a secondary diagnosis. Do not use as a primary diagnosis when cause can be determined. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Bladder**

Cystitis, Chronic

Deformity of Bladder, Acquired

Foreign Body in Bladder

Incontinence of Urine
Neurosis of Bladder
Enuresis, Functional
} Do not use as a primary diagnosis when cause can be determined

Parasite **of Bladder** State variety

Retention of Urine Do not use as a primary diagnosis when cause can be determined, but always specify as a secondary diagnosis when it exists

Ulcer of Bladder

125. Diseases of the urethra, urinary, abscess, etc.

Abscess about Urethra State when possible infecting microörganism as a secondary diagnosis

Caruncle of Urethra

Deformity of Urethra, Acquired

Extravasation of Urine Do not use as a primary diagnosis when cause can be determined, but always specify as a secondary diagnosis when it exists

Fistula of Bladder

Fistulae of Ureter

Fistula, Intestino-ureteral

Fistula of Ureter

Fistula, Ureterovaginal

Fistula, Ureterovesical

125. Diseases of the urethra, urinary, abscess, etc.—Con'd

Fistulae of Urethra

Fistula of Urethra
Fistula, Recto-urethral
Fistula, Urethrovaginal
Fistula, Urethrovesical
Fistula, Uterovesical
Fistula, Vesicovaginal
Foreign Body in Urethra
Prolapse of Urethra
Stricture of Urethra
Urethral Fever, Traumatic

Urethritis, Acute
Urethritis, Chronic
State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Urethra**

126. Diseases of the prostate

Abscess of Prostate State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Prostate**

Atrophy of Prostate Do not use as a primary diagnosis when cause can be determined

Calculus in Prostate

Enlargement of Prostate Not to include tumor

Prostatitis, Acute
Prostatitis, Chronic
State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Prostate**

127. Nonvenereal diseases of the male genital organs

Abscess of Cowper's Gland State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Cowper's Gland**

Abscess of Scrotum State when possible infecting microörganism as a secondary diagnosis

127. Nonvenereal diseases of the male genital organs—Continued

Abscess of Seminal Vesicle State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Seminal Vesicle**

Abscess of Epididymis State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Epididymis**

Abscess of Testicle State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Testicle**

Atrophy of Testicle Do not use as a primary diagnosis when cause can be determined

Balanoposthitis State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Penis**

Concretion in Seminal Vesicle Do not use as a primary diagnosis when cause can be determined

Deformity of Penis, Acquired

Epididymitis, Acute
Epididymitis, Chronic
State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Epididymis**

Gonecystitis, Acute
Gonecystitis, Chronic
State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Seminal Vesicle**

Haematocele of Spermatic Cord
Haematocele of Tunica Vaginalis

127. Nonvenereal diseases of the male genital organs—Continued

Haematoma of Spermatic Cord, Nontraumatic
Hydrocele of Spermatic Cord
Hydrocele of Tunica Vaginalis
Impotence
Inflammation of Spermatic Cord State when possible infecting microörganism as a secondary diagnosis. Do not use as a primary diagnosis when cause can be determined. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Spermatic Cord**

Orchitis, Acute
Orchitis, Chronic
Do not use as a primary diagnosis when cause can be determined. When a complication of Mumps diagnosticate as **19 Mumps.** When due to gonococcus diagnosticate as **38B Gonococcus Infection of Testicle**

Paraphimosis
Redundant Prepuce
Adhesions, Preputial
Concretions, Preputial
Phimosis When congenital assign number **150**
Redundant Scrotum Do not use as a primary diagnosis when cause can be determined
Sclerosis of Corpus Cavernosum
Seminal Emissions
Spermatocele
Spermatorrhoea
Sterility When occurring in the female assign number **132**
Torsion of Spermatic Cord, Nontraumatic

128. Uterine haemorrhage (nonpuerperal)

Menorrhagia
Metrorrhagia
Do not use as a primary diagnosis when cause can be determined

129. Uterine tumor (noncancerous)

See list of benign tumors on page 95

130. Other diseases of the uterus

130A Metritis

Endometritis, Acute State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Endometrium.** When puerperal diagnosticate as **137 Endometritis, Acute, Puerperium**

Endometritis, Chronic

Endotrachelitis, Chronic

Metritis, Acute State when possible infecting microörganism as a secondary diagnosis. When puerperal diagnosticate as **137 Metritis, Acute, Puerperium**

Metritis, Chronic

130B Other diseases of the uterus

Abscess, Parauterine (nonpuerperal) State when possible infecting microörganism as a secondary diagnosis

Abscess, Pelvic Not to include **130B Abscess, Parauterine** nor **130B Cellulitis, Pelvic.** State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Peritonaeum.** When puerperal diagnosticate as **137 Abscess, Pelvic, Puerperium**

Amenorrhoea Do not use as a primary diagnosis when cause can be determined

Atresia of Uterus, Acquired

Atrophy of Uterus

Cellulitis, Pelvic Not to include **130B Abscess, Parauterine** nor **130B Abscess, Pelvic.** State when possible infecting microörganism as a secondary diagnosis. When puerperal diagnosticate as **137 Cellulitis, Pelvic, Puerperium**

Displacement of Uterus

Anteflexion
Anteversion
Laterocession
Prolapse of Uterus
} Always use as a secondary diagnosis under **Displacement of Uterus**

130. Other diseases of the uterus—Continued

Displacement of Uterus—Continued

Retrocession
Retroversion } To include retroflexion

Dysmenorrhoea Do not use as a primary diagnosis when cause can be determined

Fistula, Uterovaginal

Hypertrophy of Cervix, Uteri

Laceration of Cervix Uteri, Old

Menopause

Menstruation, Precocious Diagnosticate as **130B Precocity**

Precocity

Stricture of Uterine Canal Do not use as a primary diagnosis when cause can be determined

131. Cysts and other tumors uf the ovary

Not to include malignant tumors. See list of benign tumors on page 95

Haematoma of Ovary

132. Salpingitis and other diseases of the female genital organs

Abscess of Bartholin's Gland State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Bartholin's Gland**

Abscess of Ovary
Abscess of Vagina
Abscess of Vulva } State when possible infecting microörganism as a secondary diagnosis

Adhesions about Clitoris

Atresia of Vagina, Acquired

Atrophy of Ovary

Atrophy of Vulva

Cyst of Bartholin's Gland

Cyst of Vagina

Displacement of Falloppian Tube

Displacement of Ovary

Dyspareunia Do not use as a primary diagnosis when cause can be determined

Garrulitas Vulvae

132. Salpingitis and other diseases of the female genital organs—Continued

Haematocele, Pelvic Do not use as a primary diagnosis when cause can be determined

Haematoma of Vulva, Nontraumatic Do not use as a primary diagnosis when cause can be determined

Haematosalpinx

Hydrocele of Round Ligament

Hydrocele of Vulva

Hypertrophy of Vulva State part affected

Hypertrophy of Clitoris

Kraurosis Vulvae

Laceration of Pelvic Floor, Old

Oöphoritis, Acute State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Ovary**

Oöphoritis, Chronic

Sclerosis of Ovary

Parasite **of Ovary** State variety

Prolapse of Anterior Vaginal Wall (Cystocele)
Prolapse of Posterior Vaginal Wall (Proctocele)
} Always use as a secondary diagnosis under either **132 Laceration** or **132 Relaxation of Pelvic Floor**

Relaxation of Pelvic Floor

Salpingitis, Acute State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Falloppian Tube**

Salpingitis, Chronic To include hydrosalpinx. State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Falloppian Tube**

Sterility When occurring in the male assign number **127**

132. Salpingitis and other diseases of the female genital organs—Continued

Vaginismus Do not use as a primary diagnosis when cause can be determined

Vaginitis, Acute
Vaginitis, Chronic
State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Vagina**

Vulvitis, Acute
Vulvitis, Chronic
State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of Vulva**

133. Nonpuerperal diseases of the breast (cancer excepted)

Abscess of Mammary Gland
Abscess, Submammary
State when possible infecting microörganism as a secondary diagnosis. When puerperal diagnosticate as **141 Abscess of Mammary Gland, Puerperium**, or **141 Abscess, Submammary, Puerperium**

Atrophy of Mammary Gland

Fissure of Nipple When puerperal diagnosticate as **141 Fissure of Nipple, Puerperium**

Fistula of Mammary Gland When puerperal diagnosticate as **141 Fistula of Mammary Gland, Puerperium**

Hypertrophy of Mammary Gland

Mamillitis When puerperal diagnosticate as **141 Mamillitis, Puerperium** (or **Pregnancy**)

133. Nonpuerperal diseases of the breast (cancer excepted) —Continued

Mastitis, Acute
Mastitis, Chronic
State when possible infecting microörganism as a secondary diagnosis. When puerperal diagnosticate as **141 Mastitis, Acute** (or **Chronic**), **Puerperium**

Neurosis of Mammary Gland Do not use as a primary diagnosis when cause can be determined

Parasite **of Mammary Gland** State variety

VII. THE PUERPERAL STATE

134. Accidents of pregnancy

134A *Normal labor*

Parturition, O. L. A.
Parturition, O. D. A.
Parturition, O. D. P.
Parturition, O. L. P.
Parturition, S. L. A.
Parturition, S. D. A.
Parturition, S. D. P.
Parturition, S. L. P.
Parturition, Multiple State positions
Pregnancy, Normal
Puerperium, Normal

134B Accidents of pregnancy

Abortion Up to fourth month of pregnancy
Abortion, Threatened
Accidental Haemorrhage, Pregnancy Not to include **135 Placenta Praevia**
Deformed Pelvis, Pregnancy When the deformity is congenital diagnosticate as **150 Congenital Malformation of Pelvic Girdle, Pregnancy**
Displacement of Uterus, Pregnancy
Gestation, Extrauterine
Hydramnios, Pregnancy

134. Accidents of Pregnancy—Continued

Hydrorrhoea, Gravidarum

Miscarriage
Miscarriage, Threatened } From fourth to seventh month of pregnancy

Pregnancy, Vomiting of Not to include **138 Toxaemia of Pregnancy**

Premature Delivery After seventh month of pregnancy

135. Puerperal haemorrhage

Accidental Haemorrhage, Parturition Not to include **135 Placenta Praevia**

Accidental Haemorrhage, Puerperium Not to include **135 Placenta Praevia**

Placenta Praevia, Parturition

Placenta Praevia, Pregnancy

Retained Secundines, Parturition

Retained Secundines, Puerperium

136. Other accidents of labor

Deformed Pelvis, Parturition When the deformity is congenital diagnosticate as **150 Congenital Malformation of Pelvic Girdle, Parturition**

Haematoma of Vulva, Puerperium

Laceration of Cervix Uteri, Recent
Laceration of Pelvic Floor, Recent } Use only as a secondary diagnosis to puerperium

Parturition, M. L. A.

Parturition, M. D. A.

Parturition, M. D. P.

Parturition, M. L. P.

Parturition, Sc. L. A.

Parturition, Sc. D. A.

Parturition, Sc. D. P.

Parturition, Sc. L. P.

Rupture of Uterus, Parturition

Rupture of Uterus, Puerperium

Subinvolution of Uterus

137. Puerperal septichaemia

Abscess, Pelvic, Puerperium **Cellulitis, Pelvic, Puerperium** **Endometritis, Acute, Puerperium** **Lymphangitis of, Puerperium** **Metritis, Acute, Puerperium** **Peritonitis, Acute General, Puerperium** **Peritonitis, Acute Local, Puerperium** **Septichaemia, Puerperium**	State when possible infecting microörganism as a secondary diagnosis

138. Puerperal albuminuria and convulsions

Albuminuria, Pregnancy
Albuminuria, Puerperium

Nephritis, Acute, Pregnancy **Nephritis, Acute, Puerperium**	Not to include **138 Toxaemia of Pregnancy**

Toxaemia of Pregnancy

Eclampsia, Parturition **Eclampsia, Pregnancy** **Eclampsia, Puerperium**	Use only as a secondary diagnosis under **138 Toxaemia of Pregnancy**

139. Puerperal plegmasia alba dolens, embolus, sudden death

Embolism of, Puerperium	State artery
Phlebitis of, Puerperium	State vein
Thrombosis of, Puerperium	State vessel

140. Following childbirth (not otherwise defined)

Displacement of Uterus, Puerperium

141. Puerperal diseases of the breast

Abscess of Mammary Gland, Puerperium **Abscess, Submammary, Puerperium**	State when possible infecting microörganism as a secondary diagnosis

Agalactia
Fissure of Nipple, Puerperium

141. Puerperal diseases of the breast—Continued

Fistula of Mammary Gland, Puerperium
Galactocele
Galactorrhoea
Mamillitis, Pregnancy
Mamillitis, Puerperium
Mastitis, Puerperium
Milk Retention

State when possible infecting microörganism as a secondary diagnosis

VIII. DISEASES OF THE SKIN AND OF THE CELLULAR TISSUE

142. Gangrene

Dermatitis Gangrenosa
Erythromelalgia
Gangrene of Not to include **142 Infective Gangrene** nor **95 Gangrene of Lung.** State site. State when possible infecting microörganism as a secondary diagnosis. Do not use as a primary diagnosis when cause can be determined
Gangrene of, Infective State site. State when possible infecting microörganism as a secondary diagnosis
Gangrene of Scrotum, Infective
Gangrene of Testicle Do not use as a primary diagnosis when cause can be determined
Raynaud's Disease
Stomatitis, Gangrenous To include cancrum oris (noma). State when possible infecting microörganism as a secondary diagnosis

143. Furuncle

Carbuncle of State site. State when possible infecting microörganism as a secondary diagnosis
Furunculosis

144. Acute abscess

Abscess of To include only abscess of skin and cellular tissue. Not to include **Abscess of, Tuberculous.** State site. State when possible infecting microörganism as a secondary diagnosis

144. Acute abscess—Continued

Abscess in Male Perinaeum

Cellulitis of Not to include **130B Cellulitis, Pelvic.** State site. State when possible infecting microörganism as a secondary diagnosis

145. Other diseases of the skin and annexa

145A *Trichophytosis*

Ringworm / *Trichophyton* } Diagnosticate as **Trichophytosis**

Trichophytosis To include sycosis and ringworm

145B *Scabies*

Sarcoptes scabiei Diagnosticate as **Scabies**

Scabies

145C Other diseases of the skin and annexa

Acne

Alopecia

Alopecia Areata

Angiokeratoma

Anidrosis

Atrophy of Skin

Bromidrosis

Callositas

Chilblain (Pernio)

Chloasma

Chromidrosis

Cicatricial Contraction of State part affected

Cicatrix of State site. Do not use for **Cicatricial Contraction of**

Clavus

Comedo

Cornu

Dermatitis Actinica Diagnosticate as **167 Sunburn;** X-ray and radium burns as **Burn of**

Dermatitis Exfoliativa

Dermatitis Herpetiformis

Dermatitis Medicamentosa Do not use as a primary diagnosis when cause can be determined

145. Other diseases of the skin and annexa—Continued

Dermatitis Papillaris Capillitii
Dermatitis Repens
Dermatitis Traumatica
Dermatitis Venenata
Dysidrosis
Ecthyma
Eczema
Eczema Seborrhoicum
Elephantiasis, Nonfilarial
Elephantiasis of Scrotum, Nonfilarial
Elephantiasis of Vulva, Nonfilarial
Erythema Multiforme
Erythema Nodosum
Erythema Scarlatiniforme
Erythema Simplex
Fissure of Skin
Folliculitis Decalvans
Herpes State site. Not to include **145C Zoster**
Hyperidrosis
Ichthyosis
Impetigo Contagiosa
Impetigo Herpetiformis
Impetigo Simplex
Intertrigo
Keloid State site. Diagnosticate as **145C Fibroma of Skin**
Keratodermia
Keratosis
Lentigo (Freckle)
Leucodermia (Vitiligo)
Leukokeratosis
Lichen Planus
Lichen Ruber
Lupus Erythematosus
Lupus Vulgaris Diagnosticate as **34 Tuberculosis of Skin**
Melanodermia
Miliaria
Milium
Molluscum Contagiosum
Oriental Sore (Aleppo boil, Delhi boil, Biskra button)

145. Other diseases of the skin and annexa—Continued

PARASITIC DISEASES

Dracontiasis
Filaria Medinensis (Guinea worm) Diagnosticate as **Dracontiasis**
Larva Migrans
Myiasis
Phtheiriasis (Pediculosis)
Sarcopsiliasis (Pulex penetrans)
Pemphigus
Pityriasis Rosea
Pityriasis Rubra Diagnosticate as **145C Dermatitis Exfoliativa**
Pityriasis Simplex
Pneumatocele Capitis
Prurigo
Pruritus Not to include **Pruritus Ani** or **Pruritus Vulvae**
Pruritus Ani
Pruritus Vulvae
Psoriasis
Rosacea
Sclerodermia To include morphoea
Seborrhoea
Sinus of State site
Sudamina
Ulcer of State site. Assign number **83** to **Varicose Ulcer**
Urticaria
Urticaria Pigmentosa
Veldt Sore
Wart
Xanthoma
Xerodermia Pigmentosa
Zoster

NAILS

Ingrowing Nail
Onychauxis
Onychia
Onychoma
Paronychia

IX. DISEASES OF THE BONES AND OF THE ORGANS OF LOCOMOTION

146. Diseases of the bones (tuberculosis excepted). State bone

Abscess of State when possible infecting microörganism as a secondary diagnosis. When tuberculous diagnosticate as **Abscess of, Tuberculous** and use only as a secondary diagnosis under **34 Tuberculosis of** *Bone*. When affecting vertebrae (Pott's disease) assign number **32**

Atrophy of

Chondrodystrophia Foetalis

Deformity of Palate, Acquired

Ethmoidal Sinusitis State when possible infecting microörganism as a secondary diagnosis

Exostosis Diagnosticate as **146 Osteoma of**

Foreign Body in Frontal Sinus

Foreign Body in Maxillary Sinus

Fragilitas Ossium

Frontal Sinusitis State when possible infecting microörganism as a secondary diagnosis

Hypertrophy of

Leontiasis Ossea

Loss of Substance of

Mastoiditis, Acute
Mastoiditis, Chronic } State when possible infecting microörganism as a secondary diagnosis

Fistula, Mastoid

Maxillary Sinusitis State when possible infecting microörganism as a secondary diagnosis

Necrosis of
Caries of } Do not use as a primary diagnosis

Osteitis Deformans

Osteogenesis Imperfecta

Osteomyelitis of, Acute
Epiphysitis of, Acute
Osteomyelitis of, Chronic
Epiphysitis of, Chronic } State when possible infecting microörganism as a secondary diagnosis

146. Diseases of the bones (tuberculosis excepted)—Cont'd

Parasite **of** State site
Parasite **of Frontal Sinus**
Parasite **of Maxillary Sinus**
} State variety

Periostitis of, Acute
Periostitis of, Chronic
} State when possible infecting microörganism as a secondary diagnosis

Sphenoidal Sinusitis State when possible infecting microörganism as a secondary diagnosis

Union of, Faulty To include delayed union, faulty union, non-union, vicious union, and exuberant callus

147. Diseases of the joints (tuberculosis and rheumatism excepted)

State joint

Ankylosis of Do not diagnosticate cicatricial contraction affecting joint as ankylosis

Arthritis of, Acute
Arthritis of, Chronic
} To include acute and chronic synovitis. Not to include **Traumatic Synovitis.** State when possible infecting microörganism as a secondary diagnosis. When due to gonococcus diagnosticate as **38B Gonococcus Infection of——Joint**

Chondromalacia
Contracture of

Coxa Valga
Coxa Vara
} Do not use as a primary diagnosis when cause can be determined

Foreign Body in
Genu Recurvatum
Genu Valgum
Genu Varum

147. Diseases of the joints (tuberculosis and rheumatism excepted)—Continued

Haemorrhage into—Nontraumatic Do not use as a primary diagnosis when cause can be determined

Loose Body in—Joint

Parasite **of—Joint** File under Parasites

148. Amputations

No terms under this title

149. Other diseases of the organs of locomotion

State part affected

Abscess of

State when possible infecting microörganism as a secondary diagnosis. When due to B. mallei diagnosticate as **21 Glanders.** When due to tuberculosis diagnosticate as **Abscess of, Tuberculosis;** use only as a secondary diagnosis under **34 Tuberculosis of—Muscle**

Ainhum

Amputation Stump

Amyotonia Congenita

Atrophy of

Bursitis, Acute
Bursitis, Chronic — To include abscess of bursa. State when possible infecting microörganism as a secondary diagnosis

Calcification of *Cartilage*
Chondritis of
Perichondritis of — Do not use as a primary diagnosis when cause can be determined. State when possible infecting microörganism as a secondary diagnosis

Contracture of
Cramp of — State muscle

Degeneration of

Dupuytren's Contraction

Ganglion When tuberculous diagnosticate as **34 Tuberculosis of**

Hallux Valgus (Bunion)

149. Other diseases of the organs of locomotion—Cont'd

Hallux Varus
Hammer Toe
Hernia of
Mallet Finger
Metatarsalgia
Myositis, Acute State when possible infecting microörganism as a secondary diagnosis
Myositis, Chronic
Myositis, Progressive Ossifying
Myositis, Traumatic Ossifying
Myotonia Congenita
Ossification of *Cartilage* Do not use as a primary diagnosis when cause can be determined. When affecting larynx assign number **87.** When affecting tracheal rings, number **98**
Paralysis of, Ischaemic
Parasite **of** State variety
Pes Cavus
Pes Planus
Pes Valgus
Rheumatism, Muscular
Spondylitis Deformans Diagnosticate as **48A Arthritis Deformans**
Talipes When congenital diagnosticate as **150 Congenital Malformation of Foot**
Tenontosynovitis of When due to gonococcus diagnosticate as **38B Gonococcus Infection of**
Torticollis Diagnosticate according to cause as **Contracture of,** or **Cramp of**
Trigger Finger

X. MALFORMATIONS

150. Congenital malformations (stillbirths not included)

Albinism Diagnosticate as **150 Congenital Malformation of Skin**
Branchial Cyst
Cervical Rib
Congenital Amputation of State part affected

150. Congenital malformations (stillbirths not included) —Continued

Congenital Fistula of State site
Congenital Fracture of State bone affected
Congenital Malformation of Abdominal Wall Not to include herniae
Congenital Malformation of Arm
Congenital Malformation of Forearm
Congenital Malformation of Hand
Congenital Malformation of *Circulatory System*
Congenital Malformation of Diaphragm
Congenital Malformation of *Digestive System*
Congenital Malformation of *Ductless Glands and Spleen*
Congenital Malformation of Ear Not to include external ear
Congenital Malformation of Eye Not to include eyelid
Congenital Malformation of *Face* To include external ear, eyelid, lip, nose, palate and uvula
Congenital Malformation of Cheek
Congenital Malformation of Lower Jaw
Congenital Malformation of—Joint State joint affected
Congenital Dislocation of—Joint
Congenital Malformation of Leg
Congenital Malformation of Foot To include congenital talipes
Congenital Malformation of *Lymphatic System*
Congenital Malformation of *Muscular System*
Congenital Malformation of *Nervous System*
Congenital Malformation of Skull
Congenital Malformation of Spinal Column
Congenital Malformation of Pelvic Girdle
Congenital Malformation of *Reproductive Organs*
Congenital Malformation of *Respiratory System*

150. Congenital malformations (stillbirths not included) —Continued

Congenital Malformation of *Shoulder Girdle*
Congenital Malformation of Skin Not to include **150 Naevus**
Congenital Malformation of Hair
Congenital Malformation of Nails
Congenital Malformation of Thorax
Congenital Malformation of *Urinary Organs*
Hermaphroditism
Monster
Naevus
Transposition of State viscera transposed

XI. DISEASES OF EARLY INFANCY

151. Congenital debility, icterus and sclerema

151A Nurslings discharged from hospital without disease
Infancy
New Born Child Full term child born in the hospital or hospital ambulance

151B Congenital debility, icterus and sclerema
Diet Regulation
Icterus Neonatorum
Malnutrition, under 1 year
Prematurity Not to include still-births
Sclerema, under 1 year

152. Other diseases peculiar to early infancy

152A Injuries at birth
For terms denoting the nature of the injury see pages 111 et seq

152B Diseases peculiar to early infancy
Atelectasis, under 3 months
Haemoglobinuria Neonatorum
Haemorrhage from Umbilical Cord
Melaena Neonatorum
Ophthalmia Neonatorum Diagnosticate as **38B Gonococcus Infection of Eye**
Pemphigus Neonatorum

153. Lack of care
No terms under this title

XII. OLD AGE

154. Senility
154A Psychosis, Senile
154B Senility Not to include **154A Psychosis, Senile.** When due to arterial sclerosis diagnosticate as **81 Arterial Sclerosis, General**

XIII. AFFECTIONS PRODUCED BY EXTERNAL CAUSES

The statement of the nature of the injury is made without reference to possible judicial determinations as to the cause of the violence, namely, whether accidental, suicidal or homicidal, therefore, no terms are used under the following titles: 155 to 163 and 182 to 184

155. Suicide by poison
156. Suicide by asphyxia
157. Suicide by hanging or strangulation
158. Suicide by drowning
159. Suicide by firearms
160. Suicide by cutting or piercing instruments
161. Suicide by jumping from a high place
162. Suicide by crushing
163. Other suicides
182. Homicide by firearms
183. Homicide by cutting or piercing instruments
184. Homicide by other means

164. Poisoning by food
Botulism
Creatoxismus (meat poisoning)
Egg Albumin Poisoning
Epidemic Meat Poisoning
Fish poisoning
Shell Fish Poisoning
Milk Poisoning
Cheese Poisoning
Ice Cream Poisoning
Mushroom Poisoning
Potato Poisoning

165. Other acute poisonings

165A Venomous bites and stings
Fish Venom Poisoning
Insect Sting
Snake Venom Poisoning

165B Other acute poisonings (deleterious gases excepted) Industrial poisonings also excepted
Acetanilide Poisoning, Acute
Acetic Acid Poisoning
Aconite Poisoning
Aconitine Poisoning
Alum Poisoning
Ammonia Poisoning, Acute
Ammonium Carbonate Poisoning
Ammonium Hydroxide Poisoning
Amyl Alcohol Poisoning (Fusel oil)
Amylene Hydrate Poisoning
Aniline Poisoning
Antimony Poisoning
Antipyrine Poisoning, Acute
Arsenic Poisoning, Acute
Aspidium Poisoning
Barium Poisoning
Belladonna Poisoning
Atropine Poisoning
Benzol Poisoning (Benzine)
Bismuth Poisoning Not to include arsenic or nitrite poisoning
Boric Acid Poisoning
Borax Poisoning
Bromoform Poisoning
Cannabis Indica Poisoning, Acute (Hashish)
Cantharides Poisoning
Carbolic Acid Poisoning Diagnosticate as **Phenol Poisoning**
Carbon Disulphide Poisoning
Castor Oil Seed Poisoning
Chloral Hydrate Poisoning, Acute
Chloralamide Poisoning
Chlorate Poisoning
Chlorethyl Poisoning
Chlorinated Lime Poisoning

165. Other acute poisonings—Continued

Chlorinated Soda Poisoning
Chloroform Poisoning
Chromium Poisoning
Chrysarobin Poisoning
Cinchona Poisoning
  Quinine Poisoning
Coca Poisoning, Acute
  Cocaine Poisoning, Acute
Cocculus Indicus Poisoning
  Picrotoxine Poisoning
Caffeine Poisoning, Acute
Colchicum Poisoning
  Colchicine Poisoning
Conium Poisoning
Copaiba Poisoning
Copper Poisoning
Cordite Poisoning Not to include nitrite or picric acid poisoning
Creolin Poisoning
Creosote Poisoning
  Guaiacol Poisoning
Croton Oil Poisoning
Curare Poisoning
Delphinium Poisoning
Digitalis Poisoning
Duboisia Poisoning
Elaterium Poisoning
  Elaterin Poisoning
Epinephrin Poisoning
Ergot Poisoning, Acute
Ether Poisoning, Acute
Formaldehyde Poisoning To include hexamethylenamine poisoning. When inhaled assign number **168B**
Gasoline Poisoning When inhaled assign number **168B**
Gelsemium Poisoning
Hydrochloric Acid Poisoning
Hydrocyanic Acid Poisoning When inhaled assign number **168B**
  Cyanide Poisoning
Hydrofluoric Acid Poisoning
Hyoscyamus Poisoning
  Hyoscyamine Poisoning

165. Other acute poisonings—Continued

Hyoscine Poisoning (Scopolamine)
Iodine Poisoning
Iodoform Poisoning
Iron Poisoning
Kerosene Poisoning
Lead Poisoning, Acute
Lobelia Poisoning
Lysol Poisoning
Magnesium Poisoning
Mercury Poisoning, Acute
Methyl Alcohol Poisoning
Muscarine Poisoning
Naphthalene Poisoning
Naphthol Poisoning
Nitric Acid Poisoning
Nitrite Poisoning To include amyl nitrite and nitroglycerin poisoning. When inhaled assign number **168B**
Nitrobenzine Poisoning
Nux Vomica Poisoning
Strychnine Poisoning
Opium Poisoning, Acute
Codeine Poisoning, Acute
Dionine Poisoning, Acute
Heroine Poisoning, Acute
Morphine Poisoning, Acute
Oxalic Acid Poisoning
Acid Potassium Oxalate Poisoning
Paraldehyde Poisoning, Acute
Parathyreoid Extract Poisoning
Pennyroyal Poisoning
Petroleum Poisoning
Phenacetin Poisoning, Acute
Phenol Poisoning
Phosphoric Acid Poisoning
Phoshporus Acid Poisoning
Phosphorus Poisoning, Acute
Physostigma Poisoning
Physostigmine Poisoning
Picric Acid Poisoning
Pilocarpus Poisoning
Pilocarpine Poisoning
Potassium Carbonate Poisoning
Potassium Chlorate Poisoning Diagnosticate as **Chlorate Poisoning**

165. Other acute poisonings—Continued

Potassium Hydroxide Poisoning
Potassium Nitrate Poisoning
Pyrogallic Acid Poisoning
Resorcin Poisoning
Rhus Toxicodendron Poisoning Diagnosticate as **Dermatitis Venenata**
Salicylic Acid Poisoning To include salicylates
Santonin Poisoning
Serum Poisoning
Silver Poisoning, Acute
Sodium Carbonate Poisoning
Sodium Chlorate Poisoning Diagnosticate as **Chlorate Poisoning**
Sodium Chloride Poisoning
Sodium Hydroxide Poisoning
Stramonium Poisoning
Strophanthus Poisoning
Strophanthin Poisoning
Sulphonal Poisoning, Acute
Sulphuric Acid Poisoning
Sulphurous Acid Poisoning
Tansy Poisoning
Tartaric Acid Poisoning
Thymus Extract Poisoning
Thyreoid Extract Poisoning
Tobacco Poisoning, Acute
Nicotine Poisoning, Acute
Trional Poisoning, Acute
Turpentine Poisoning
Veratrum Poisoning
Veronal Poisoning, Acute
Zinc Poisoning

166. Conflagration*

To include all injuries of whatever nature resulting from the burning of buildings, ships, forest fires. For terms denoting the nature of the injury see page 111 et seq.

167. Burns (conflagration excepted)

To include scalds, corrosive and mechanical burns, and the effects of X-rays, and of radium. Not to include burns from classified causes

*Inadequate provision is made in the International Classificaton whereby the nature of the injury can be indicated. For these terms see page 111 et seq.

167. Burns (conflagration excepted)—Continued
Burn of State site
Burns, Multiple
Sunburn
168. Absorption of deleterious gases
Not to include Industrial Poisonings; see title 58
168A Suffocation To include overlying
168B Acetylene Poisoning
168B Arseniuretted Hydrogen Poisoning
168B Bromine Poisoning
168B Carbon Dioxide Poisoning
168B Carbon Disulphide Poisoning
168B Carbon Monoxide Poisoning Not to include **Illuminating Gas Poisoning**
168B Chlorethyl Vapor Poisoning
168B Chlorine Poisoning
168B Chloroform Vapor Poisoning
168B Chloroform Vapor Poisoning, Delayed
168B Ether Vapor Poisoning
168B Formaldehyde Poisoning
168B Gasolene Poisoning
168B Hydrocyanic Acid Poisoning
168B Cyanogen Poisoning
168B Illuminating Gas Poisoning
168B Marsh Gas Poisoning
168B Methyl Alcohol Vapor Poisoning
168B Nitrite Poisoning To include amyl nitrite poisoning
168B Nitrous Oxide Poisoning
168B Phosphoretted Hydrogen Poisoning
168B Sewer Gas Poisoning
168B Smoke Inhalation When due to conflagration assign number **166**
168B Sulphuretted Hydrogen Poisoning
168B Turpentine Vapor Poisoning
169. Accidental drowning
169A Submersion
169B Drowning
170. Traumatism by firearms*
The nature of the injury must be stated in the terms to be found on pages 111 et seq. for this and the following titles
171. Traumatism by cutting or piercing instruments

*For subdivision of this title see page 109

172. Traumatism by fall
173. Traumatism in mines and quarries*
174. Traumatism by machines*
175. Traumatism by other crushing (vehicles, railroads, landslides, etc.)*
176. Injuries by animals
To include bites, kicks, goring, etc. Not to include venomous bites or stings
177. Starvation
177A Over-exertion
Exhaustion from Over-exertion and Exposure
177B Starvation
Deprivation of Water
Starvation
178. Excessive cold
Exposure to Extreme Cold
Frostbite of External Ear
Frostbite of Face Not to include frostbite of ear or nose
Frostbite of *Lower Extremity* Specify buttock, thigh, leg, foot, or toe
Frostbite of Nose
Frostbite of Penis
Frostbite of Scrotum
Frostbite of *Upper Extremity* Specify shoulder, arm, forearm, hand, or finger
179. Effects of heat
179A Heat Cramps
179A Heat exhaustion
179A Thermic Fever
179B Sunstroke
180. Lightning
Lightning Stroke
181. Electricity (lightning excepted)
Not to include electric burns
181A Effects of Electricity, Industrial
Electric Shock, Injury from
181B Effects of Electricity, Nonindustrial
Electric Shock, Injury from

---

*For subdivision of these titles see page 109

185. Fractures (cause not specified)
185A Dislocations
185B Sprains
185C Fractures (cause not specified)
For terms denoting the nature of the injuries see page 111 et seq

186. Other external violence
For terms denoting the nature of the injuries see page 111 et seq
Not to include **Foreign Body in Auditory Canal** (76); **Bladder** (124); **Eye** (75C); **Frontal Sinus** (146); **Intestine** (110B); **Joint** (147); **Maxillary Sinus** (146); **Oesophagus** (101); **Rectum** (110B); **Stomach** (103); **Ureter** (122); or **Urethra** (125).

XIV. ILL DEFINED DISEASES

187. Ill defined organic disease
No terms under this title

188. Sudden death
No terms under this title

189. Unclassified or ill defined

189A Disease not specified or ill defined
Dentition
Fever of Unknown Cause
Headache
Insomnia
} Do not use as a primary diagnosis when cause can be determined

Malnutrition (1 year and over)
Sea Sickness
Shock Do not use as a primary diagnosis when cause can be determined
Unknown To include cases refusing examination or not presenting any definite disease or condition

189. Unclassified or ill defined—Continued

189B No disease; feigned disease

Blood Donor

Malingering

Not Insane

Operation Wound To include only such cases as have been operated on before admission to the hospital and not presenting any other condition or disease

Phantom Tumor

Pseudocyesis

Skin Donor

Vagrancy

INDEX

The numbers refer only to pages; those in bold face type, to the page on which the term is fully defined.

Abdominal cavity, foreign body in **114**
wall, abrasion of **125**
burn of **125**
congenital malformation of **14, 189**
contusion of **125**
foreign body in **126, 198**
haematoma of **126**
injuries of 125
wound of, gunshot **126**
incised **126**
lacerated **126**
punctured **126**
stab **126**
Abnormal parturition 106, 179
Abnormities, congenital 14, 188
Abortion **104,** 178
induction of **132**
threatened **104,** 178
Abrasion of abdominal wall **125**
anus **115**
arm **127**
back **126**
bladder **124**
breast **119**
buttock **127**
chest wall **126**
external ear **115**
eye **116**
eyelid **116**
face **128**
finger **127**
foot **127**
forearm **127**
gum **114**
hand **127**
larynx **122**
leg **127**
lip **114**
mouth **114**
neck **128**
nose **123**
oesophagus **114**
palate **114**
penis **120**
perinaeum **129**
pharynx **114**
rectum **115**
scalp **128**
scrotum **120**
shoulder **127**
thigh **127**
toe **127**

Abrasion of—Continued
tongue **114**
tonsil **114**
trachea **124**
ureter **125**
urethra **125**
uvula **114**
vagina **122**
vulva **122**
Abrasions, multiple **129**
Abscess about rectum **32,** 164
urethra **103,** 170
alveolar **30,** 157
entamoebic, of liver **25,** 60, 165
in male perinaeum **103,** 170
of **43,** 181
Bartholin's gland **79,** 175
bladder wall **99,** 170
bone **16,** 185
tuberculous **16,** 185
brain **56,** 143
bursa **18,** 187
cartilage **16,** 187
tuberculous **16** 137
Cowper's gland **81,** 171
epididymis **84,** 172
eye **39,** 147
eyelid **39,** 147
intestine **22**
kidney **100,** 168
larynx **86,** 154
liver **25,** 165
entamoebic **25,** 60, 165
lung **87,** 156
lymph node **49,** 152
tuberculous **49,** 152
mammary gland **73,** 177
puerperium 73, **104,** 177, 180
muscle **55,** 187
tuberculous **55,** 137
nasal septum **89,** 154
omentum **26,** 166
ovary **75,** 175
pharynx **29,** 158
tuberculous **29,** 137, 158
prostate **82,** 171
salivary duct **30,** 157
gland **30,** 157
scrotum **82,** 171
seminal vesicle **83,** 172
spleen **36,** 166
tendon sheath **56,** 187
testicle **84,** 172
tongue **30,** 157
tuberculous 16, 29, **43,** 48, 49, 55, 137, 158
vagina **78,** 175
vertebrae, tuberculous 16, **17,** 48, 136, 185
vulva **79,** 175
parauterine (nonpuerperal) **75,** 174
pelvic 27, **75,** 167, 174

Abscess, pelvic—Continued
puerperium 75, **104,** 174, 180
perinephritic **100,** 168
submammary **73,** 177
puerperium 73, **104,** 177, 180
subphrenic **37,** 167
tonsillar **31,** 158
Absence of, congenital **14,** 188
lens **40,** 147
Absinthe poisoning **65,** 141
Absorption of deleterious gases, non-industrial **110,** 130, 196
Accessory organs 14, 188
Accidental haemorrhage, parturition **104,** 179
pregnancy **104,** 178
puerperium **104,** 179
Accommodation, errors of **40,** 147
Acetanilide poisoning, acute **65,** 192
chronic **65,** 142
Acetic acid poisoning **65,** 192
Acetylene poisoning **65,** 196
industrial **65,** 141
Achorion schoenleini **60**
Achylia gastrica **34,** 159
Acid, acetic, poisoning **65,** 192
boric, poisoning **66,** 192
carbolic, poisoning **66,** 192
hydrochloric, poisoning **68,** 193
industrial **68,** 141
hydrocyanic, poisoning **68,** 193, 196
industrial **68,** 141
hydrofluoric, poisoning **68,** 193
industrial **68,** 141
nitric, poisoning **69,** 194
oxalic, poisoning **70,** 194
phosphoric, poisoning **70,** 194
phosphorus poisoning **70,** 194
picric, poisoning 67, **71,** 193, 194
industrial **71,** 142
potassium oxalate poisoning **70,** 194
pyrogallic, poisoning **71,** 195
salicylic, poisoning **71,** 195
sulphuric, poisoning **72,** 195
sulphurous, poisoning **72,** 195
vapor poisoning, industrial **72,** 142
tartaric, poisoning **72,** 195
Acidosis, nondiabetic 36, **52,** 140, 160
Acne **91,** 182
Aconite poisoning **65,** 192
Aconitine poisoning **65,** 192
Acquired atresia of uterus **77,** 174
vagina **78,** 175
deformity of bladder **99,** 170
external ear **38,** 150
liver **25,** 166
nose **89,** 154
palate **29,** 185
